

tion of these issues, the book is valuable as a collection of empirical case studies, which at times include some delightful personal insights. See, for example, Helen Clark's account of being a politician caught up in the politics of the pharmaceutical companies; Neil Pearce on trying to publish important information on the side-effects of Fenoterol, while behind the scenes a drug company bombards the journal editors with unsolicited reviews; and Alex Thomson's account of the 'bribes' offered to doctors by pharmaceutical companies, and the weak response by medical ethics committees to these very common practices. Also, it is encouraging to see epidemiologists like Jackson, Kawachi and Pearce grappling with their own discipline and showing how epidemiological knowledge has been used to promote dubious 'mass treatment' regimes. Overall, *For Health or Profit* will probably not make a healthy profit, but given the copious details provided of the avaricious pursuits of pharmaceutical companies, the editor and contributors may be happy to have added another voice critical of the powerful drug industry.

CO-OPERATIVE LIFESTYLES IN AUSTRALIA: FROM UTOPIAN DREAMING TO COMMUNAL REALITY

Bill Metcalf (ed.)

Sydney, UNSW Press, 1995. 198 pp., \$29.95 (paperback).

In an environment of rationalist economics practised at university and with my increasing sense of being bound to harder and faster outcome measurements defined somewhere beyond me, I found this a challenging and refreshing book. Challenging because the book is about people successfully struggling to exercise control and responsibility in their own lives through community, and refreshing because I frequently could

identify with the authors' vision, commitment, pragmatism and successes.

This is a book of ten stories (first person narratives by four men, five women and one couple) by and about people in small-scale communities ranging in size between five and 260. The introduction is an historical overview of Australian intentional communities by Bill Metcalf and he also supplies the summary and conclusions. The communities represented are located across Australia. A significant number of the authors are academics, and these are mostly sociologists or social scientists, so this makes for very 'warm' sociology.

This is also a book about multiculturalism in Australia, in the sense that those who choose intentional communities do so with a strong critique of some notion of 'mainstream' culture. Their analysis of the 'outside' of their vision of cultural/community preferences motivates the construction of community. The community cultures constructed would seem as strong and diverse as any associated with any ethnicity, sexuality, institutions, or urban or rural location, and yet currently they appear not to be constructed as threatening in popular discourse.

Many of the authors included in *Co-operative Lifestyles in Australia* discuss physical place (all communities represented are significantly rural) and community where the magnitude and potency of the global appear to intrude rather less than in lives of those 'outside'. Most authors however do work 'outside', although this work is not a focus for discussion. Perhaps the picture that emerges then is of life more 'sealed off' than longer conversations with authors might indicate. In *Co-operative Lifestyles in Australia*, the individual is supported and confined by, and struggles with, others in community or perhaps with local government. 'Outside' family and friends, Tibetan Llamas and Woofers are the only others who seem to drift in and out of the lives portrayed.

The autobiographical papers about intentional community are edited by Metcalf, himself an erstwhile participant in intentional communities, and a soci-

obscure examples the text provides a comprehensive and definitive collection of the various ways Utopias have been conceived throughout history and how Utopian ideals have served as criticisms of existing sociocultural conditions This new edition includes many historically well known works little known but influential texts and contemporary writings providing an even more expansive coverage of the varieties of approaches and responses to the concept of utopia in the past present and even the future In particular the volume now includes feminist writings and work by authors of color and contends with current concerns such as the exploration of the ecological ideals of Utopia Furthermore Claeys and Sargent highlight twenty first century trends and popular narrative explorations of Utopias through the genres of young adult dystopias survivalist dystopias and non print utopias Covering a range of original theories of utopianism and revealing the nuances and concerns of writers across history as they attempt to envision different ideal societies The Utopia Reader is an essential resource for anyone who envisions a better future

Living in Utopia Lucy Sargisson, Lyman Tower Sargent, 2017-03-02 Utopia is literally the good place that is no place Utopias reveal people's dreams and desires and they may gesture towards different and better ways of being But they are rarely considered as physical observable phenomena In this book Sargisson and Sargent both established writers on utopian theory turn their attention to real life utopian communities The book is based on their fieldwork and extensive archival research in New Zealand a country with a special place in the history of utopianism A land of opportunity for settlers with dreams of a better life New Zealand has per capita more intentional communities groups of people who have chosen to live and sometimes work together for a common purpose than any country in the world Sargisson and Sargent draw on the experiences of more than fifty such communities to offer the first academic survey of this form of living utopian experiment In telling the story of the New Zealand experience Living in Utopia provides both transferable lessons in community cooperation and social change and a unique insight into the utopianism at the heart of politics society and everyday life

Fool's Gold? L. Sargisson, 2012-07-17 What's wrong with the world today and how might it become better or worse These are the questions pursued in this book which explores the hopes and fears dreams and nightmares of the 21st century Through architecture fiction theory film and experiments with everyday life Sargisson explores contemporary hopes and fears about the future

