Perspectives on Mass Communication History Wm. David Sloan,2013-11-05 This unique volume is based on the philosophy that the teaching of history should emphasize critical thinking and attempt to involve the student intellectually rather than simply provide names dates and places to memorize The book approaches history not as a cut and dried recitation of a collection of facts but as multifaceted discipline In examining the various perspectives historians have provided the author brings a vitality to the study of history that students normally do not gain The text is comprised of 24 historiographical essays each of which discusses the major interpretations of a significant topic in mass communication history Students are challenged to evaluate each approach critically and to develop their own explanations As a textbook designed specifically for use in graduate level communication history courses it should serve as a stimulating pedagogical tool

Journalism's Roving Eye John Maxwell Hamilton,2011-08-15 In all of journalism nowhere are the stakes higher than in foreign news gathering For media owners it is the most difficult type of reporting to finance for editors the hardest to oversee Correspondents roaming large swaths of the planet must acquire expertise that home based reporters take for granted facility with the local language for instance or an understanding of local cultures Adding further to the challenges they must put news of the world in context for an audience with little experience and often limited interest in foreign affairs a task made all the more daunting because of the consequence to national security In *Journalism's Roving Eye* John Maxwell Hamilton a historian and former foreign correspondent provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced

overseas coverage as well as the cavalcade of colorful personalities who shaped readers' perceptions of the world across two centuries. From the colonial era when newspaper printers hustled down to wharfs to collect mail and periodicals from incoming ships to the ongoing multimedia press coverage of the Iraq War, Hamilton explores journalism's constant and not always successful efforts at dishing the foreign news as James Gordon Bennett put it in the mid nineteenth century to describe his approach in the New York Herald. He details the highly partisan coverage of the French Revolution, the early emergence of special correspondents and the challenges of organizing their efforts, the profound impact of the non yellow press in the run up to the Spanish American War, the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I and the golden age of foreign correspondence during the interwar period when outlets for foreign news swelled and a large number of experienced independent journalists circled the globe. From the Nazis' intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War, Hamilton covers every aspect of delivering foreign news to American doorsteps. Along the way, Hamilton singles out a fascinating cast of characters among them Victor Lawson, the overlooked proprietor of the Chicago Daily News who pioneered the concept of a foreign news service geared to American interests; Henry Morton Stanley, one of the first reporters to generate news on his own with his 1871 expedition to East Africa to find Livingstone; and Jack Belden, a forgotten brooding figure who exemplified the best in combat reporting. Hamilton details the experiences of correspondents, editors, owners, publishers, and network executives as well as the political leaders who made the news and the technicians who invented ways to transmit it. Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news gathering. Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the newspaper industry, many fear that foreign reporting will soon no longer exist. But as Hamilton shows in this magisterial work, traditional correspondence survives alongside a new type of reporting. Journalism's Roving Eye offers a keen understanding of the vicissitudes in foreign news, an understanding imperative to better seeing what lies ahead.

The Biographical Dictionary of Iowa David Hudson, Marvin Bergman, Loren

Horton, 2009-05. Iowa has been blessed with citizens of strong character who have made invaluable contributions to the state and to the nation. In the 1930s alone, such towering figures as John L. Lewis, Henry A. Wallace, and Herbert Hoover hugely influenced the nation's affairs. Iowa's Native Americans, early explorers, inventors, farmers, scholars, baseball players, musicians, artists, writers, politicians, scientists, conservationists, preachers, educators, and activists continue to enrich our lives and inspire our imaginations. Written by an impressive team of more than 150 scholars and writers, the readable narratives include each subject's name, birth and death dates, place of birth, education, and career, and contributions. Many of the names will be instantly recognizable to most Iowans; others are largely forgotten but deserve to be remembered. Beyond the distinctive lives and times captured in the individual biographies, readers of the dictionary will gain an appreciation for how
