Van Bloem,Peter Z. Fulé,Rajeev L. Semwal,2019-09-24 The book brings together research topics having a broad focus on human and climate change impacts on the terrestrial ecosystems in the tropics in general and more specifically from the most significant and vulnerable Himalayan ecosystem A total of 16 contributions included in the book cover a diverse range of global change themes such as the impacts of changing

temperature and precipitation on soil ecosystems forest degradation extent and impacts of invasive species plant responses to pollution climate change impacts on biodiversity and tree phenology environmental changes associated with land use importance of traditional knowledge in climate change adaptation timberline ecosystems and role of integrated landscape modeling for sustainable management of natural resources The book is a collective endeavour of an international multidisciplinary group of scientists focused on improving our understanding of the impacts of global change on the structure and functioning of tropical ecosystems and addressing the challenges of their future sustainable management We hope that the book will help researchers working in the areas of ecology and environmental science to update their knowledge We also expect that natural resource managers and policy planners will find explanations for some of their observations and hypotheses on multiple global change factors impacting tropical ecosystems and especially Himalayan ecosystems

How Overfishing Handicaps Resilience of Marine Resources Under Climate Change Maria Lourdes D. Palomares, Rashid Sumaila, Charlotte De Fontaubert, 2024-11-26

Life Below Water LBW is in decline partly due to overfishing and partly because climate change is disrupting the biophysics of the ocean Fish is a central part of LBW where predator prey relationships keep the ocean alive An ocean full of life is an important source of food and livelihoods for humans worldwide LBW is now facing two ominous threats overfishing and climate change In this Research Topic we address how the reduction of overfishing can increase the ability of LBW to withstand the impacts of climate change Thus we encourage the submission of contributions that relate the fishing down marine food webs phenomenon i e the truncation of marine food webs by the extraction of high trophic level species the destruction of marine habitats e g through harmful fishing gears and the continued unsustainable extraction of these resources with climate related impacts on marine environments species populations and ecosystems We particularly encourage papers that discuss mitigation of climate change and the positive effect that this will have to make LBW resilient We would like to encourage an active discussion of future actions and policies to support this mitigation and provide the elements that might help in building a multidimensional and interactive framework to build LBW resilience

The Top Books of the Year Food Insecurity Climate Variability And Community Perceptions Vol2 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Food Insecurity Climate Variability And Community Perceptions Vol2 : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
