Alternatives to Social Security James Midgley,Michael W. Sherraden,1997-04-22 Few days pass without front page newspaper articles about the disarray in the American social security system and the oncoming crisis of exploding costs and imbalance between workers and retirees New proposals to address these issues constantly surface from presidential candidates Congress and interest groups Yet few recognize that in the second half of the twentieth century there has been a global expansion of social security systems and there may be lessons to be learned from other societies This collection of essays is designed to examine the diverse approaches developed in Australia Britain Chile Hong Kong Kenya and Singapore By analyzing different approaches and different degrees of success those debating public policy may find alternatives that can be adapted to meet American social needs Midgley and Sherraden have drawn together experts on the systems developed in Australia Britain Chile Hong Kong Kenya and Singapore they explore the different approaches and the different degrees of success these societies have confronted An international perspective can enhance understanding of the problems and offer a sound basis for evaluating policy proposals that may reform the social security system Scholars researchers policymakers and the reading public will find this a stimulating collection As Senator John Breaux notes This book is essential reading for anyone serious about addressing the inevitable problems that will face the U S Social Security system

Malaysia@50: Economic Development, Distribution, Disparities Jomo Kwame Sundaram,Chong Hui Wee,2013-09-16 Malaysia has grown and changed a great deal since it was formed on 16 September 1963 It was then seen as an unlikely nation hastily put together as a federation of British controlled territories in the region Brunei s refusal to join at the eleventh hour and Singapore s secession before its second birthday only seemed to confirm such doubts Yet it has not only survived but even thrived often cited as a developing country worthy of emulation Ruled by the same ruling coalition since the mid 1950s it has been tempting to emphasize continuities and there certainly have been many Looking back at its last half century this volume first considers changes in development policy in response to national as well as international developments The remaining three parts consider how public policy has been influenced by and has in turn influenced economic distribution public finance and economic federalism Besides the familiar focus on ethnic disparities regional and other distribution issues are considered The discussion of government taxation as well as spending also focuses on distribution implications Although constitutionally a federation Malaysia has been more centralized than most federal states The way forward requires greater sensitivity to the complex political economy of Malaysia s unlikely but nonetheless resilient federation and ruling coalition This book is published and distributed worldwide by World Scientific Publishing Co Pte Ltd except Malaysia

M. Martins,Indra Pathmanathan,David T. Tan,Shiang Cheng Lim,Pascale Allotey,2021-08-26 Health systems are fluid and their components are interdependent in complex ways Policymakers academics and students continually endeavour to understand how to manage health systems to improve the health of populations However previous scholarship has often failed to engage with the intersections and interactions of health with a multitude of other systems and determinants This book ambitiously takes on the challenge of presenting health systems as a coherent whole by applying a systems thinking lens It focuses on Malaysia as a case study to demonstrate the evolution of a health system from a low income developing status to one of the most resilient health systems today A rich collaboration of multidisciplinary academics working with policymakers who were at the coalface of decision making and practitioners with decades of experience provides a candid analysis of what worked and what did not The result is an engaging informative and thought provoking intervention in the debate This title is Open Access **Australian National Bibliography: 1992** National Library of Australia,1988
