

NEW FRONTIER "chronicles the experiences of DC Comics heroes from the end of World War II through the cold war. Mr. Cooke's drawings are striking, and his plot makes good use of DC's diverse characters."

— THE NEW YORK TIMES

"Writer/artist Darwyn Cooke smartly reimagines the dawn of the 'Silver Age' of heroes in the late '50s. Heavy on character, and with slightly cartoony art that evokes the period."

— SEATTLE TIMES

NEW FRONTIER "was a love letter to the Justice League that reimagined the team's late '50s and early '60s origins with a sense of honor, grandeur, and sensawunda that would thrill the most jaded heart."

— SUNDAY WATERBURY REPUBLICAN

global history Emmanuel Kreike shows how religious war in Europe transformed Holland into a desolate swamp where hunger and the black death ruled He describes how Spanish conquistadores exploited the irrigation works and expansive agricultural terraces of the Aztecs and Incas triggering a humanitarian crisis of catastrophic proportions Kreike demonstrates how environmental warfare has continued unabated into the modern era His panoramic narrative takes readers from the Thirty Years War to the wars of France s Sun King and from the Dutch colonial wars in North America and Indonesia to the early twentieth century colonial conquest of southwestern Africa Shedding light on the premodern origins and the lasting consequences of total war Scorched Earth explains why ecocide and genocide are not separate phenomena and why international law must recognize environmental warfare as a violation of human rights **Frontiers,**

At the Gate of Christendom Nora Berend,2001-05-17 Modern life in increasingly heterogeneous societies has directed attention to patterns of interaction often using a framework of persecution and tolerance This study of the economic social legal and religious position of three minorities Jews Muslims and pagan Turkic nomads argues that different degrees of exclusion and integration characterized medieval non Christian status in the medieval Christian kingdom of Hungary between 1000 and 1300 A complex explanation of non Christian status emerges from the analysis of their economic social

legal and religious positions and roles Existence on the frontier with the nomadic world led to the formulation of a frontier ideology and to anxiety about Hungary's detachment from Christendom which affected policies towards non Christians The study also succeeds in integrating central European history with the study of the medieval world while challenging such current concepts in medieval studies as frontier societies persecution and tolerance ethnicity and the other

Warfare and Society in British India, 1757-1947 Ashutosh Kumar, Kaushik Roy, 2022-12-30 This book explores the intricate and intimate relationship between military organization, imperial policy and society in colonial South Asia. The chapters in the volume focus on technology, logistics and state building. The present volume highlights the salient features of expansion and consolidation of imperial control over the subcontinent and ultimate demise of the Raj. Further, it turns the spotlight on to subaltern challenges to imperialism as well as the role of non-combatants in warfare. The volume deals with both conventional and guerrilla conflicts and focuses on the frontiers both North West and North East including Burma. Looks at the army as an institution rather than presents a chronological account of military operations which highlights the complex and tortuous relationship between combat institution, colonial state and Indian society. Integrates top-down approaches in military and strategic studies with the bottom-up perspectives and discusses on how the conduct of war, organisation and technology is related to the economic, societal and cultural impact of war. A rich account of the British Army in India, this book will be essential reading for scholars and researchers of South Asian history, military history, political history, colonialism and the British Empire.

Social Change in the Southwest, 1350-1880 Thomas D. Hall, 1989

Inadvertent Expansion Nicholas D. Anderson, 2025-01-15 In *Inadvertent Expansion* Nicholas D. Anderson investigates a surprisingly common yet overlooked phenomenon in the history of great power politics: territorial expansion that was neither intended nor initially authorized by state leaders. Territorial expansion is typically understood as a centrally driven and often strategic activity. But as Anderson shows, nearly a quarter of great power coercive territorial acquisitions since the nineteenth century have in fact been instances of what he calls inadvertent expansion. A two-step process, inadvertent expansion first involves agents on the periphery of a state or empire acquiring territory without the authorization or knowledge of higher-ups. Leaders in the capital must then decide whether to accept or reject the already acquired territory. Through cases ranging from those of the United States in Florida and Texas to Japan in Manchuria and Germany in East Africa, Anderson shows that inadvertent expansion is rooted in a principal-agent problem. When leaders in the capital fail to exert or have limited control over their agents on the periphery, unauthorized efforts to take territory are more likely to occur. Yet it is only when the geopolitical risks associated with keeping the acquired territory are perceived to be low that leaders are more likely to accept such expansion. Accentuating the influence of small, seemingly insignificant actors over the foreign policy behavior of powerful states, *Inadvertent Expansion* offers new insights into how the boundaries of states and empires came to be and captures timeless dynamics between state leaders and their peripheral agents.

Civilizations and World Systems Stephen K. Sanderson, 1995 Leading figures in the fields of civilizational studies and sociology and political science join to compare and
