Following Christ in Mission Sebastian Karotemprel,1995 **Following Christ in Mission** Sebastian Karotemprel,1996 **Following Christ in mission** S. Karotemprel,1995 *The Great Commission* Timothy E. Byerley,2008 This book proposes six specific and distinct biblical models of Catholic evangelization for reflection comparison and consideration along with corresponding practical examples from American Catholic Church history Book jacket **The Oxford Handbook of Catholic Theology** Lewis Ayres,Medi Ann Volpe,2019-03-28 The Oxford Handbook of Catholic Theology provides a one volume introduction to all the major aspects of Catholic theology Part One considers the nature of theological thinking and the major topics of Catholic teaching including the Triune God the Creation and the mission of the Incarnate Word It also covers the character of the Christian sacramental life and the major themes of Catholic moral teaching The treatments in the first part of the Handbook offer personal syntheses of Catholic teaching but each offers an account in accord with Catholic theology as it is expressed in the Second Vatican Council and authoritative documentation Part Two focuses on the historical development of Catholic Theology An initial section offers essays on some of Catholic theology s most important sources between 200 and 1870 and the final section of the collection considers all the main movements and developments in Catholic theology across the world since 1870 This comprehensive volume features fifty six original contributions by some of the best known names in current Catholic theology from the Americas Europe Asia and Africa The chapters are written in an engaging and easily comprehensible style functioning both as a scholarly reference and as a survey of the field There are no comparable studies available in one volume and the book will be an indispensable reference for students of Catholic theology at all levels and in all contexts Missiological Education Union Biblical Seminary (Pune, India). Centre for Mission Studies. Consultation,2009 Rethinking Missio Dei among Evangelical Churches in an Eastern European Orthodox Context Vladimir Ubeivolc,2016-09-30 Following a paradigm shift in his own personal understanding of mission Vladimir Ubeivolc proposes the adoption of mission principles based on missio Dei to meet the social and spiritual needs of people in Moldova Biblically grounded and insightful the lessons to be learned from this book apply far beyond Eastern Europe Dr Ubeivolc uses his knowledge from six years of research twenty years of pastoral ministry and a lifetime of experience to summarize the landscape of the Moldovan Evangelical and Orthodox churches and their historical approaches to mission His evaluation emphasizes the need for a biblical foundation to mission for Eastern European Evangelical churches This book s message is a timely scholarly reminder of the need to pursue holistic mission if the church of Jesus Christ is to be an authentic and effective vessel to bring transformation to people s lives and society After-Mission, Beyond Evangelicalism Najib George Awad,2020-11-04 After Mission touches on on three questions The first question is about self perception and identity formation strategies and the various views that we have on the Protestants relation to their Arab Muslim Middle Eastern context This will furnish the basis for the ensuing parts as it will provide the

study with coherent and analytical readings of the cultural situation and intellectual views of the Arab Eastern Protestants in their Sitz im Leben from the perspective of the hermeneutic tripod of identity othering relationality The second question about the theological dimension asks what kind of a theological discourse do the Protestants need to develop and how do they need to re form their own theological heritage in such a manner that will allow them to heal the historical enmity and suspicion towards them from the Eastern Orthodox Christian community in the region How should they re think their traditional view on theological subjects common to them and the Eastern Christian tradition Traditional Protestant attitudes towards Eastern Christianity which have been viewed through the lens of evangelicalism and mission have failed to grant the Protestants an influential and truly indigenous presence in the region and have led to them being constantly accused of being a foreign transplant and alien entity In the light of this it is clear that going beyond missiology and traditional evangelicalism demands re thinking certain mutually shared but contentious theological subjects from a new perspective with the focus on more constructive attempts to build fellowship through dialogue Finally the third question touches on the Protestants future in the Arab Muslim Middle East by viewing this inquiry from a broader perspective that is related to all the Middle Eastern Christian communities presence and role in the Muslim majority context It will discuss questions about the kind of presence and role that Christians Protestants included should hope to play in order to guarantee survival and a continuing presence in the region The question of identity formation and the managing of difference without trapping it in the mud of otherizing and self otherizing will also be tackled so that the theological dimension is integrated with the broader multifaceted contextual one

