From Snowshoes To Politics:

From Snowshoes to Politics Cyril Shelford, 1997 **A Long Way to Paradise** Robert A.J. McDonald, 2021-10-15 The political landscape of British Columbia has been characterized by divisiveness since Confederation As outsized personalities from Amor De Cosmos to W A C Bennett dominated the halls of power militant radicals and reformers took to the streets and hustings A Long Way to Paradise traces the evolution of political ideas from 1871 to 1972 to explore British Columbia s journey to socio political maturity answering both why and how British Columbia became Canada s most fractious province Robert McDonald explains its classic left right divide as a product of common sense liberalism that also shaped how British Columbians met the challenges of a modernizing world McDonald tackles key questions Why were the Liberal and Conservative parties obliterated in the 1950s What can account for Bennett s decades long reign And why did parties as diametrically opposed as Social Credit and the NDP succeed This lively overview provides fresh insight into the fascinating story of provincial politics in Canada s lotus land *The West Beyond the West* Jean Barman, 2017-06-22 British Columbia is regularly described in superlatives both positive and negative most spectacular scenery strangest politics greatest environmental sensitivity richest Aboriginal cultures most aggressive resource exploitation closest ties to Asia Jean Barman s *The West beyond the West* presents the history of the province in all its diversity and apparent contradictions This critically acclaimed work is the premiere book on British Columbian history with a narrative beginning at the point of contact between Native peoples and Europeans and continuing into the twenty first century Barman tells the story by focusing not only on the history made by leaders in government but also on the roles of women immigrants and Aboriginal peoples in the development of the province She incorporates new perspectives and expands discussions on important topics such as the province s relationship to Canada as a nation its involvement in the two world wars the perspectives of non mainstream British Columbians and its participation in recreation and sports including Olympics First published in 1991 and revised in 1996 this third edition of *The West beyond the West* has been supplemented by statistical tables incorporating the 2001 census two more extensive illustration sections portraying British Columbia s history in images and other new material bringing the book up to date Barman s deft scholarship is readily apparent and the book demands to be on the shelf of anyone with an interest in British Columbian or Canadian history **The Sommers Scandal** Betty O'Keefe, Ian Macdonald, 1999 In 1953 Forests Minister Robert E Sommers was one of the most powerful men in BC able to influence the province s major industry forestry with a stroke of his pen Five years later he plummeted from the heights when he was sent to jail for conspiracy and accepting bribes The Sommers scandal was the first and biggest stain on the record of Premier W A C Bennett s Socreds Betty O Keefe and Ian Macdonald have recreated those stormy days of the mid 1950s when Sommers Bennett Attorney General Robert Sommers Phil Gaglardi and Gordon Gibson rocked the rafters of the Legislature with bellowed accusations and denials Weaving interviews with major players and the media reports of the day they show the relentless process by which Sommers

was finally brought to trial and reveal the confusing array of verdicts for Sommers and his co accused The Sommers story is also the story of BC s forest industry The forest management system was under attack and investigation as the Sommers scandal unfolded and the decisions made in the 1950s set the course for the death of logging towns the corporate concentration and the crisis of overcutting some 30 years later Head On! R. G. Harvey,2004 In a province where mountain ranges are at odds with road and rail builders and its capital city and a large portion of its population are on an island it s no surprise that provision of an effective transportation system has been a challenging undertaking or that mistakes have been made In many cases BC s political leaders not only didn t solve problems they added to them And many of the mistakes made resulted from premiers exploiting their time in office to further their own political preferences theories and agendas This insider s examination looks at premiers errors and exploitations along with their triumphs and achievements from the first days of the provincial government Whether it be trouble with bridges premiers Prior and Pattullo railways McBride and Bennett or ferries Clark R G Harvey calls it like he sees it **Being Together in Place** Soren C. Larsen,Jay T. Johnson,2017-11-01 Being Together in Place explores the landscapes that convene Native and non Native people into sustained and difficult negotiations over their radically different interests and concerns Grounded in three sites the Cheslatta Carrier traditional territory in British Columbia the Wakarusa Wetlands in northeastern Kansas and the Waitangi Treaty Grounds in Aotearoa New Zealand this book highlights the challenging tentative and provisional work of coexistence around such contested spaces as wetlands treaty grounds fishing spots recreation areas cemeteries heritage trails and traditional village sites At these sites activists learn how to articulate and defend their intrinsic and life supportive ways of being particularly to those who are intent on damaging or destroying these places Using ethnographic research and a geographic perspective Soren C Larsen and Jay T Johnson show how the communities in these regions challenge the power relations that structure the ongoing post colonial encounter in liberal democratic settler states Emerging from their conversations with activists was a distinctive sense that the places for which they cared had agency a call that pulled them into dialogue relationships and action with human and nonhuman others This being together in place they find speaks in a powerful way to the vitalities of coexistence where humans and nonhumans are working to decolonize their relationships where reciprocal guardianship is being stitched back together in new and unanticipated ways and where a new kind of place thinking is emerging on the borders of colonial power Canadian Magazine of Politics, Science, Art and Literature ,1920

