**Meaning and Lexicography** Jerzy Tomaszczyk, Barbara Lewandowska-Tomaszczyk, 1990-01-01 While lexicology lexical semantics and lexicography all

share an interest in lexical items they often tend to be regarded as three separate albeit interrelated fields. Indeed the extent to which the interrelationship is recognized and taken into account in lexicographic practice is the moot point. The conference which produced the papers offered in this volume was designed to bring their practitioners together and thus gives an impetus to closer cooperation among them. It is the editors' conviction that the practical activity of lexicography should learn more from its sister fields. People working in lexicography, lexical semantics etc. may find some of the insights arrived at in the more practically oriented descriptions pertinent and useful.
