Gelvin, 2021-03-11 Now in its fourth edition James L Gelvin's award winning account of the conflict between Israel and Palestine offers a compelling accessible and current introduction for students and general readers The book traces the struggle from the emergence of nationalism among the Jews of Europe and the Arab inhabitants of Ottoman Palestine through to the present exploring the external pressures and internal logic that have propelled it Placing events in Palestine within the framework of global history The Israel Palestine Conflict A History skilfully interweaves biographical sketches eyewitness accounts poetry fiction and official documentation into its narrative This updated edition features new material on the fate of the two state solution during the Trump Netanyahu era alongside an expanded glossary and suggestions for further reading Why Dissent Matters William Kaplan, 2017-06-01 Frances

Kelsey was a quiet Canadian doctor and scientist who stood up to a huge pharmaceutical company wanting to market a new drug thalidomide and prevented an American tragedy The nature writer Rachel Carson identified an emerging environmental disaster and pulled the fire alarm Public protests individual dissenters judges and juries can change the world and they do A wide ranging and provocative work on controversial subjects Why Dissent Matters tells a story of dissent and dissenters people who have been attacked bullied ostracized jailed and sometimes when it is all over celebrated William Kaplan shows that dissent is noisy messy inconvenient and almost always time consuming but that suppressing it is usually a mistake it s bad for the dissenter but worse for the rest of us Drawing attention to the voices behind international protests such as Occupy Wall Street and Boycott Divest and Sanction he contends that we don t have to do what dissenters want but we should listen to what they say Our problems are not going away There will always be abuses of power to confront wrongs to right and new opportunities for dissenting voices to say Stop listen to me Why Dissent Matters may well lead to a different and more just future

Interculturality in Education Fred Dervin, 2016-06-10 This book explores the decades long use of the notion of interculturality in education and other fields arguing that it is now time to move beyond certain assumptions towards a richer and more realistic understanding of the intercultural Many concepts such as culture identity and intercultural competence are discussed and revised Myths about interculturality are also unpacked and dispelled Written by one of the leading scholars in the field this book proposes a very useful framework to address theoretical and methodological issues related to interculturality This somewhat provocative book will be of interest to anyone who wrestles with this knotty but central notion of our times

Edward Said on the Prospects of Peace in Palestine and Israel J. LeBlanc, 2013-11-12 John Randolph LeBlanc examines the political oeuvre of critic and activist Edward Said and finds that Said preferred reconciliation to segregation in Palestine Israel LeBlanc argues that Said s criticism speaks to the importance of negotiating the troubling proximate and unsettling presence of our most perplexing others

Iranophobia Haggai Ram, 2009-04-16 Israel and Iran invariably are portrayed as sworn enemies engaged in an unending conflict with potentially apocalyptic implications Iranophobia offers an innovative and provocative new reading of this conflict Concerned foremost with how Israelis perceive Iran the author steps back from all too common geopolitical analyses to show that this conflict is as much a product of shared cultural trajectories and entangled histories as it is one of strategic concerns and political differences Haggai Ram an Israeli scholar explores prevalent Israeli assumptions about Iran to look at how these assumptions have in turn reflected and shaped Jewish Israeli identity Drawing on diverse political cultural and academic sources he concludes that anti Iran phobias in the Israeli public sphere are largely projections of perceived domestic threats to the prevailing Israeli ethnocratic order At the same time he examines these phobias in relation to the Jewish state s use of violence in the Palestinian territories and Lebanon in the post 9 11 world In the end Ram demonstrates that the conflict between Israel and Iran may not be as essential and polarized as common knowledge assumes Israeli anti Iran phobias are derived equally from domestic anxieties

about the Jewish state's ethnic and religious identities and from exaggerated and displaced strategic concerns in the era of the war on terrorism

**Israeli-Palestinian Activism** Alexander Koensler, 2016-03-09 When do words and actions empower? When do they betray? Based on ethnographic fieldwork, this volume tracks the repercussions of advocacy activism against house demolitions in unrecognised Arab Bedouin villages in Israel's southern internal frontier. It highlights the repercussions of activism for victims, fund raisers and activists. The ethnographic episodes show how humanitarian aid intervention and indigenous identity politics can turn into a double edged sword. Ironically, institutional lobbying for coexistence and its interpretative categories can sometimes perpetuate different forms of subjugation. The volume also shows how beyond the institutional lobbying, novel figures of activism emerge, informal networks create non-sectarian cross-cutting countercultures and rethink human-environment relationships. These experimental political subjects redefine the categories of the conflict and elude the logic of zero-sum games; they point towards a shifting paradigm in current ethnopolitics. Koensler outlines an ethnographic approach for the study of social movements that follows multiple relations around mobilisations rather than studying activism in itself. This perspective thus becomes relevant for scholars and activists engaged with the Israeli-Palestinian conflict and those interested in global rights discourses.

