HEALING

The Coming

Revolution in

Holistic Medicine

Jack LaPatra

from Chapter 1 of *Healing*
"A Letter to Hippocrates,"

As we know now about health and disease, much is superficial. There are powerful systems about which we know little that affect the health trends of large populations. We are not to discover the fundamental physical, sociological laws of the world that are the basis of our most deeply rooted habits and beliefs of "normality." In the absence of specific knowledge, and with increasing distrust of the value of the knowledge that is available, many Americans are looking for new ways to improve and sustain personal health. Their changes in personal health goals and efforts are responses to the failure of modern health and medical services to meet existing human needs.
