Carl C. Campbell,1997 Endless Education is the first comprehensive study of education in Trinidad and Tobago during the long thirty year regime of the People s National Movement PNM from 1956 to 1986 Carl Campbell focuses on the efforts by Williams and the PNM to use education as an instrument of postcolonial nation building and the consequent tensions and conflicts between him and the churches between creoles and Indians and between Tobago and Trinidad His study concludes that the goal of national integration through education eluded the planners and that diversity not unity characterized the education system Significantly Campbell finds that as in many other facets of national life only partial and incomplete decolonization was attained in education This study is useful as a source book in schools colleges and at the University of the West Indies Readers who reside outside of the Caribbean and who want to know more about the social history of one of the most important English speaking Caribbean islands should find this book of more than passing interest This is the companion volume to Campbell s The Young Colonials A Social History of Education in Trinidad and Tobago 1834 1939 The University of the West Indies Press 1996      **Bulletin** ,1909      Educational Times ,1890      **Education Outlook** ,1914      **Western Teacher** ,1908      **Michigan School Moderator** ,1908      Team Teachers in Japan Takaaki Hiratsuka,2023-07-14 This book provides insights into the professional and personal lives of local language teachers and foreign language teachers who conduct team taught lessons together It does this by using the Japanese context as an illustrative example It re explores in

this context the professional experiences and personal positionings of Japanese teachers of English JTEs and foreign assistant language teachers ALTs as well as their team teaching practices in Japan This edited book is innovative in that 14 original empirical studies offer a comprehensive overview of the day to day professional experiences and realities of these team teachers in Japan with its focus on their cognitive ideological and affective components This is a multifaceted exploration into team teachers in their gestalt who they are to themselves and in relation to their students colleagues community members and crucially to their teaching partners This book therefore offers several empirical and practical applications for future endeavors involving team teachers and those who engage with them including their key stakeholders such as researchers on them their teacher educators local boards of education governments and language learners from around the world *The Educational Times, and Journal of the College of Preceptors* ,1892 Bibliography of Education ,1909 *Independent Schools Yearbook 2012-2013* none,2013-06-20 The highly respected book of reference of sought after Independent Schools in membership of the Independent Schools Council s Associations HMC GSA The Society of Heads IAPS ISA and COBIS **The Educational Monthly of Canada** ,1894 Colorado Teachers College Education Series ,1851 Report of the Minister for Education and Cultural Activities Queensland.
