Genius Of Venice 1500 16:

The genius of Venice 1500 - 1600 : Royal Academy of Arts, London, 1983 ; catalogue ; [exhibition 25 November 1983 - 11 March 1984] Charles Hope, Jane Martineau, 1983 **European Sculpture, 1400-1900, in the Metropolitan Museum of Art** Metropolitan Museum of Art (New York, N.Y.), Ian Wardropper, 2011 This beautiful book features masterpieces of sculpture in the collection of the Metropolitan Museum dating from the Renaissance through the nineteenth century Celebrated works by the great European sculptors including Luca and Andrea della Robbia Juan Martinez Montañés Gianlorenzo Bernini Jean Antoine Houdon Bertel Thorvaldsen Antoine Louis Barye Jean Baptiste Carpeaux Edgar Degas and Auguste Rodin are joined by striking new additions to the collection notably Franz Xaver Messerschmidt's remarkable bust of a troubled and introspective man The ninety two selected examples are diverse in media marble bronze wood terracotta and ivory and size ranging from a tiny oil lamp fantastically conceived and decorated by the Renaissance bronze sculptor Riccio to Antonio Canova's eight foot high Perseus with the Head of Medusa executed in the heroic Neoclassical style Incorporating information from the latest scholarly research and recent conservation studies sculpture specialist Ian Wardropper discusses the history and significance of the highlighted works each of which is reproduced with glorious new photography **The "Divine" Guido** Richard E. Spear, Guido Reni, 1997-01-01 In this highly original study of Italian baroque master Guido Reni 1575 1642 Richard Spear paints a compelling portrait of the artist his complexities his formative experiences his cultural surroundings and his unique sensibilities Spear views Reni's career from a wide variety of perspectives and sets his life and works in social economic historical artistic religious and psychological contexts The author focuses first on Reni's peculiar character a man at once deeply religious rabidly misogynist reportedly virginal neurotically fearful of witches and addicted to gambling The author considers the enduring charisma of Reni's Crucifixions weeping Marys and repentant saints in the light of the Catholic doctrinal meaning of grace in Reni's time the Church's attitude toward Mary and women and the gendered implications of visual grace Chapters on Reni's pricing policies selling strategies use of assistants and attitude toward what constituted an original expose the motivating importance of money for Reni and the concerns even among seventeenth century collectors about how to distinguish original paintings from studio replicas or copies The book investigates the ways renaissance and baroque attitudes toward art making affected Reni and closes with a fresh view of Reni's unfinished canvases and last style including the Divine Love the beautiful and unusual painting that remained in Reni's studio at the time of his death Dosso's Fate Dosso Dossi, 1998 Dosso Dossi has long been considered one of Renaissance Italy's most intriguing artists Although a wealth of documents chronicles his life he remains in many ways an enigma and his art continues to be as elusive as it is compelling In Dosso's Fate leading scholars from a wide range of disciplines examine the social intellectual and historical contexts of his art focusing on the development of new genres of painting questions of style and chronology the influence of courtly culture and the work of his collaborators as well as his

visual and literary sources and his painting technique The result is an important and original contribution not only to literature on Dosso Dossi but also to the study of cultural history in early modern Italy *Plunder* Cynthia Saltzman, 2021-05-11 One of The Christian Science Monitor's Ten Best Books of May A highly original work of history Saltzman has written a distinctive study that transcends both art and history and forces us to explore the connections between the two Roger Lowenstein The Wall Street Journal A captivating study of Napoleon's plundering of Europe's art for the Louvre told through the story of a Renaissance masterpiece seized from Venice Cynthia Saltzman's *Plunder* recounts the fate of Paolo Veronese's *Wedding Feast at Cana* a vast sublime canvas that the French under the command of the young Napoleon Bonaparte tore from a wall of the monastery of San Giorgio Maggiore on an island in Venice in 1797 Painted in 1563 during the Renaissance the picture was immediately hailed as a masterpiece Veronese had filled the scene with some 130 figures lavishing color on the canvas to build the illusion that the viewer's space opened onto a biblical banquet taking place on a terrace in sixteenth century Venice Once pulled from the wall the Venetian canvas crossed the Mediterranean rolled on a cylinder soon after artworks commandeered from Venice and Rome were triumphantly brought into Paris In 1801 the Veronese went on exhibition at the Louvre the new public art museum founded during the Revolution in the former palace of the French kings As Saltzman tells the larger story of Napoleon's looting of Italian art and its role in the creation of the Louvre she reveals the contradictions of his character his thirst for greatness to carry forward the finest aspects of civilization and his ruthlessness in getting whatever he sought After Napoleon's 1815 defeat at Waterloo the Duke of Wellington and the Allies forced the French to return many of the Louvre's plundered paintings and sculptures Nevertheless *The Wedding Feast at Cana* remains in Paris to this day hanging directly across from the *Mona Lisa* Expertly researched and deftly told *Plunder* chronicles one of the most spectacular art appropriation campaigns in history one that sheds light on a seminal historical figure and the complex origins of one of the great museums of the world **Guide des bronzes de la Renaissance italienne** Alan Gibbon, 1990 **The Palladian Landscape: Geographical Change and Its Cultural Representations in Sixteenth-Century Italy** , While the themes sources and materials of *The Palladian Landscape* span a range of disciplinary interests from art and architectural studies economic social and environmental history to philosophy and Renaissance humanism Denis Cosgrove seeks to provide a geographical interpretation of a region of northern Italy in the specific period of the late Renaissance However he goes much further using the thoughts designs and commissions of the architect Palladio as the central thread to weave a picture of a place Venice that is in a period of crisis as it seeks to survive a transition from a maritime power hinterland to a new land based terraferma As a cultural geographer he seeks to understand how groups come to terms with and transform their material environments and he therefore pays special attention to the intellectual forces and spiritual sensibilities that empower those groups as well as to the economic social and environmental constraints with which they have to contend Although these two broad realms of human experience are often studied

