Narrative Premise in Brahms's Instrumental Music Jacquelyn E. C. Sholes, 2018-05-24 A musicologist offers a fresh look at how Brahms used the inspiration of earlier composers in his own instrumental works As Jacquelyn E C Sholes reveals in this study an essential aspect of Johannes Brahms's art was the canny use of musical references to the works of others By analyzing newly identified allusions alongside previously known musical references in works such as the B Major Piano Trio the D Major Serenade the First Piano Concerto and the Fourth Symphony Sholes demonstrates how a historical reference in one movement can resonate meaningfully musically and dramatically with material in other movements in ways not previously recognized Brahms masterfully wove such references into broad movement spanning narratives Sholes argues that these narratives served as expressive outlets for his complicated attitudes toward the material to which he alludes Ultimately Brahms's music reveals both the inspiration and the burden that established masters such as Domenico Scarlatti J S Bach Haydn Mozart Schubert Schumann Wagner and especially Beethoven represented for him as he struggled to establish his own artistic voice and place in musical history *Song* Carol Kimball, 2006-12-01 Carol Kimball's comprehensive survey of art song literature has been the principal one volume American source on the topic Now back in print after an absence of several years this newly revised edition includes biographies and discussions of the work of 150 composers of various nationalities as well as articles on styles of various schools of composition Harbingers of Books to Come Dave