The Future of Christian Mission in India Augustine Kanjamala, 2014-08-21 Colonial missionaries both Catholic and Protestant arrived in India with the grandiose vision of converting the pagans because like St Peter Acts 4 12 and most of the church fathers they honestly believed that there is no salvation outside the church extra ecclesiam nulla salus At the end of the great Protestant century however Christians made up less than 3 percent of the population in India and the hope of the missionary was nearly shattered But if one looks at mission in India qualitatively rather than quantitatively one sees a number of positive outcomes Missionaries in India particularly Protestant missionaries espousing the social gospel in collaboration with a few British evangelical administrators dared to challenge numerous social evils and even began to eradicate them The scientific and liberal English education began to enlighten and transform the Indian mindset Converts belonging to the upper caste although small in number laid the foundation stone of Indian theology and an inculturated church using Indian genius The end of colonialism in India coincided with the painful death of colonial mission theology Now the power of the Word of God extricated from political power is slowly and peacefully gaining ground like the mustard seed of the parable A paradigm shift from the ecclesio centric mission to missio Dei offers reason for further optimism In short the future of mission in India is as bright as the kingdom of God In today s new context theologians despite objections from some quarters are struggling to discover the Asian face of Jesus disfigured by the Greco Roman Church And the missionary is

challenged to become a living Bible that undoubtedly everyone will read **Towards African Missiology** Francis Anekwe Oborji, 2020-11-22 This volume reflects on a credible and a new language of Christian mission in Africa The author's thoughts and approaches not only provide a missiological insight which contribute to the repertoire of expanding fresh ideas in the missiological studies but also serves the purpose of highlighting the active participation of Africans in the missionary mandate of Jesus Christ In other words the scope of missiology needs a contextualized interpretation Thus he proposes a proactive language for missiology in Africa thereby underlining Africans as normal and full members of the human family In the light of the Vatican II mission theology the new language should be based on the fact that Africans will grow and do better in admiration and not in sympathy Interestingly the arguments in this volume opens the space for the on going discussions in the mission of the church in the era of secularization and post modernity Consequently a new language for missiology in Africa will come from the retrieval and modernization of our African cultural matrix pursued from the point of view of the daily struggles of the Africans themselves for survival which also addresses Africans in the spirit of cooperation

Comprehending Mission: The Questions, Methods, Themes, Problems, and Prospects of Missiology Stanley H. Skreslet (II.), 2012 Stanley H Skreslet offers an inviting new proposal for conceptualizing the field of missiology Comprehending Mission includes a concise overview of the development of missiology of the last century introducing its characteristic methodologies and offering insight into the kinds of questions missiologists typically ask In the last hundred years missiology has moved from emphasizing the practical challenges of foreign mission service to highlighting the intercultural aspects of Christian outreach Today missiology is less a form of practical theology than a field of study where theological concerns intersect with critical studies undertaken by anthropologists historians and other scholars **The Church in Mission** Bertil Ekström, 2016-06-01 Foundations and Global Case Studies What does it mean today to be a church totally committed to the gospel and fully engaged in God's mission What major religious and sociological trends in our world are affecting the role of the global church and local churches How must we understand and be prepared to face these trends How do we define church in the twenty first century being faithful to the Scriptures and at the same time relevant to a generation that does not believe in the institutional church anymore What are some good models of missional churches in different regions of the world that will encourage and inspire those who long to see a church making difference in society and in the world These are some of the issues that the book you are holding in your hands addresses There are certainly no final answers and magical forms rather we present a broad and deep discussion on how the gospel should be lived out by Jesus followers in our time and through our communities Questions are raised and analyzed both from the perspective of a local church as well as from a global and general understanding of the Christian church Some of our examples will focus more on local realities others more on global challenges The first part of the book is dedicated to a biblical and theological reflection on gospel church and mission It includes Old and New Testament studies on the theological implications of being

church based on the biblical narrative The second part deals with a variety of contemporary missiological issues related to the broader theme of church and mission Different perspectives from current discussions and dialogues around the globe are included covering both ideological reflections and practical aspects of being a mission shaped church The third part presents regional and national case studies that show the enormous creativity in church planting and engagement of local communities in their own societies Models applied in the secularized Europe are contrasted to ways of functioning as church in fast growing congregations in the global South

The Understanding of Family in Ghana as a Challenge for a Contextual Ecclesiology Moses Asaah Awinongya, 2013 The life and nature of the Church are better understood in terms of a self identity that relies on the language and cultural framework of the stakeholders Since theological reflections do not take place in a vacuum the socio cultural context gains importance The question is How much culture can the Church as a whole accommodate without losing its universal character With a focus on the West African country of Ghana this book analyzes the potential trade offs and conflicts between the Church and culture in a pluri religious and multi cultural society Further it shows the dangers of exclusion within the Church and offers possible solutions Series Studien zur systematischen Theologie und Ethik Vol 64

