From Theology To History French Religio:

From Theology to History: French Religious Controversy and the Revocation of the Edict of Nantes Elisabeth Israels Perry, 2012-12-06 History and Polemics in the French Reformation Barbara Sher Tinsley, 1992 Raemond s significance in European historiography a study that is attracting renewed attention among scholars is explored by comparing his views with those of other historians and public figures of his century both Protestant and Catholic The first three chapters deal with Raemond s life and literary associations the fourth with his expose of Pope Joan Next follows a consideration of his book on the Antichrist which together with the chapter on Joan offers a survey of many centuries of information and misinformation concerning church history especially the nature of papal primacy apostolic purity and the apocalyptic fears of a variety of writers and theologians These included Luther Calvin Melanchthon and John Bale who thought that the pope or the Turk was the Beast of the Book of Daniel **French Historians and Romanticism** Ceri Crossley, 2002-09-11 The French Revolution had a profound influence on perceptions of the past as well as setting the agenda for modern political culture This book examines the ways in which the past was rediscovered retrieved and represented in post revolutionary France concentrating upon the Restoration and the July Monarchy the period which witnessed the promotion of history as a grand discourse of legitimation **Alfred Loisy and the Making of History of Religions** Annelies Lannoy, 2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Coll ge de France Alfred Loisy 1857 1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy s writings on comparative religion and his rich interactions with famous scholars like F Cumont M Mauss or J G Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline between 1890 1920 and its deep entanglement with religion politics and society Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical and institutional frameworks for studying the history of religions British Qualifications 2016 Philip Kogan, 2015-12-03 Now in its 46th edition British Qualifications is the definitive one volume guide to every qualification on offer in the United Kingdom With an equal focus on vocational studies this essential guide has full details of all institutions and organizations involved in the provision of further and higher education and is an essential reference source for careers advisors students and employers It also includes a comprehensive and up to date description of the structure of further and higher education in the UK The book includes information on awards provided by over 350 professional institutions and accrediting bodies details of academic universities and colleges

and a full description of the current framework of academic and vocational education It is compiled and checked annually to ensure accuracy of information *The Works of Matthew Arnold ...: A French Eton.