Beaten Down David Peterson del Mar,2011-10-01 Selected by Choice as an Outstanding Academic Title for 2003 The word violence conjures up images of terrorism bombings and lynchings Beaten Down is concerned with more prosaic acts of physical force a husband slapping his wife a parent taking a birch branch to a child a pair of drunken friends squaring off to establish who was the better man David Peterson del Mar accounts for the social relations of power that lie behind this intimate form of violence this white noise that has always been with us humming quietly between more explosive acts of

violence Broad in its chronological and cultural sweep *Beaten Down* examines interpersonal violence in Washington Oregon and British Columbia beginning with Native American cultures before colonization and continuing into the mid twentieth century It contrasts the disparate ways of practicing and punishing interpersonal violence on each side of the U S Canadian border Del Mar concludes that we cannot comprehend the causes and moral consequences of a violent act without considering larger social relations of power whether between colonizers and original inhabitants between spouses between parents and children or between and among different ethnic groups The author has drawn on a vast array of vivid sources including newspaper accounts autobiographies novels oral histories historical and ethnographic publications and hundreds of detailed court cases to account for not only the relative frequency of different forms of violence but also the shifting definitions and perceptions of what constitutes violence This is a thoughtful and probing account of how and why people have hit each other and the manner in which opinion makers and ordinary citizens have censured defended or celebrated such acts Del Mar s conclusions have important implications for an understanding of violence and perceptions of violence in contemporary society

British Columbia by the Road Ben Bradley,2017-06-07 In *British Columbia by the Road* Ben Bradley takes readers on an unprecedented journey through the history of roads highways and motoring in British Columbia s Interior a remote landscape composed of plateaus and interlocking valleys soaring mountains and treacherous passes Challenging the idea that the automobile offered travellers the freedom of the road and a view of unadulterated nature Bradley shows that an array of interested parties boosters businessmen conservationists and public servants manipulated what drivers and passengers could and should view from the road When it came to roads and highways planners and builders had two concerns grading or paving a way through the wilderness and opening pathways to new parks and historic sites They understood that the development of a modern road network would lead to new ways of perceiving BC and its environment Although cars and roads promised freedom they offered drivers a curated view of the landscape that shaped the province s image in the eyes of residents and visitors alike

The Politics of Population Bruce Curtis,2002-01-01 Curtis discusses census making as a political project investigating its place in and impact on party politics and ethnic religious and sectional struggles

Land, Settlement, and Politics on Eighteenth-century Prince Edward Island J. M. Bumsted, 1987 Soon after Prince Edward Island was transferred from French to British sovereignty in 1763 virtually the entire land surface was turned over to private proprietors on the understanding that they would finance both settlement and the administration of the territory While the proprietors did not fulfil their obligations they clung tenaciously to their privileges ultimately becoming an anachronistic group of landlords on a North American continent where freehold tenure was the norm J M Bumsted goes beyond the previous heroes residents and villains landlords approach of much of Island historiography by demonstrating the intimate interweaving of the issues of land politics and settlement

The Snow Adam Roberts, 2018-12-11 The new Adam Roberts novel is a story of global apocalypse old hatreds and new beginnings It is his best novel to date And this is how the world will end The snow started falling on the sixth of September soft noiseless flakes filling the sky like a swarm of white moths or like static interference on your TV screen whichever metaphor nature or technology you find the more evocative Snow everywhere all through the air with that distinctive sense of hurrying that a vigorous snowfall brings with it Everything in a rush busy busy snowflakes And simultaneously paradoxically everything is hushed calm as quiet as cancer as white as death And at the beginning people were happy But the snow doesn t stop It falls and falls and falls Until it lies three miles thick across the whole of the earth Six

billion people have died Perhaps 150 000 survive But those 150 000 need help they need support they need organising governing And so the lies begin Lies about how the snow started Lies about who is to blame Lies about who is left Lies about what really lies beneath **The Saturday Review of Politics, Literature, Science and Art** ,1862 The Saturday Review of Politics, Literature, Science, Art, and Finance ,1910 A Dream of Islands Philip Teece,1988 Warm personal stories drawn from the author s 20 years of cruising among B C s Gulf Islands Proves you don t have to go offshore to find adventure "Craft, Community and the Material Culture of Place and Politics, 19th-20th Century " Janice Helland,2017-07-05 Craft practice has a rich history and remains vibrant sustaining communities while negotiating cultures within local or international contexts More than two centuries of industrialization have not extinguished handmade goods rather the broader force of industrialization has redefined and continues to define the context of creation deployment and use of craft objects With object study at the core this book brings together a collection of essays that address the past and present of craft production its use and meaning within a range of community settings from the Huron Wendat of colonial Quebec to the Girls Friendly Society of twentieth century England The making of handcrafted objects has and continues to flourish despite the powerful juggernaut of global industrialization whether inspired by a calculated refutation of industrial sameness an essential means to sustain a cultural community under threat or a rejection of the imposed definitions by a dominant culture The broader effects of urbanizing imperial and globalizing projects shape the multiple contexts of interaction and resistance that can define craft ventures through place and time By attending to the political histories of craft objects and their makers over the last few centuries these essays reveal the creative persistence of various hand mediums and the material debates they represented
