Theatre Noise Lynne Kendrick, David Roesner, 2012-01-24 This book is a timely contribution to the emerging field of the aurality of theatre and looks in particular at the interrogation and problematisation of theatre sound s Both approaches are represented in the idea of noise which we understand both as a concrete sonic entity and a metaphor or theoretical sometimes even ideological thrust Theatre provides a unique habitat for noise It is a place where friction can be thematised explored playfully even indulged in friction between signal and receiver between sound and meaning between eye and ear between silence and utterance between hearing and listening In an aesthetic world dominated by aesthetic redundancy and aerodynamic signs theatre noise recalls the aesthetic and political power of the grain of performance Theatre noise is a new term which captures a contemporary agitative acoustic aesthetic It expresses the innate theatricality of sound design and performance articulates the reach of auditory spaces the art of vocality the complexity of acts of audience the political in produced noises Indeed one of the key contentions of this book is that noise in most cases is to be understood as a plural as a composite of different noises as layers or waves of noises Facing a plethora of possible noises in performance and theatre we sought to collocate a wide range of notions of and approaches to noise in this book by no means an exhaustive list of possible readings and understandings but a starting point from which scholarship like sound could travel in many directions

Twentieth-Century Music in the West Tom Perchard, Stephen Graham, Tim Rutherford-Johnson, Holly Rogers, 2022-10-06 This is the first introductory survey of western twentieth century music to address popular music, art music and jazz on equal terms. It treats those forms as inextricably intertwined and sets them in a wide variety of social and critical contexts. The book comprises four sections: Histories, Techniques and Technologies, Mediation, Identities, with 16 thematic chapters. Each of these explores a musical or cultural topic as it developed over many years and as it appeared across a diversity of musical practices. In this way, the text introduces both key musical repertoire and critical musicological approaches to that work. It historicises music and musical thinking, opening up debate in the present rather than offering a new but closed narrative of the past. In each chapter, an overview of the topic's chronology and main issues is illustrated by two detailed case studies.

Dane Rudhyar Deniz Ertan, 2009 Dane Rudhyar 1895-1985 was a unique figure in twentieth century American culture: a composer, thinker, painter, poet, novelist and expert on astrology. His life and activities illuminate crucial twentieth century American themes about society, history, creativity and identity. Favoring synthesis and a blend of what he called unity and multiplicity, Rudhyar created a rare bridge between the West and the East, built on American foundations. His thought and work transcended disciplinary boundaries, integrating perspectives that were and often still are generally pursued in isolation from each other. The book is enriched with numerous color illustrations of Rudhyar's paintings and with examples drawn from his music and writings.

California Polyphony Mina Yang, 2010-10-01 What does it mean to be Californian? To find out, Mina Yang delves into the multicultural nature of musics in the state that has launched musical and cultural trends for decades. In the early twentieth century, an orientalist fascination with Asian music and culture dominated the popular imagination of white Californians and influenced their interactions with the Asian Other. Several decades later, tensions between the Los Angeles Police Department and the African American community made the thriving jazz and blues nightclub scene of 1940s Central Avenue a target for the LAPD's anti-vice crusade. The musical scores for Hollywood's noir films confirmed reactionary notions of the threat to white female sexuality in the face of black culture and urban corruption, while Mexican Americans faced a conflicted assimilation into the white American mainstream. Finally, Korean Americans in the twenty-first century turned to hip hop to express their cultural and national identities. A compelling journey into the origins of musical identity, *California Polyphony* explores the intersection of musicology, cultural history and politics to define Californian.

Microtones and Microtonalities Christopher Fox, 2003

Lou Harrison Bill Alves, Brett Campbell, 2017-04-10 A biography on the legendary gay American composer of contemporary classical music. American composer Lou Harrison 1917-2003 is perhaps best known for challenging the traditional musical establishment along with his contemporaries and close colleagues, composers John Cage, Aaron Copland, Virgil Thomson and Leonard Bernstein. Living Theater founder Judith Malina and choreographer Merce Cunningham. Today

musicians from Bang on a Can to Björk are indebted to the cultural hybrids Harrison pioneered half a century ago. His explorations of new tonalities at a time when the rest of the avant garde considered such interests heretical set the stage for minimalism and musical post modernism. His propulsive rhythms and ground breaking use of percussion have inspired choreographers from Merce Cunningham to Mark Morris and he is considered the godfather of the so called world music phenomenon that has invigorated Western music with global sounds over the past two decades. In this biography authors Bill Alves and Brett Campbell trace Harrison's life and career from the diverse streets of San Francisco where he studied with music experimentalist Henry Cowell and Austrian composer Arnold Schoenberg and where he discovered his love for all things non traditional Beat poetry parties and men to the competitive performance industry in New York where he subsequently launched his career as a composer conducted Charles Ives's Third Symphony at Carnegie Hall winning the elder composer a Pulitzer Prize and experienced a devastating mental breakdown to the experimental arts institution of Black Mountain College where he was involved in the first happenings with Cage Cunningham and others and finally back to California where he would become a strong voice in human rights and environmental campaigns and compose some of the most eclectic pieces of his career. Lou Harrison's avuncular personality and tuneful music coaxed affectionate regard from all who knew him and that affection is evident on every page of Alves and Campbell's new biography. Eminently readable it puts Harrison at the center of American music he knew everyone important and was in touch with everybody from mentors like Henry Cowell and Arnold Schoenberg and Charles Ives and Harry Partch and Virgil Thomson to peers like John Cage to students like Janice Giteck and Paul Dresher. He was larger than life in person and now he is larger than life in history as well. Gian Francesco Malipiero (1882-1973) John C. G. Waterhouse, 2013-12-19 In recent years Gian Francesco Malipiero has been recognised increasingly widely as one of the most original and strangely fascinating Italian composers of the early 20th century He was the teacher of Maderna and Nono and was revered by among many others Dallapiccola who even called him the most important musical personality that Italy has had since the death of Verdi He was also a key figure in the revival of the long neglected music of Italy's great past and himself edited what remains the only virtually complete edition of the surviving compositions of Monteverdi The present book not only provides the first monographic survey of Malipiero's life times and music to appear in English but covers the subject more comprehensively than any previous publication in any language Dr Waterhouse draws on hitherto unpublished documents and with the help of numerous musical examples analyses the composer's works style and idiosyncratic personality