The Communal Idea in the 21st Century, 2012-09-28 The idea of a better society as associated with the communal idea is investigated from both theoretical perspectives and through contemporary experiences around the world This idea leaves nobody indifferent Whatever the hardship that its concretization implies however once it does materialize it cannot as such avoid new challenges tensions and unexpected claims This means at varying degrees negations of and removals from the utopian inspiration Humans are able to create unprecedented conditions of life under most ambitious inspirations but are unable to safeguard their achievements from change alterations and contradictions In this however another aspect of the utopian realizations is that they ultimately leave room for new utopist thinking and enrolment As far indeed the utopian inspiration draws its vitality from potent civilizational

Urban Eco-Communities in Australia Liam Cooper, Hans A. Baer,2018-06-28 This book offers one of the first detailed anthropological studies of emergent ecotopianism in urban contexts Engaging directly with debates on urbanisation sustainability and utopia it presents two detailed ethnographic case studies of inner urban Australian eco communities in Adelaide and Melbourne These novel responses to the ecological crisis real social laboratories that attempt to manifest a vision of the eco city in microcosm offer substantial new insights into the concept and creation of sustainable urban communities their attempts to cultivate ways of living that are socially and ecologically nourishing and their often fraught relationship to the capitalist city beyond These studies also suggest the opportunities and limitations of moving beyond demonstration projects towards wider urban transformation as well as exposing the problems of accessibility and affordability that thwart further urban eco interventions and the ways that existing projects can exacerbate issues of gentrification and privilege in a socially polarised city Amidst the challenges of the capitalist city climate change and ecological crisis this book offers vital lessons on the potential of urban sustainability in future cities

The Cambridge Companion to Utopian Literature Gregory Claeys,2010-08-05 Since the publication of Thomas More s genre defining work Utopia in 1516 the field of utopian literature has evolved into an ever expanding domain This Companion presents an extensive historical survey of the development of utopianism from the publication of Utopia to today s dark and despairing tendency towards dystopian pessimism epitomised by works such as George Orwell s Nineteen Eighty Four and Margaret Atwood s The Handmaid s Tale Chapters address the difficult definition of the concept of utopia and consider its relation to science fiction and other literary genres The volume takes an innovative approach to the major themes predominating within the utopian and dystopian literary tradition including feminism romance

and ecology and explores in detail the vexed question of the purportedly western nature of the concept of utopia The reader is provided with a balanced overview of the evolution and current state of a long standing rich tradition of historical political and literary scholarship

Utopianism for a Dying Planet Gregory Claeys, 2024-12-10 How the utopian tradition offers answers to today's environmental crises In the face of Earth's environmental breakdown it is clear that technological innovation alone won't save our planet A more radical approach is required one that involves profound changes in individual and collective behavior Utopianism for a Dying Planet examines the ways the expansive history of utopian thought from its origins in ancient Sparta and ideas of the Golden Age through to today's thinkers can offer moral and imaginative guidance in the face of catastrophe The utopian tradition which has been critical of conspicuous consumption and luxurious indulgence might light a path to a society that emphasizes equality sociability and sustainability Gregory Claeys unfolds his argument through a wide ranging consideration of utopian literature social theory and intentional communities He defends a realist definition of utopia focusing on ideas of sociability and belonging as central to utopian narratives He surveys the development of these themes during the eighteenth and nineteenth centuries before examining twentieth and twenty first century debates about alternatives to consumerism Claeys contends that the current global warming limit of 1.5C (2.7F) will result in cataclysm if there is no further reduction in the cap In response he offers a radical Green New Deal program which combines ideas from the theory of sociability with proposals to withdraw from fossil fuels and cease reliance on unsustainable commodities An urgent and comprehensive search for antidotes to our planet's destruction Utopianism for a Dying Planet asks for a revival of utopian ideas not as an escape from reality but as a powerful means of changing it

Australian Travellers in the South Seas Nicholas Halter, 2021-02-08 This book offers a wide ranging survey of Australian engagement with the Pacific Islands in the late 19th and early 20th centuries Through over 100 hitherto largely unexplored accounts of travel the author explores how representations of the Pacific Islands in letters diaries reminiscences books newspapers and magazines contributed to popular ideas of the Pacific Islands in Australia It offers a range of valuable insights into continuities and changes in Australian regional perspectives showing that ordinary Australians were more closely connected to the Pacific Islands than has previously been acknowledged Addressing the theme of travel as a historical literary and imaginative process this cultural history probes issues of nation and empire race and science commerce and tourism by focusing on significant episodes and encounters in history This is a foundational text for future studies of Australia's relations with the Pacific and histories of travel generally

The Philosophy of Utopia Barbara Goodwin, 2012-12-06 This collection addresses the important function of utopianism in social and political philosophy and includes debate on what its future role will be in a period dominated by dystopian nightmare scenarios

Thinking Utopia Jörn Rüsen, Michael Fehr, Thomas W. Rieger, 2006-12-01 After the breakdown of socialist and communist systems in the East it had become fashionable to declare the so called end of utopia end of history end of narratives The authors of this volume do not share this

view but think that it is time to rehabilitate utopian thought The political concept of Utopia that has given its name to these transcendental projections onto the world has been too narrow to describe and analyze the moving forces of the mind perceiving human existence beyond reality By broadening the perspectives of utopian studies these essays enable the reader to reconstruct scholarly paradigms and strategies of utopian complex and holistic thinking in modern cosmology philosophy sociology in literary historical and political sciences and to compare traditions and ways of Western utopian thought to the practice in the East
