Adams, Mona Schrempf, Sienna R. Craig, 2010-12-01 There is a growing interest in studies that document the relationship between science and medicine as ideas practices technologies and outcomes across cultural national geographic terrain Tibetan medicine is not only known as a scholarly medical tradition among other Asian medical systems with many centuries of technological clinical and pharmacological innovation it also survives today as a complex medical resource across many

Asian nations from India and Bhutan to Mongolia Tibet TAR and China Buryatia as well as in Western Europe and the Americas The contributions to this volume explore in equal measure the impacts of western science and biomedicine on Tibetan grounds i e among Tibetans across China the Himalaya and exile communities as well as in relation to globalized Tibetan medicine and the ways that local practices change how such science gets done and how this continually hybridized medical knowledge is transmitted and put into practice As such this volume contributes to explorations into the bi directional flows of medical knowledge and practice *Soundings in Tibetan Medicine* International Association for Tibetan Studies. Seminar,2007 This collection of studies on the anthropology and history of Tibetan medicine provides fascinating new insights into both dynamic developments and historical continuities in medical knowledge and practice that have been manifest in a range of traditional and contemporary Tibetan societies A Map to Explore Traditional Tibetan Medicine (Sowa-Rigpa) Allegorical Tree of the Four Tantras [Men-Tsee-Khang-འཇམ་དཔལ་འཁོར་ལོ་] ,2021-03-23

PREFACE The famous Tibetan doctor and physician to His Holiness the 13th Dalai Lama Ven Dr Khenrab Norbu 1883 1962 A D 1 in one of his compositions illustrated the First Tantra The Root Tantra in a tree form dividing the content into roots trunks branches leaves and fruits of a tree using the essential concepts of Traditional Tibetan Medicine The Four Tantras in a simple way With the aim to help his students quickly adapt to the theoretical concepts of Tibetan Medicine in a minimum time the allegorical tree featuring the gist and overview of Traditional Tibetan medicine was illustrated Darma Menrampa Lobsang Choedak 1638 1711 A D 2 reasoned out in his commentary of the Explanatory Tantra legs shes gser gyi thurma³ that It has the significance of widening one s own wisdom at large and inspire and attract other fellow students to learn the methods of understanding the medical knowledge through an allegorical tree Kempa Tsewang 15th century 4 stated The root holds the foundation of the entire text the trunk summarizes the meaning of the text the branches elaborate on the particular meaning the leaves expound on the details of the meaning On them blossoms the flower of health and longevity that bears the three fruits of spiritual life prosperity and happiness Having thus been stated it has been a curriculum in Tibetan Medical Institutes such as Chakpori Medical College and Lhasa Men Tsee Khang in Tibet to memorize the allegorical text and to give oral examination of the same Manually arranging the roots trunks branches and leaves was a part of the traditional exam along with the oral examination This tradition still continues to these days in many Tibetan Medical Institutes around the world Similarly the sole reason to publish this book is to disseminate and promote the comprehensive knowledge of Traditional Tibetan Medicine Sowa Rigpa 5 in an easier and a simpler way and to benefit those non Tibetans who are keen to learn the ancient medical science but are unable to read and understand Tibetan language Hence this publication will serve as material for those seeking an English version of the Tibetan medical text Since this book on the allegorical tree of the Four Tantras is the first of its kind to be published in English I indeed hope that it will serve as a small contribution from my part towards the dissemination of our traditional healing science In this book the medical terms used are extracted from or are

uniformly based on the books *The Root Tantra* and *The Explanatory Tantra* from the *Quintessential Instructions on the Eight Branches of the Ambrosia Essence Tantra* and *The Subsequent Tantra* from the *Secret Quintessential Instructions on the Eight Branches of the Ambrosia Essence Tantra* translated into English by Men Tsee Khang⁶ Priority has been given to directly translate as much Tibetan terms into English as possible but in certain cases where direct translation has been a challenge such as loong tripa baekan maevel surya etc the Tibetan terms have been written in Tibetan phonetics and italicized to avoid mistranslation The reason for keeping those terms in Tibetan phonetics is to enhance readability and provide the right pronunciation of the terms Meanings for the Tibetan phonetics that appear very often throughout the book Tibetan phonetics of medicinal compounds and the equivalent scientific terms for the Tibetan medicinal ingredients are given in the glossary section at the end of this book Equivalent transliterated terms for the phonetics have also been included The Tibetan terms whose meaning relates only to specific chapters are put as footnotes in their respective places [A Promise Kept](#) Marilyn Ekdahl Ravicz PhD, Germaine Krull, 2018-10-12 *A Promise Kept* Memoir of Tibetans in India is a collaborative work between Germaine Krull and her friend Marilyn Ekdahl Ravicz Although a great photographer Germaine was European and wrote English poorly For this reason she entrusted her memoir manuscript to Marilyn Germaine requested that Marilyn promise to edit and rewrite it for publication so others could share her experiences As promised Marilyn offers Germaine's *A Promise Kept* to you Enjoy reading about his holiness Sakya Trizin his family and their lives in India Share their trials adaptations and amazing social and religious rebirth as refugee Tibetans *Sacred Passage* Margaret Coberly, Ph.D, RN, 2003-02-11 Working as an emergency room nurse Margaret Coberly came in contact with death on a daily basis However it wasn't until her own brother was diagnosed with terminal cancer that she realized she understood very little about the emotional and spiritual aspects of caring for the terminally ill To fill this gap she turned to the unique wisdom on death and dying found in Tibetan Buddhism In this book Coberly offers sound practical advice on meeting the essential needs of the dying integrating stories from her long career in nursing with useful insights from the Tibetan Buddhist teachings In the West death is viewed as a tragic and horrible event Coberly shows us how this view generates fear and denial which harm the dying by adding unnecessary loneliness confusion and mental anguish to the dying process Tibetan Buddhism focuses on the nature of death and how to face it with honesty openness and courage In this view death is not a failure but a natural part of life that if properly understood and appreciated can offer the dying and their loved ones an opportunity to gain valuable insight and wisdom Coberly argues that the Tibetan Buddhist outlook can be a useful antidote to the culture of fear and denial that surrounds death in the West and can help caregivers become more fully present fearless honest and compassionate *Sacred Passage* highlights two very practical teachings on death and dying from the Tibetan Buddhist tradition and presents them in clear nontechnical language Readers learn about the eight stages of dissolution leading to death a detailed roadmap of the dying process that describes the sequence of physical psychological and spiritual changes

that occur as we die Coberly also presents the death meditation a contemplative exercise for developing a new relationship to death and life The book also includes a lengthy annotated list of recommended readings for added guidance and inspiration Topics include How the terminally ill can experience emotional and spiritual healing even when they can t be cured Why Western medicine s relentless focus on curing disease has led to inadequate care for the dying What to expect during the dying process How our fear and denial of death harm the dying Techniques to help caregivers promote a peaceful environment for the dying and their loved ones How to meet the changing physical and emotional needs of the dying Helpful advice on what to say and how to behave around the terminally ill *Buddhism and Medicine* C.
