Health Care Systems Around The World Characteristics Issues Reforms:

Health Care Systems Around the World Marie L. Lassey, William R. Lassey, Martin J. Jinks, 1997 This book provides a multidisciplinary examination of health care systems in a variety of countries Major concepts perspectives and issues are introduced defined and used as the basis for analysis Thirteen countries are described and analyzed in considerable detail along with the demographic social and economic characteristics and health care systems of each The book presents a general model and definition of health care systems including important factors to consider in understanding health promotion prevention of disease and health care It provides detailed descriptions of diverse health care systems ranging from centralized and government operated to largely private enterprises noting the virtues and liabilities of each system A valuable resource for anyone who wishes to understand the changes taking place in health care delivery systems in the United States and in a variety of countries across the world *Health Care Reform Around the World* Andrew

Twaddle, 2002-06-30 Health care reforms around the world from Europe and North America to Africa Latin America and Asia seem to all be market oriented reforms driven by international business interests and right wing political parties There seems to be a sudden and broad concern with the efficiency of medical care with the assertion that democratically or professionally run systems are inherently inefficient Far less concern is evident for the more traditional values held regarding medical care effectiveness or quality and equity The fact is that we have little good cross national research that systematically addresses the reform issue This book addresses that problem and attempts to look at health care reforms in a number of countries representing as wide a spectrum as possible and using a common conceptual framework that allows for comparable information to be gathered and presented on each despite differing levels of socio economic development The authors agreed on a set of models that were thought to provide reasonable guidance in answering the questions of the source of pressures for reform the alternative modes of organization that have been found in the world in recent years and the direction of change among those alternatives **International Health Care Reform** Colleen M. Flood, 2003 This volume examines the two models of health care reform managed competition and internal markets that are increasingly becoming the dominant paradigm in European and North American policy Guide to Reference in Medicine and Health Denise Beaubien

Bennett, Christa Modscheidler, 2014-04-26 Drawn from the extensive database of Guide to Reference this up to date resource provides an annotated list of print and electronic biomedical and health related reference sources including internet resources and digital image collections *Health Reform* Daniel Drache, Terry Sullivan, 2005-08-18 This volume explores the deep rooted tensions between publicly funded health care systems and the dynamics of public markets to deliver privately

financed health care **China's Urban Health Care Reform** Chack-kie Wong, Vai Io Lo, Kwong-Leung Tang, 2006-01-01 One way to describe the importance of social policy is to say it's about what is and what might be This ethos is the driving force behind Chack Kie Wong Vai Io Lo and Kwong leung Tang's *China's Urban Health Care Reform* Based on a study of a

mid level city in China these three scholars provide analysis and offer theory based recommendations on health care development Using a comparative policy framework supported by a legal expert s knowledge of regulatory specifications China s Urban Health Care Reform argues that a strategy with priority in economic growth as in the case of China does not bring forth cost efficiency and equity in health care for the whole nation Ultimately Wong Lo and Tang strive to offer direction for health care reform that will lead to better health care in China s cities As a result this is a work of great significance to anyone involved in public health social work public policy medicine or law Health Insurance Reforms in Asia Sabrina Luk,2014-03-26 This book empirically examines health care financing reforms and popular responses in three major cities in East Asia Shanghai Singapore and Hong Kong It adopts a new revised version of the theory of historical institutionalism to compare and explain the divergent reform paths in these three places over the past three decades It also examines forces that propel institutional change The book provides three detailed case studies on the development of health care financing reforms and the politics of implementing them It shows that health care systems in Shanghai Singapore and Hong Kong were the products of Western presence in the nineteenth century It illustrates how greater attention is paid to the roles played by ideas actors and environmental triggers without abandoning the core assumptions that political institutions and policy feedback remain central to impact health care financing reforms It shows that health care financing reform is shaped by a complex interplay of forces over time It also provides the most updated material about health care financing reforms in Shanghai Singapore and Hong Kong The central argument of this book is that health care financing reform is both an evolving process responding to changing circumstances and a political process revealing an intricate interplay of power relationships and diverse interests It shows that institutional changes in health care financing system can be incremental but transformative in nature It argues that social policies will continue to develop and welfare states will continue to adapt and evolve in order to cope with new risks and needs This book sheds new lights on understanding the politics of health care financing reform and sources and modes of institutional change **Getting Health Reform Right** Marc J. Roberts,2008 This book provides a multi disciplinary framework for developing and analyzing health sector reforms based on the authors extensive international experience It offers practical guidance useful to policymakers consultants academics and students alike and stresses the need to take account of each country s economic administrative and political circumstances The authors explain how to design effective government interventions in five areas financing payment organization regulation and behavior to improve the performance and equity of health systems around the world Guide to Reference in Business and Economics Steven W. Sowards,Elisabeth Leonard,2014-07-22 Focusing on print and electronic sources that are key to business and economics reference this work is a must have for every reference desk Readers will find sources of information on such topics asBusiness lawE commerceInternational businessManagement of information systemsOccupations and careersMarket researchGuide to Reference is used internationally as the source of first resort for

