Heading West Pat McCarthy, 2009-08 *Heading West* traces the vivid saga of Native American and pioneer men women and children from the colonial beginnings of the westward expansion to the last of the homesteaders in late 20th century Alaska In many respects life in the backwoods and on the prairie was similar to modern life children attended school and had daily chores parents worked hard to provide for their families and communities gathered for church and social events But unlike today pioneers lived against a backdrop of isolation harsh weather disease and even plagues of locust And for Native Americans the westward expansion of settlers posed the most direct threat to their centuriesold cultures But pioneer life was not all hardship Settlers were able to build lives and communities and experience a freedom brought on by new possibilities Author Pat McCarthy has woven dozens of firsthand accounts from journals and autobiographies of the era to form a rich and detailed story Readers will find more than 20 activities to help them better understand their pioneering ancestors Children will churn butter dip candles track animals play Blind Man s Bluff create a homestead diorama and more And before they finish readers won t have just headed west but back in time as well **Library of Congress Subject Headings** Library of Congress, Library of Congress. Physical Activity - How to Best Promote More Movement? Mirko Brandes, Jennifer Sacke, 2024-07-24. Globally, physical inactivity is on the rise in most countries, and according to the WHO, it is considered one of the leading major public health risks. As children's physical activity behaviors are conveyed into adulthood, many interventions focus on establishing

healthy physical activity habits in children to prevent the potential negative health outcomes associated with low physical activity over the life course. The school environment provides an opportunity to reach the majority of children; however, physical activity promotion in schools can often be a challenge. Barriers to the success of physical activity interventions include the physical, social, and economic environment, competencies, and workload of teachers, as well as the perception that physical activity may interfere with the primary task of schools, which is education. Moreover, the evaluation of physical activity interventions for children is challenging, raising a discussion on how to best evaluate these interventions.

The Kindergarten-primary Magazine Bertha Johnston, E. Lyell Earle, 1917 Connecting Kids to History with Museum Exhibitions D Lynn McRaney, John Russick, 2016-09-16

Kids have profound and important relationships to the past, but they don't experience history in the same way as adults. For museum professionals and everyone involved in informal history education and exhibition design, this book is the essential new guide to creating meaningful and memorable connections to the past for children. This vital museum audience possesses many of the same dynamic qualities as trained historians: curiosity, inquiry, empathy for the human experience. Yet traditional history exhibitions tend to focus on passive looking in the galleries, giving priority to relaying information through words. D Lynn McRaney and John Russick bring together top museum professionals to present state-of-the-art research and practice that respects and incorporates kids' developmental stages and learning preferences and the specific ways in which kids connect to history. They provide concrete tools for audience research and evaluation, exhibition development and design, and working with kids as creative consultants. The only book to focus comprehensively on history exhibits for kids, *Connecting Kids to History With Museum Exhibitions* shows how to enhance the experiences of a vitally important but frequently the least understood museum audience.