separately Cosgrove brings them together in this study He uses the leitmotif of architecture and specifically the work of Andrea Palladio to describe a localized transformation of the natural world into a landscape of expression of cultural meaning Beyond this leitmotif the work adopts an essay structure in which each chapter stands somewhat separately as a spatial narrative It moves from the imperial city of Venice into its Italian territories and thence from city to rural landscape to specific country estates Having described localized transformations of urban and rural landscapes Cosgrove then expands the scale again to consider hydrological engineering in the Venetian territories and some of the techniques involved in surveying and mapping the landscape These return the reader to the more global view of a Venetian mentalit coming to terms with a changing geographical and historical world map

and the Renaissance Science of Procreation " Anthony Colantuono,2017-07-05 Titian Colonna and the Renaissance
 Science of Procreation demonstrates that two major monuments of Italian Renaissance culture Bellini s and Titian s famous
 series of mytho poetical paintings for the camerino of Duke Alfonso d Este of Ferrara and Francesco Colonna s
 Hypnerotomachia Poliphili were conceived as mnemonic or pedagogical devices aimed at educating the reader beholder in
 the medical science of reproductive physiology and the maintenance of sexual health It is further argued that the learned
 courtier Mario Equicola who conceived the pictorial program of Duke Alfonso s camerino had read Colonna s text and was
 extensively inspired by its prior literary argument The study is organized in two parts intimately interrelated The first part is
 a study of Alfonso d Este s camerino with a general introduction individual chapters on each of Bellini s and Titian s four
 pictorial bacchanals and a conclusion proposing a new and more accurate reconstruction of the layout of the room also
 including a completely new way of interpreting the ensemble The second part of the study concerns Colonna s
 Hypnerotomachia Poliphili again beginning with its own introductory essay and advancing a completely new interpretation of
 the text The brief conclusion brings the insights of the two sections together clarifying the historical relationship between the
 pictorial and literary works and explaining their larger cultural significance Emphasizing Equicola s use of the
 Hypnerotomachia as a model for pictorial invention the author reveals how Titian s remarkably sensuous paintings and
 Colonna s erotically charged romance are related by their common reference to the neo Aristotelian medical theory of the
 libidinal seasons and by corollary themes of marriage and sexual consummation This peculiar intersection of cultural themes
 came to prominence in the context of a courtly world in which medical science was increasingly brought to bear on the

The Anatomical Renaissance Andrew Cunningham, 2016-12-05 The central proposition of this book is that the great anatomists of the Renaissance from Vesalius to Fabricius and Harvey the forebears of modern scientific biology and medicine consciously resurrected not merely the methods but also the research projects of Aristotle and other Ancients The Moderns choice of topics and subjects their aims and their evaluation of their investigations were all made in a spirit of emulation not rejection of their distant predecessors First published in 1997 Andrew Cunningham s masterly analysis of the history of the scientific renaissance a history not of things found but of projects of enquiry provoked a reappraisal of the intellectual roots of the Renaissance as well as illuminating debates on the history of the body and its images

Titian & Tragic Painting Thomas Puttfarcken, 2005-01-01 Late in his life Titian created a series of paintings the Four Sinners the poesie for his patron Philip II of Spain and the Final Tragedies that were dark in tone and content full of pathos and physical suffering In this major reinterpretation of Titian s art Thomas Puttfarcken shows that the often dramatic and violent subject matter of these works was not as is often argued the consequence of the artist s increasing age and sense of isolation and tragedy Rather these paintings were influenced by discussions of Aristotle s Poetics that permeated learned discourse in Italy in the mid sixteenth century The Poetics led directly to a rich theory of the visual arts and painting in particular that enabled artists like Titian to consider themselves on equal footing with poets Puttfarcken investigates Titian s late works in this context and analyzes his relations with his patrons his intellectual and humanistic contacts and his choices of subject matter style and technique

Orenstein, Freyda Spira, Peter Fuhring, Donald J. La Rocca, Anne Varick Lauder, Christof Metzger, Femke Speelberg, Ad Stijnman, Pierre Terjanian, Julia Zaunbauer, 2019-10-21 The Renaissance of Etching is a groundbreaking study of the origins of the etched print Initially used as a method for decorating armor etching was reimagined as a printmaking technique at the end of the fifteenth century in Germany and spread rapidly across Europe Unlike engraving and woodcut which required great skill and years of training the comparative ease of etching allowed a wide variety of artists to exploit the expanding market for prints The early pioneers of the medium include some of the greatest artists of the Renaissance such as Albrecht Dürer Parmigianino and Pieter Bruegel the Elder who paved the way for future printmakers like Rembrandt Goya and many others in their wake Remarkably contemporary artists still use etching in much the same way as their predecessors did five hundred years ago Richly illustrated and including a wealth of new information The Renaissance of Etching explores how artists in Germany the Netherlands Italy and France developed the new medium of etching and how it became one of the most versatile and enduring forms of printmaking p 1 margin 0 0px 0 0px 0 0px 0 0px font 14 0px Verdana **Modernism and the Crisis in Art** Anthony Hincks, 1990
