selection of thirty years worth of commentary by leading British and European theologians and literary scholars David Brown Ingolf Dalferth Hans Haug Douglas Hedley David Jasper and Gerard Loughlin Of interest to literary and biblical scholars theologians and philosophers this book holds particular value for those exploring the nature of imagination in contemporary thought and scholarship

**Solved by Sacrifice** Robert MacSwain, 2013 Austin Farrer 1904 1968 Warden of Keble College Oxford was a remarkably creative and significant figure in twentieth century theology Robert MacSwain argues that one explanation for Farrer's relative obscurity is that most commentators have focused on his metaphysics and in particular on *Finite and Infinite* 1943 his monumental treatise of rational theology By contrast MacSwain proposes an epistemological analysis that takes seriously the neglected but crucial theme of fideism in Farrer's thought MacSwain charts the development of Farrer's thinking on the proper relation between faith and reason from 1924 to 1968 including his engagements with Karl Barth logical positivism Thomism and Wittgensteinian philosophy and offers a reading of Farrer that resonates with contemporary religious epistemology and the growing focus on spiritual praxis The final chapter considers Farrer's provocative claim that the logical paradoxes of religious belief are solved by sacrifice in the lives of those whom we recognize as saints as Farrer puts it Such a life then is evidence and what other evidence could you hope to find Book jacket

*God and Meaning* Joshua W. Seachris, Stewart Goetz, 2016-09-08 Over the past decade there has been a growing interest among analytic philosophers in the topic of life's meaning What is striking about this surge of work is that nearly all of it is by naturalists theorizing from non theistic starting points This book answers the need for a theistic philosophical perspective on the meaning of life Bringing together some of the leading thinkers in analytic philosophy of religion and theology *God and Meaning* touches on important issues in metaphysics epistemology ethics philosophy of religion and biblical theology that intersect with life's meaning In particular What does the question What is the meaning of life mean How can we know if life has meaning and what that meaning is Might God enhance life's meaningfulness in some ways but detract from it in others Is the most meaningful life one of perfect happiness What is the relationship between eternity and life's meaning How does the Old Testament book of Ecclesiastes illumine the topic Should we hope that a kind of transcendent meaning exists Presenting a state of the art assessment of current philosophical positions on these and many other questions *God and Meaning* is an invaluable resource for all students and scholars of the philosophy of religion
