Far Out Nancy Weatherly Sharp,2025-05-31 Far Out is not a book to debunk conventional ideas But over the years I have learned about experienced and been impressed by a number of alternative healing techniques Over time I became so intrigued with things alternative that I was impelled to learn more and more about them Even so I have done so cautiously never abandoning the skepticism and tough questions that were the hallmarks of my career as a reporter and writer for newspapers in Missouri California Washington D C and New York The journey I ve been on has ended up being enlightening inspirational and life changing Despite my initial doubts the efforts I set in motion to push back boundaries and unlock doors have brought me tremendous rewards personally Even though not every experience I have had has been totally positive and not everything I have read or been told has been credible along the way I have had truly amazing experiences made deep friendships enjoyed countless provocative conversations and spent hour after hour engrossed in what I have been reading or witnessing The people I ve come to know either in person or through their writings have taught me so much and enriched my life in so many ways And for this I owe so much to so many In sum not only am I a happier healthier more peaceful and more loving person now but also my eyes have been opened to a whole new way of living not to mention a whole new way of way of looking at our existence in this miraculous universe of ours Many of the ideas and practices I have been introduced to ones that seemed so wrong headed in the beginning I now accept as sound and valuable even though they often directly contradict what I grew up knowing to be the truth Others have just added new dimensions and perspectives to the understandings I had so long ago So why have I put this story about my own personal journey to paper It s a question I ve wrestled with myself Certainly writing a book was not my objective when I initially set out on my explorations and I do sometimes wonder how what I have to say will be perceived by my more orthodox friends and readers But people who open their minds to the vast possibilities outside the boundaries of conventional wisdom and talk seriously of such things in the here and now are

sometimes taken with a grain of salt I do hope that will not be the case with me I see my work as both enlightening and significant Also I am perfectly happy with my life just the way it is without being the author of this book Not only have I always been blessed career wise but also I am in excellent health have great friends and am married to the world's best husband James Roger Sharp a well known American historian and author of important studies on the birth of the nation and its development in the Jacksonian period And Roger and I have a loving family including a son daughter daughter in law and four grandchildren It certainly was not my intention to debunk conventional ideas most of which I am in complete agreement with anyway Although over the years I have learned about experienced and been impressed by a number of alternative healing techniques that does not mean that I am not a fan of Western medicine as well In fact my own personal experience with allopathic medicine has been superb In addition to not wanting to discredit conventional ideas I have not written this book to sell anyone on specific alternative ideas or approaches It is not my goal to persuade others to follow in my specific footsteps Far from it I see my path as mine and mine alone Although I've spent more than a quarter century tirelessly exploring the multifaceted out of the mainstream world I only want to tell my story as accurately and entertainingly as possible But it is my experience and my story I am definitely not in any position to endorse anything I've learned about experienced myself or witnessed someone else experience In the end then I have come to the conclusion that my primary motivation in writing this book is to tell a fascinating illuminating significant story a story I need to share because it sheds light on our incredible magnificent exquisite universe with its tantalizing mysteries As a newspaper reporter that has been my calling to use whatever knowledge and talents I have to investigate the world and then report back to readers what I have found and to do so as clearly accurately and entertainingly as I have known how Finally I have to say I would not be unhappy if reading my story were to enable at least a few readers to suspend their disbelief open their minds to out of the mainstream ideas and approaches and then set out themselves on their own individual journeys of discovery For those readers ready to personally dip a toe into the realm of things alternative then it is my hope that what I have written will serve as a useful how to guidebook to the territory ahead I wish them all the success in the world Furthermore sharing my story today seems even more timely relevant and maybe even urgent than when the writing of the book began I say this after becoming aware of predictions coming from both conventional and unconventional sources about the possibility that our future could be fundamentally different than our present is and past has been Not only are mainstream figures like former Vice President Al Gore and many scientists urgently and repeatedly warning about changes we may all soon face as a result of the ways climate change may affect our planet but many alternative visionaries also are looking ahead to a planet unlike the one we know today In the final analysis I hope that my book while offering insights and guidance to readers no matter what the future brings turns out to be a great read Thus it is my desire that those who experience my journey vicariously by following in my footsteps will not only gain a far greater understanding of and appreciation for what this miraculous world of ours is all

about but also enjoy the ride And if it should turn out that the Earth s future is one of great change it is my wish that the holistic ideas and approaches that I ve discovered along my path become especially empowering and valuable as they are less dependent on 21st century technology and more in line with the natural cycles and rhythms of our planet and the universe in which it resides So come with me It s an awesome place to be It s Far Out **Wisconsin Library Bulletin** ,1965 **Far Out** Paula Guran,2021-07-27 An Anthology of Recent Queer Science Fiction and Fantasy from Award Winning Editor Paula Guran Speculative fiction imagines drastically diverse ways of being and worlds that are other than the one with which we are familiar Queerness is a natural fit for such fiction so one would expect it to be customarily included That has not always been the case but LGBTQ representation in science fiction and fantasy in both short and long form is now relatively common Even so most of the queer science fiction and fantasy anthologies published in the last thirty five years have been narrowly focused specifically gay male or lesbian or more recently transgender themes or all science fiction or all fantasy or adhering to a specific theme or subgenre Far Out Recent Queer Science Fiction and Fantasy on the other hand features both science fiction and fantasy short fiction from the last decade and includes characters perspectives and stories that span the rainbow With stories from incredible authors ranging from Seanan McGuire to Charlie Jane Anders to Sam J Miller it s an essential read for anyone interested in queer science fiction and fantasy Contents Introduction Over the Rainbow and into the Far Out by Paula Guran Destroyed by the Waters by Rachel Swirsky The Sea Troll s Daughter by Caitl n R Kiernan And If the Body Were Not the Soul by A C Wise Imago by Tristan Alice Nieto Paranormal Romance by Christopher Barzak Three Points Masculine by An Owomoyela Das Steingesch pf by G V Anderson The Deepwater Bride by Tamsyn Muir The Shape of My Name by Nino Cipri Otherwise by Nisi Shawl The Night Train by Lavie Tidhar Ours Is the Prettiest by Nalo Hopkinson Don t Press Charges and I Won t Sue by Charlie Jane Anders Driving Jenny Home by Seanan McGuire I m Alive I Love You I ll See You in Reno by Vylar Kaftan In the Eyes of Jack Saul by Richard Bowes Secondhand Bodies by Neon Yang Seasons of Glass and Iron by Amal El Mohtar N e by Darcie Little Badger The Duke of Riverside by Ellen Kushner Cat Pictures Please by Naomi Kritzer The Lily and the Horn by Catherynne M Valente Calved by Sam J Miller The River s Children by Shweta Narayan Water Resources Development in Massachusetts ,1995 *Hearings, Reports and Prints of the Senate Committee on the Judiciary* United States.
