Best Loved Folk Tales of India Pranab Chandra Roy Choudhury,1999-08 India is a treasure trove of folktales born out of the customs and traditions of the country Sometimes these tales are retold in its different regions while imparting the local flavour to them The mobility of the folktales can be attributed to the pilgrims and travellers journeying from one part of the country to another They rested at night in dharamsalas or inns often attached to temples where they mingled among themselves and with the local people More often than not folktales are passed on from grandmother to grandchildren so vividly that they are impressed in the listener s memory forever They are delightful and fascinating to the young as well as the old The same story even when heard repeatedly does not lose its interest as it appeals to the fantasies the make beliefs and the primitiveness in us These beautiful folktales of India were on the verge of extinction when a project of compilation of 21 volumes consisting of folktales of different regions was launched by Sterling These folktales have been gleaned from the larger collection

Far Eastern Economic Review, 1994 **Tigers In Red Weather**

Ruth Padel, 2009-05-26 Poet writer and descendant of Charles Darwin Ruth Padel set out to visit a tropical jungle and wildlife sanctuary in India and her visit turned into a remarkable two year journey through eleven countries in search of that most elusive and most beautiful animal the tiger Armed with her grandmother's opera glasses and Tunisian running shoes she set off across Asia to ask the question can the tiger be saved from extinction in the wild Tigers are an umbrella species they need everything in the forest to work in tandem they eat deer the deer need vegetation the vegetation has to be pollinated by birds mammals rodents and butterflies If you save the tiger you save everything else Today the 5 000 tigers that still survive in the wild live only in Asia and are scattered throughout 14 countries Padel says that while tigers will never become extinct they are too popular for that they may disappear from the wild There are as many tigers in cages in the US as there are surviving tigers in the wild As she travels she meets the defenders of the wild the heroic scientists forest guards and conservationists at the frontline fighting to save tigers and their forests from destruction in the places where poverty threatens to wipe out all wildlife She also examines her fascination both as a poet and as the great great granddaughter of Charles Darwin with nature wildness and survival and in the end becomes a knowledgeable advocate for the tiger The result is a beautiful blend of natural history travel literature and memoir and a searing intimate portrait of an animal we have loved and feared almost to extinction
