*Cultural Seeds: Essays on the Work of Nick Cave* Tanya Dalziel, 2016-05-13 Nick Cave is now widely recognized as a songwriter musician novelist screenwriter curator critic actor and performer From the band The Boys Next Door 1976-1980 to the spoken word recording The Secret Life of the Love Song 1998 to the recently acclaimed screenplay of The Proposition 2005 and the Grinderman project 2008 Cave's career spans thirty years and has produced a comprehensive and sometimes controversial body of work that has shaped contemporary alternative culture Despite intense media interest in Cave there have been remarkably few comprehensive appraisals of his work its significance and its impact on understandings of popular culture In addressing this absence the present volume is both timely and necessary Cultural Seeds brings together an international range of scholars and practitioners each of whom is uniquely placed to comment on an aspect of Cave's career The essays collected here not only generate new ways of seeing

and understanding Cave's contributions to contemporary culture but set up a dialogue between fields all too often separated in the academy and in the media. Topics include Cave and the Presley myth, the aberrant masculinity projected by *The Birthday Party*, the postcolonial Australian-ness of his humour, his interventions in film and his erotics of the sacred. These essays offer compelling insights and provocative arguments about the fluidity of contemporary artistic practice. *Fear and Loathing Worldwide* Robert Alexander, Christine Isager, 2018-07-26

For more than 40 years the radically subjective style of participatory journalism known as Gonzo has been inextricably associated with the American writer Hunter S. Thompson. Around the world, however, other journalists approach unconventional material in risky ways, placing themselves in the middle of off-beat stories and relating those accounts in the supercharged rhetoric of Gonzo. In some cases, Thompson's influence is apparent, even explicit; in others, writers have crafted their journalistic provocations independently, only later to have that work labelled Gonzo. In either case, Gonzo journalism has clearly become an international phenomenon. In *Fear and Loathing Worldwide*, scholars from fourteen countries discuss writers from Europe, the Americas, Africa, and Australia whose work bears unmistakable traces of the mutant Gonzo gene. In each chapter, Gonzo emerges as a powerful but unstable signifier, read and practiced with different accents and emphases in the various national, cultural, political, and journalistic contexts in which it has erupted. Whether immersed in the Dutch crack scene, exploring the Polish version of Route 66, following the trail of the 2014 South African General Election, or committing unspeakable acts on the bus to Turku, the writers described in this volume are driven by the same fearless disdain for convention and profound commitment to rattling received opinion, with which the outlaw journalist Thompson scorched his way into the American consciousness in the 1960s, 70s, and beyond.