**Freedom Time** Gary Wilder, 2015-02-14 Freedom Time reconsiders decolonization from the perspectives of Aimé Césaire, Martinique and Léopold Sédar Senghor, Senegal, who, beginning in 1945, promoted self-determination without state sovereignty. As politicians, public intellectuals and poets, they struggled to transform imperial France into a democratic federation with former colonies as autonomous members of a transcontinental polity. In so doing, they revitalized past but unrealized political projects and anticipated impossible futures by acting as if they had already arrived. Refusing to reduce colonial emancipation to national independence, they regarded decolonization as an opportunity to remake the world, reconcile peoples and realize humanity's potential. Emphasizing the link between politics and aesthetics, Gary Wilder reads Césaire and Senghor as pragmatic utopians, situated humanists and concrete cosmopolitans whose postwar insights can illuminate current debates about self-management, postnational politics and planetary solidarity. Freedom Time invites scholars to decolonize intellectual history and globalize critical theory to analyze the temporal dimensions of political life and to question the territorialist assumptions of contemporary historiography.

**Reflexivity and International Relations** Jack L. Amoureux, Brent J. Steele, 2015-09-25 Reflexivity has become a common term in IR scholarship with a variety of uses and meanings. Yet for such an important concept and referent, understandings of reflexivity have been more assumed rather than developed by those who use it, from realists and constructivists to feminists and post-structuralists. This volume seeks to provide the first overview of reflexivity in international relations theory, offering students and scholars a text that provides a comprehensive and systematic overview of the current reflexivity literature, develops important insights into how reflexivity can play a broader role in IR theory, pushes reflexivity in new productive directions and offers more nuanced and concrete specifications of reflexivity.

beyond the scholar and the scholarly field to political practice Formulates practices of reflexivity Drawing together the work of many of the key scholars in the field into one volume this work will be essential reading for all students of international relations theory

**Understanding Israel/Palestine** Eve Spangler, 2019-05-15 The Israeli Palestinian conflict is the longest on going hot and cold war in the 20th and 21st century In this book the author argues that human rights standards are the key to a just and sustainable solution and that tragically no one has ever made serious use of them in trying to end the conflict The reader will have a comprehensive view of the conflict its relationship to surrounding world events and its similarities to and differences from other conflicts especially those embedded in American race relations

**Global Race War** Alexander D. Barder, 2021-07-19 Global Race War explores the racial foundations of global politics from the Haitian Revolution to the present Alexander D Barder traces the emergence of this global racial hierarchy from the early 19th century to the present to explain how a historical racial global order unraveled over the first half of the 20th century continued during the Cold War and reemerged during the Global War on Terror As Barder shows imperial racial and geopolitical orders intersected over time in ways that violently tore apart the imperial and sovereign state system and continue to haunt politics today

**Middle East Tapestry** Roger H. Guichard, 2021-02-25 Middle East Tapestry represents the final installment of my thirty plus years living and working in the Arab and Muslim worlds The previous works *Masr* and *At the Margins* covered outlying areas of the region including Egypt South Asia and West Africa This book marks a return to the central lands of Islam in the Arabian Peninsula including Saudi Arabia and Yemen with lengthy excursions into lands to the north chiefly Jordan and the West Bank The title Middle East Tapestry was chosen after careful consideration of several alternatives The term Middle East simply seemed the best descriptor of the area inhabited by the world's nearly four hundred million Arab Muslims and makes up in familiarity what it may lack in definitional precision and nuance The word tapestry technically an elaborate piece of textile work with pictures woven into the warp and weft was also carefully chosen It more generally describes an intricate combination of things or sequence of events not necessarily related that seemed to answer to the complexity of the area I am describing a tapestry of cultures races and customs Indeed there is hardly a thing in the history of the area that is not intricate or complex

