It is unpredictable, and you can never be fully prepared. The fast-changing Indian social scenario has made parenting more complex. Indian parents today have to balance tradition with living in a world that is hyper-connected. It helps understand the various stages of growth and development, viz. physical, emotional, cognitive development. It offers insight into practical parenting, preparing for the second child, dealing with issues of a single child, understanding intelligence and personality, besides understanding teenage and its issues. To help parents get the benefit of traditional knowledge and expertise, many traditional Indian *dadi ka nuskhaas* to cope with minor ailments and improve health, which were common knowledge once but are getting lost with time, have also been incorporated.