identifying information and training reference professionals and this book will help connect librarians and researchers to the most relevant sources of information on business and economics *The Political Economy of Universal Healthcare in Africa* Philip C. Aka,Hassan Wahab,Yvette M. Alex-Assensoh,2022-04-27 The global rise in pandemics most recently COVID 19 and other health challenges some of which are due to climate change have imposed significant challenges on the healthcare systems in economies around the world Thus this book deals with an issue that is very timely and relevant not just in Africa but globally It critically assesses healthcare reforms in Ghana under the Fourth Republic since 1993 Although it focuses on Ghana s National Health Insurance Scheme of 2003 the book instructively goes beyond this program The book argues that although Ghana is a bellwether of healthcare reforms in Africa its healthcare initiatives are still far from the service haven of healthcare as a human right Themes that animate the book s argument include the need to translate human rights law such as the right to health into practical policies that work for ordinary citizens Key highlights of the book include an increased accent on health as a human right emphasis on comparative analysis in healthcare studies and the formulation of a four hallmark framework embedded in economics law politics and human rights to act as a guide for assessment of healthcare reforms in Africa in particular and Ghana more specifically Using Ghana as a case study and analytical window into the world the book offers a valuable and timely resource for academics students and policymakers across the disciplines of development and healthcare economics law public policy political science sociology and African and Caribbean studies as well as in various fields in health science **Healthcare and Economic Restructuring** Philip C. Aka,Joseph Abiodun Balogun,2022-04-27 This book explores the intersection between healthcare delivery and national economic health using Nigeria as case study and window into the world Specifically the issue this book tackles revolves around how to repair Nigeria s dysfunctional healthcare system through the medium of a healthier economy that provides sufficient revenue to meet the healthcare needs of citizens New Social Policy Agendas for Europe and Asia Katherine Marshall,Olivier Butzbach,2003 The East Asia crisis of 1997 98 highlighted the need for new models for social policy A joint project between European and Asian governments brought together over a two year period the experience of social policy experts from Europe and Asia This project was financed by the ASEM Asia Europe Meeting This document looks at a wide range of issues social security reform links between macroeconomics and social policy labour market policies gender relations and cross border migration Inspired by European experience in similar fields and focusing on ideas and knowledge exchange the project worked to develop papers and seminars to produce this book *Key Policy Issues in Long-term Care* Jenny Brodsky,Jack Habib,Miriam Hirschfeld,2003 Key policy issues in long term care LTC are complex and the numbers of persons needing such care continue to incese This volume addresses these issues the role of and support to the family integration with health and social systems case management and strategies for designing LTC systems **Handbook of Clinical Sociology** Howard M. Rebach,John G. Bruhn,2012-12-06 Clinical sociology is an action oriented field that seeks to prevent

reduce or resolve the seemingly overwhelming number of social problems confronting modern society In an extensive revision of the first edition of this classic text and reference published by Plenum in 1990 the editors have assembled a distinguished roster of contributors to address such topics as theory and practice intervention at various levels of social organization specific kinds of sociological practice social problems and the process of becoming a clinical sociologist
