Leap 4.0. African Perspectives on the Fourth Industrial Revolution Zamanzima Mazibuko-Makena, Erika Kraemer-Mbula., 2021-04-09 Leap 4 0 African Perspectives on the Fourth Industrial Revolution seeks to identify the challenges and opportunities the 4IR presents to South Africa and the rest of the African continent especially to workers and marginalised sectors of society Authors examine the prerequisites for the successful introduction of the 4IR including infrastructure skilled personnel and appropriate regulation They underline the importance of inclusive innovation with a deliberate objective to create net new jobs and reduce inequality The 4IR is well established in many parts of the world with technological advances driving profound social and economic change However for many developing countries particularly countries in Africa the 4IR may not offer the anticipated leap forward There is a danger that the continent may find itself dictated to by experiences that are not in tune with its social contexts      Routledge Handbook of Global Economic History Francesco Boldizzoni, Pat Hudson, 2015-12-22 The Routledge Handbook of Global Economic History documents and interprets the development of economic history as a global discipline from the later nineteenth century to the present day Exploring the normative and relativistic nature of different schools and traditions of thought this handbook not only examines current paradigmatic western approaches but also those conceived in less open societies and in varied economic political and cultural contexts In doing so this book clears the way for greater critical understanding and a more genuinely global approach to economic history This handbook brings together leading international contributors in order to systematically address cultural and intellectual traditions around the globe Many of these are exposed for consideration for the first time in English The chapters explore dominant ideas and historiographical trends and open them up to critical transnational perspectives This volume is essential reading for both academics and students in economic and social history As this field of

study is very much a bridge between the social sciences and humanities the issues examined in the book will also have relevance for those seeking to understand the evolution of other academic disciplines under the pressures of varied economic political and cultural circumstances on both national and global scales

New Frontiers in Contemporary Missiology: Southern African Perspectives Henry Mbaya, 2024-08-22 This book epitomizes the understanding that to excel you have to believe in yourself and your ability to achieve and that part of this process is enabled by mentorship Looking at the history of women in science or academia it is apparent that women have struggled long and hard to be recognised as legitimate scientists or academics and that women of colour are confronted with double jeopardy of both race and gender not only in South Africa but at a global level Gender equity in science or academia and racial diversity are moral and necessary imperatives In academia women are strongly represented in the early phases of their academic careers yet there is an attrition in the number of women who are associate professors and full professors This leaky pipeline not only wastes women's education and potential preventing much needed diversity in academia but more profoundly restricts women's goals and rights
