Radical Left Voters in Western Europe Raul Gomez, Luis Ramiro, 2022-10-07 *Radical Left Voters in Western Europe* explores who votes for Radical Left Parties in contemporary Western Europe and why Once considered a relic of the past which was doomed to disappear in affluent societies Radical Left Parties were able to survive unprecedented electoral crises in the 1980s and 1990s to become a stable and significant feature of contemporary West European politics Despite this our knowledge of the electorate of contemporary Radical Left parties is extremely limited To fill this gap this book analyzes the radical left electorate in 17 West European countries Belgium Cyprus Denmark Finland France Greece Germany Iceland Ireland Italy Luxembourg the Netherlands Norway Portugal Spain Sweden and Switzerland for a period of 18 years 2000-18 The research combines data from multiple sources surveys country level data and party level data to show how amidst social and political change Radical Left Parties have been able to maintain a relatively sizeable and clearly identifiable electorate with fairly similar socio demographic and attitudinal features Moreover the book argues that in order to explain electoral support for Radical Left Parties it is important to consider not only voter characteristics but also the characteristics of the parties themselves and of the political and economic context in which they compete for votes This book will be of interest to scholars of comparative politics political sociology electoral behaviour and political parties

The Italian Far Right from 1945 to the Russia-Ukraine Conflict Nicola Guerra, 2023-12-19 *The Italian Far Right from 1945 to the Russia-Ukraine Conflict* provides a comprehensive account of the postwar parliamentary and extra parliamentary far right in Italy This book explores the ideology movements and activism of the extreme right and neo fascists The recent victory in the Italian parliamentary elections of the post fascist party Fratelli d'Italia and its leader Giorgia Meloni highlights the importance of such research The book examines why some of these movements participated with CIA backing in the Strategy

of Tension in the years of the Cold War where terrorist actions aimed to keep Italy in NATO and prevent the Communist Party from coming to power while other extreme right groups vehemently opposed this and what they considered the dangerous Americanization of the country It debunks the myth that there was a unified postwar fascist movement in Italy but instead excavates the complex battles within the extreme right as well as with their opponents from the left and the authorities This study is necessary to clarify the history and ideological dynamics of a political area still too often shrouded in mystery and whose geopolitical role is still poorly understood and generally underestimated The analysis is contextualized in the present day by looking at the different perspectives of the Italian far right on the Russian invasion of Ukraine The book will be of interest to researchers of political history the Cold War and Italian history and politics

Eco-Socialism or "Green" Capitalism? Saral Sarkar, 2023-09-08 After the ignominious fall of the classical Soviet model of socialism in the early 1990s socialists communists and all other kinds of Leftists had felt to have been left in the lurch With his book *Eco Socialism or Eco Capitalism A Critical Analysis of Humanity's Fundamental Choices* 1999 Saral Sarkar presented and laid the theoretical foundation of a new conception of socialism which convinced because it organically synthesized the newly arisen imperative of ecological sustainability and the old ideal of equality among members of humanity On their part all opponents of any kind of socialism have also been trying to somehow accommodate the inexorable insights and demands of true ecological sustainability in extant conceptions of capitalism What they have achieved is not a synthesis but merely a fake and self contradictory phrase that does not deserve the prefix Eco and should properly be called Green Capitalism But they succeeded in hoodwinking millions of worried human beings all over the world In the last thirty years Sarkar has been relentlessly trying through speeches and writings to counter their misconceptions of the ecological and social imperatives In the present two volumes of his *Collected Writings* readers will find some of the fruits of his endeavor Table of Contents Vol 2 Ch 5 On Population Growth and Unwelcome Mass Immigration Ch 6 On Fascism Secessionism Identity Politics and Other Reactionary Trends Ch 7 Futility of Activism Without Analysis Ch 8 Concluding Essays Table of Contents Vol 1 Ch 1 Polit autobiographical Essays Ch 2 Essays on the Renewable Energies Question Ch 3 The Recent Economic Crises Ch 4 More on Socialism Eco Socialism Leftism

Why Policy Representation Matters Luigi Curini, Willy Jou, Vincenzo Memoli, 2015-06-12 Elections are a fundamental element of democracy since elected governments reflect voter preferences At the same time it is inevitable that policies pursued by any government closely resemble the preferences of some citizens while alienating others who hold different views Previous works have examined how institutional settings facilitate or hinder policy proximity between citizens and governments Building on their findings the book explores a series of so what questions how and to what extent does the distance between individual and government positions affect citizens propensity to vote protest believe in democracy and even feel satisfied with their lives Using cross national public opinion data this book is an original scholarly research which develops theoretically grounded hypotheses to test the effect of citizen government proximity on three dependent variables After introducing the data both public opinion surveys and country level statistics and the methodology to be used in subsequent chapters one chapter each is devoted to how proximity or the absence thereof affects political participation satisfaction with democracy and happiness Differences in political attitudes and behavior between electoral winners and losers and ideological moderates and radicals are also discussed in depth