*America's Dream Palace* Osamah F. Khalil, 2016-10-17 As the postwar U S national security establishment required Middle Eastern expertise it cultivated a beneficial relationship with universities But by the time the Bush administration declared its Global War on Terror Osamah Khalil shows think tank agendas aligned with neoconservative goals were the drivers of America's foreign policy

[A Concise History of the Middle East](#) Ibrahim Al-Marashi, Arthur Goldschmidt Jr., 2018-09-03 A Concise History of the Middle East provides a comprehensive introduction to the history of this turbulent region Spanning from pre Islam to the present day it explores the evolution of Islamic institutions and culture the influence of the West modernization efforts in the Middle East the struggle of various peoples for political independence the Arab Israel conflict the reassertion of Islamic values and power the issues surrounding the Palestinian

Question and the Middle East post 9 11 and post Arab uprisings The twelfth edition has been fully revised to reflect the most recent events in and concerns of the region including the presence of ISIS and other non state actors the civil wars in Syria and Yemen and the refugee crisis New parts and part timelines will help students grasp and contextualize the long and complicated history of the region With updated biographical sketches and glossary and a new concluding chapter this book remains the quintessential text for students of Middle East history Can "The Whole World" Be Wrong? Richard Landes,2022-11-22 A Winner of the Association for the Study of the Middle East and Africa 2023 Bernard Lewis Prize Landes a medievalist and historian of apocalyptic movements takes us through the first years of the third millennium 2000 2003 documenting how a radical inability of Westerners to understand the medieval mentality that drove Global Jihad prompted a series of disastrous misinterpretations and misguided reactions that have shaped our so far unhappy century These misinterpretations in 2000 2001 2002 and 2005 contributed fundamentally to the ever worsening moral and empirical disorientations of our information elites journalists academics pundits So while journalists reported Palestinian war propaganda as news lethal journalism they were also reporting Jihadi war propaganda as news own goal war journalism These radical disorientations have created our current dilemma of pervasive information distrust deep splits within the voting public in most democracies the politicization of science and the inability of Western elites to defend their civilization and instead to stand down before an invasion **Edward Said's Rhetoric of the Secular** Mathieu E. Courville,2011-10-20 Edward Said s Rhetoric of the Secular provides an important new reading of Edward W Said s work emphasizing not only the distinction but also the fuzzy borders between representations of the religious and the secular found within and throughout his oeuvre and at the core of some of his most customary rhetorical strategies Mathieu Courville begins by examining Said s own reflections on his life before moving on to key debates about Said s work within Religious Studies and Middle Eastern Studies and his relationship to French critical theorists Through close attention to Said s use of the literal and the figurative when dealing with religious national and cultural matters Courville discerns a pattern that illuminates what Said means by secular Said s work shows that the secular is not the utter opposite of religion in the modern globalized world but may exist in a productive tension with it **Covering Islam** Edward W. Said,2015-08-19 In this classic work the author of *Culture and Imperialism* reveals the hidden agendas and distortions of fact that underlie even the most objective coverage of the Islamic world With a new foreword by Laleh Khalili No one studying the relations between the West and the decolonizing world can ignore Mr Said s work The New York Times Book Review From the Iranian hostage crisis through the Gulf War and the bombing of the World Trade Center the American news media have portrayed Islam as a monolithic entity synonymous with terrorism and religious hysteria At the same time Islamic countries use Islam to justify unrepresentative and often repressive regimes Combining political commentary with literary criticism *Covering Islam* continues Edward Said s lifelong investigation of the ways in which language not only describes but also defines political reality *Culture and Imperialism*

Edward W. Said, 2012-10-24 A landmark work from the author of *Orientalism* that explores the long overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it Grandly conceived urgently written and urgently needed No one studying the relations between the metropolitan West and the decolonizing world can ignore Mr Said's work The New York Times Book Review In the nineteenth and early twentieth centuries as the Western powers built empires that stretched from Australia to the West Indies Western artists created masterpieces ranging from *Mansfield Park* to *Heart of Darkness* and *Aida* Yet most cultural critics continue to see these phenomena as separate Edward Said looks at these works alongside those of such writers as W B Yeats Chinua Achebe and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance Vast in scope and stunning in its erudition *Culture and Imperialism* reopens the dialogue between literature and the life of its time
