political and social issues to be considered Applying the metaphor of the border crossing from one temporal or spatial
territory into another *Border Crossing Russian Literature into Film* examines the way classic Russian texts have been altered
to suit new cinematic environments In these essays international scholars examine how political and economic circumstances
from a shifting Soviet political landscape to the perceived demands of American and European markets have played a crucial
role in dictating how filmmakers transpose their cinematic hypertext into a new environment Rather than focus on the
degree of accuracy or fidelity with which these films address their originating texts this innovative collection explores the
role of ideological political and other cultural pressures that can affect the transformation of literary narratives into
cinematic offerings *The Publishers Weekly* ,1921
