Flack,Karen Meador,1997-11-15 Can creativity be taught Absolutely And Meador shows you exactly how to nourish creativity and problem solving abilities in your students After presenting valid models of creative thinkers appearing in outstanding children's literature she offers a variety of activities you can use to develop creative processes through fluency flexibility and originality In addition there are lists for further reading and guidelines for adapting lessons Grades K 4 adaptable to other grades **The Twilight of the North** Jorgen Flood,2010-03 For 250 years the Vikings sailed the oceans of the world Their exploits are legendary They reached far into Russia sailed the Mediterranean from one end to the other and crossed the Atlantic to North America At one point they ruled much of England and Ireland Few cities even those far from the coastline were safe from them But it was not all raiding they were also settlers explorers and soldiers This is the story of one of these men Erik Sigvaldsson who like many before and after him ended up in the service of the emperor of Byzantium Young at Art Susan Striker,2011-04-01 From the creator of the bestselling Anti Coloring Book series with more than 600 000 copies sold a new parenting guide to encouraging creativity in preschool age children Young at Art is the first and only comprehensive book for the general audience about the nature value and impact of art on very young children Directed towards parents and educators of one to five year olds Susan Striker explains why children's art is not a frill but the very foundation upon which all later fundamental skills are built She drives home the idea that encouraging children's artistic growth will have beneficial effects on all other aspects of their emotional and intellectual development At the core of this practical guide is the understanding that art is an important tool in teaching young children crucial concepts related to self expression reading and writing As opposed to more structured exercises such as coloring on dittos and underlining pictures in workbooks Striker stresses that scribbling and free drawing experiments are the most important art activities a child can engage in they better prepare children to read independently as they grow Young at Art provides descriptions for

age appropriate art activities tips for carrying them out safely and helps parents recognize what a child's art work should look like at each stage of development With Young at Art parents will develop realistic expectations of their children's work learn how to speak to their children about their art and facilitate skills well beyond their creativity that will benefit children
