**From the Stone Age to Christianity** William Foxwell Albright, 1940      From the Stone Age to Christianity William F. Albright, 2003-09-12 A monumental work of theological historical synthesis *From the Stone Age to Christianity* sets forth Albright's view of the light thrown by archaeology on the Bible as well as his basic philosophy of interpretation of the Bible and religion. Here he traces the development of humankind's idea of God from prehistoric times to the time of Christ.

**From the Stone Age to Christianity** William Foxwell Albright, 2008-11 FROM THE STONE AGE TO CHRISTIANITY MONOTHEISM AND THE HISTORICAL PROCESS BY WILLIAM FOXWELL ALBRIGHT PH D UTT D D H L TH D Utrecht W W Spence Professor of Semitic Languages in the Johns Hopkins University Sometime Director of the American School of Oriental Research in Jerusalem BALTIMORE THE JOHNS HOPKINS PRESS 1940 COPYRIGHT 1940 THE JOHNS HOPKINS PRESS SECOND PRINTING JUNE 1941 1 MOUNTED INTO TUBES BY THE STATES OF AMERICA BY THE FURHT COMPANY BALTIMORE TO SAMUEL WOOD GEISER SCIENTIST HISTORIAN AND FRIEND PREFACE The purpose of this book is to show how man's idea of God developed from prehistoric antiquity to the time of Christ and to place this development in its historical context. This task does not however consist merely in the accumulation of historical details; it involves an analysis of the historical patterns which emerge from the mass of detail. It is therefore a task both for the historian and for the philosopher of history. Since the purpose of the book is thus both historical and philosophical it becomes a matter of fundamental importance to define the respective functions of the historian and of the philosopher as clearly and precisely as possible. Only by the greatest care can we avert the vagueness of thought and the illogical formulation of conclusions which appear to be generally characteristic of works dealing with the philosophy of history. Chapter I is largely devoted to the methods by which ancient Near Eastern history has been developed in the past century from a little collection of scattered facts to a vast and well integrated body of knowledge. It may be observed in passing that this sketch is unique in modern historical literature since there has been no comparable treatment of archaeological and philological methodology in the light of their history. Chapter I forms an indispensable part of our work providing the foundation both for the treatment of the subject matter of history in Chapter II and for the lavish use made of archaeological data in subsequent chapters. Recognizing that history does form patterns difficult though it may often be to see them clearly we have devoted Chapter II to an analysis of the recent development and the basic principles of the philosophy of history. Both our restatement of historical epistemology and our formulation of an organismic philosophy of history depend largely on the materials analyzed and interpreted in Chapter I. The remaining four chapters are devoted to the development of the idea of God and of the relation between God and man in the light of the historical evolution of the ancient Near East. In Chapter III we have been forced to pay more attention to cultural and national history than we have in subsequent chapters. VII PREFACE

indicate the nature and course of cultural evolution clearly and effectively In consequence this chapter contains the most up to date account of the present state of our knowledge of prehistory and of the ancient Near East In Chapter IV we demonstrate the early date and originality of Israelite monotheism in Chapter V we show that the prophetic movement was a reformation not a religious revolution in Chapter VI we bring the book to a close with a new statement of the historical position of our Lord In an Epilogue we collect the strands of our theme and recapitulate our conclusions In dealing with so wide a field mistakes and oversights are inevitable Nor can we be sure of having succeeded everywhere in making our meaning clear We shall accordingly be grateful to readers and reviewers who call our attention to errors and omissions and who uncover forced or inconsistent reasoning so that the necessary corrections can be made later Dr H M Orlinsky has assisted me in reading proof and has helped me to achieve clarity of expression Drs G Ernest Wright and Malcolm F Stewart have contributed some very useful suggestions

Planting and Reaping Albright Burke O. Long, 2010-11 This book examines the social formation and ideological practices of William Foxwell Albright the gifted Johns Hopkins linguist and archaeologist who along with a fiercely loyal and organized group of former students exerted uncommon influence on the substance and direction of mid twentieth century biblical studies Albright and these devoted students such as G Ernest Wright Frank Moore Cross Jr David Noel Freedman John Bright George E Mendenhall came to be known as the Albright School Burke Long here treats the field of biblical studies not as a repository of objective knowledge but as a culture created by like minded people whose knowledge is mediated through the ideologically charged give and take of social interactions A first of its kind for biblical studies Planting and Reaping Albright draws on private letters interviews and published work to expose ideological presuppositions and political machinations embedded in historical knowledge about the Bible that this group of scholars constructed and disseminated through its various activities Long investigates Albright's many assumptions about the way things really are and the ways in which his students describing themselves as sons of Albright embarked on a crusade to secure political and ideological dominance of the landscape of American biblical scholarship The Albright School constituted a sociological phenomenon that had lasting consequences for American intellectual history and scholarship Accordingly this book suggests ways in which Albright or a social realization of Albright was present in and presented to a culture of generational and ideological solidarity

*The Mythic Mind* Nicolas Wyatt, 2014-12-05 The Mythic Mind follows the tradition of works which insist on the necessity for a comparative dimension in the study of ancient Israel The Israelite world view was essentially a West Semitic world view in origin with additional deeply embedded influences from Egypt and Mesopotamia though it produced its own distinctive character by way of synthesis and reaction The essays in this volume explore various aspects of this process historically and cosmologically commonly challenging received views developed in the treatment of Israel in isolation The importance of the Ugaritic texts in particular as reflecting the cultural context in which ancient Israel developed into two symbiotic kingdoms

Grafius, 2018-03-20 The tale of the zeal of Phineas expressed when he killed an Israelite man and a Midianite woman having sex and thus stopped a plague of consorting with idolatrous neighbors in the Israelite camp Numbers 25 has long attracted both interest and revulsion Scholars have sought to defend the account to explain it as pious fiction or to protest its horrific violence Brandon R Grafius seeks to understand how the tale expresses the latent anxieties of the Israelite society that produced it combining the insights of historical criticism with those of contemporary horror and monster theory Grafius compares Israelite anxieties concerning ethnic boundaries and community organization with similar anxieties apparent in horror films of the 1980s then finds confirmation for his method in the responses of Roman period readers who reacted to the tale of Phineas as a tale of horror The combination of methods allows Grafius to illumine the concern of an ancient priestly class to control unsettled and unsettling community boundaries and to raise questions of implications for our own time Biblical History and Israel S Past Megan Bishop Moore, Brad E. Lasine Thelle, 2025-06-03 The findings of Assyriology have been applied to biblical studies ever since the former emerged as a scholarly discipline in the mid nineteenth century Today the scholarly flow from Assyriology to biblical studies continues yet rarely are the fruits of biblical scholarship brought to bear on the study of ancient Assyria and Babylon The present volume aims to reverse this unidirectional trend Considering that the literature preserved in the Hebrew Bible is the product of a people who had significant contact with both Assyria and Babylonia then surely the study of the Hebrew Bible has something to offer Assyriology But what The contributors approach this question from a variety of disciplinary perspectives including intellectual history museology and religious and political history The authors also offer broad methodological considerations and more focused text based case studies Written by leading scholars in the fields of Assyriology and Hebrew Bible Jehu s *Tribute* presents a fresh approach to the multifaceted relationship between Assyriology and biblical studies In addition to the volume editors the contributors include C line Debourse Jessie DeGrado Eckart Frahm Shalom E Holtz Gina Konstantopoulos Alan Lenzi Alice Mandell Dustin Nash Beate Pongratz Leisten Seth Sanders Anthony P SooHoo SJ and Abraham Winitzer **Approaching the Study of Theology** Anthony C.