Christian Mission, Contextual Theology, Prophetic Dialogue Irvin, Dale T., Phan, Peter C., 2018-12-20 While the intent of the editors is to honor Steve Bevans SVD a towering figure in the field of missiology and a longtime author of Orbis books on missiology this book will be designed less as a festschrift than as a textbook for classroom use Designed around the three main foci of Bevans theology mission contextual theologies and dialogical theory it will appeal to teachers of courses in Christian mission theological method contextual theologies and contemporary Third World theologies The contributors are a who s who of contemporary mission studies in a global context including representatives from various Christian traditions and from throughout the global church

Evangelization and Religious Freedom Stephen B. Bevans, Jeffrey Gros, 2009 An informational and entertaining text this work offers readers a deeper sense of why the saints and the honoring of them has been influential in the lives of Catholics and others who strive to follow Jesus Christ and experience his love Catholic

Pope Francis, Evangelii Gaudium, and the Renewal of the Church Duncan Dormor, Alana Harris, 2017 Focuses exclusively on Evangelii Gaudium as interpreted from a variety of interdisciplinary and denominational perspectives with a sharper focus on the ecclesiological as well as the ecumenical potentialities for the reform and renewal of the church contained within this reorientation and reappreciation of the church s primary mission to evangelization in the modern world

Shembe, Ancestors, and Christ Edley J. Moodley PhD, 2008-08-18 The Christian axis has shifted dramatically southward to Africa Asia and Latin America so much so that today there are more Christians living in these southern regions than among their northern counterparts In the case of Africa the African Initiated Churches founded by Africans and primarily for Africans has largely contributed to the exponential growth and proliferation of the Christian faith in the continent Yet even more profoundly these churches espouse a brand of Christianity that is indigenized and

thoroughly contextual Further the power and popularity of the AICs beyond the unprecedented numbers joining these churches are attributed to their relevance to the existential everyday needs and concerns of their adherents in the context of a postcolonial Africa At the heart of Christian theology is Christology the confessed uniqueness of Christ in history and among world religions Yet this key feature of Christianity as with other important elements of the Christian faith may be variously understood and re interpreted in these indigenous churches The focus of this study is the amaNazaretha Church an influential religious group founded by the African charismatic prophet Isaiah Shembe in 1911 in the province of KwaZulu Natal South Africa The movement today claims a following of some two million adherents and has proliferated beyond the borders of South Africa to neighboring countries in Southern Africa The book addresses the complex and at times ambivalent understanding of the person and work of Christ in the amaNazaretha Church presenting the genesis history beliefs and practices of this significant religious movement in South Africa with broader implications for similar movements across the continent of Africa and beyond

The "Two Hands of God" David T Williams,2003-09-14 It comes as a surprise to many Christians that for many decades the dominant concern of the ancient church was the Trinity Recent years have seen a revival of interest in this idea but almost nobody has seen that in his approach to humanity God has provided a pattern for his people to emulate We should act in a way patterned on what he did in sending his Son and Spirit God s two hands Then the Trinity also provides an ideal pattern for humanity to aim at The book discusses the theoretical background for this approach and gives several examples of how this works out in practice such as the marriage relationship and the problems of poverty and the environment An appendix outlines the reasons for belief in the Trinity and sketches the development of the doctrine in Christian history

The Spirituality of the Igbo People of Nigeria as an Example of Religious Modernization in a Global World Henry CHUKWUDI OKEKE,2020-02-18 If there is no religion in the world the world would more or less become a jungle The world will be inhuman Religion touches all aspects of human life Identifying God s will in our world today has become a major problem for many religions of the world In the past in Igbo Traditional Religion human sacrifice as well as the killing of twins were practised For the Igbo traditionalists then that was the will of the deities and equally not against God s will But following the encounter of Igbo Traditional Religion with Christianity these are no longer practised Misinterpretation of God s will by some religions of the world has given rise to religious violence religious extremism fanaticism and terrorism we are experiencing today in the world For these problems to be resolved it is pertinent that the study of various religions be taken seriously This study should be aiming at better understanding co existence respect for one another and frequent inter religious dialogues among the various religions of the world When this is achieved the believers of various religions would realize that many are worshipping one God and their desire is to communicate with Him although they may approach Him differently
