The Cinema of Errol Morris David Resha, 2015-04-08 The Cinema of Errol Morris offers close analyses of the director s films from box office successes like The Thin Blue Line and The Fog of War to Morris s early works like Vernon Florida and controversial films like Standard Operating Procedure Film scholar David Resha s reappraisal of Morris s films allows us to rethink the traditional distinction between stylistically conservative documentaries which are closely invested in evidence and reality and stylistically adventurous films which artfully call to question such claims of nonfiction and truth According to Resha Errol Morris does not fit neatly in this division of the documentary tradition Rather his experiments with documentary conventions constitute another way to investigate reality in particular to examine the ways in which his subjects understand and misunderstand themselves and the world around them Seen within the nonfiction tradition

an Errol Morris documentary is a flexible form of lively engaging storytelling and shrewd cutting in depth reportage Hardcover is un jacketed Digital Uncanny Kriss Ravetto-Biagioli,2019 We are now confronted with a new type of uncanny experience an uncanny evoked by parallel processing aggregate data and cloud computing The digital uncanny does not erase the uncanny feeling we experience as d j vu or when confronted with robots that are too lifelike Today s uncanny refers to how non human devices surveillance technologies algorithms feedback and data flows anticipate human gestures emotions actions and interactions thus intimating that we are but machines and that our behavior is predicable precisely because we are machinic It adds another dimension to those feelings in which we question whether our responses are subjective or automated automated as in reducing one s subjectivity to patterns of data and using those patterns to present objects or ideas that would then elicit one s genuinely subjective yet effectively preset response In fact this anticipation of our responses is a feedback loop that we humans have produced by designing software that can study our traces inputs and moves In this sense one could say that the digital uncanny is a trick we play on ourselves a trick that we would not be able to play had we not developed sophisticated digital technologies Digital Uncanny explores how digital technologies particularly software systems working through massive amounts of data are transforming the meaning of the uncanny that Freud tied to a return of repressed memories desires and experiences to their anticipation Through a close reading of interactive and experimental art works of Rafael Lozano Hemmer Bill Viola Simon Biggs Sue Hawksley and Garth Paine this book is designed to explore how the digital uncanny unsettles and estranges concepts of self affect feedback and aesthetic experience forcing us to reflect on our relationship with computational media and by extension our relationship to each other and our experience of the world **ESPN The Company** Anthony F. society and those who are responsible for bringing real stories and issues to a creative medium often have an uncanny ability to make a deep connection to us with their art. Legendary directors and cinematographers such as the Maysles brothers, D.A. Pennebaker, Chris Hegedus, Errol Morris, or Ken Burns have vividly made their marks in recent decades and continue to inspire those who enter the field. Inexpensive video camera equipment and video editing software have helped fuel a new wave of truth tellers bringing the tools of the craft within reach of amateurs and students as well as independent journalists and filmmakers on a budget. In *The Art of the Documentary*, the directors, editors, cinematographers, and producers behind today's most thought-provoking nonfiction films reveal the thought processes, methods, and collaborations that have guided their efforts from project conception to developing, producing, shooting, editing, and releasing some of the finest documentary films of recent decades. This richly illustrated volume, which will appeal to professional and aspiring filmmakers as well as documentary enthusiasts, features conversations with directors, cinematographers, editors, and producers including Ken Burns, *The Civil War*, *Jazz*, *Baseball* director/cinematographer D.A. Pennebaker, *Dont Look Back*, *The War Room* director/cinematographer Albert Maysles, *Gimme Shelter*, *Grey Gardens* director Errol Morris, *The Fog of War*, *The Thin Blue Line* director Chris Hegedus, *Startup.com*, *Down from the Mountain* editor Larry Silk, *Pumping Iron*, *Wild Man Blues* cinematographer Buddy Squires, *The Civil War*, *Ram Dass*, *Fierce Grace* director/producer Lauren Lazin, *Tupac Resurrection*, *Journey of Dr. Dre* editor/director Paula Heredia, *The Vagina Monologues*, *In Memoriam New York City 9/11* director/cinematographer Kirsten Johnson, *Fahrenheit 9/11*, *Innocent Until Proven Guilty* editor Geof Bartz, *Lenny*, *Bruce Swear to Tell the Truth*, *He's Having a Baby*, Sheila Nevins, President of HBO Documentaries and HBO Family, Alison Bourke, executive producer for IFC, Cara Mertes, executive producer at PBS for the POV series, Frazer Pennebaker, producer, and with contributions by Carol Dysinger, film editor and professor, NYU Film School, and Haskell Wexler, cinematographer. *A Note About the Second Edition*: In this edition of the book, we have included the original full interviews of the producers that did not appear in the first edition. Those producers include Sheila Nevins, Lauren Lazin, Alison Palmer Bourke, Cara Mertes, and Frazer Pennebaker. The interviews of the directors, cinematographers, and editors have been left in tact and are included as they appeared in the first edition.
