Hasidic Psychology Mordechai Rotenberg,2018-01-16 Interest in the impact of ethical systems and social or religious ideologies on socio behavioral patterns is a longstanding theme in social science research While interest may have begun with Max Weber and his thesis of the relationship between the Protestant ethic and the spirit of capitalism it extends far beyond this Surprisingly few studies have delved into the socio behavioral patterns emanating from Jewish ethics This book with a new introduction by the author fills that gap As Hasidic Psychology makes clear Jewish ethics are unique in many ways especially in that they are essentially other centered Man s ability to affect his own future and interpersonal relations are explained according to the theory of contraction popularized in Hasidic thought God by contracting Himself to evacuate space for the human world bestowed upon man the power and responsibility to determine his own future and even affect God s disposition In the first part of the book the sociological structural concept of mono versus multiple ideal labeling is introduced This concept refers to a social system in which diverse material and spiritual actualization patterns are structurally introduced as equal social ideals In the second part basic tenets of classic interaction and socialization are compared to the interpersonal perspective and the contraction theory is explained as a process of mutual emulation whereby father and son affect each other In the third part a functional approach to deviance is developed through the Hasidic process known as ascend via descend *Hasidic Commentary on the Torah* Ora Wiskind-Elper,2018-03-13 Hasidism a movement of religious awakening and social reform originated in the mid eighteenth century After two and a half centuries of crisis upheaval and renewal it remains a vibrant way of life and a compelling aspect of Jewish experience This book explores the

profound intellectual and religious issues that the hasidic masters raised in their Torah commentary and brings to the fore the living qualities of their sermons Dialogical Thought and Identity Ephraim Meir,2013-11-27 In discussion with Martin Buber Franz Rosenzweig Abraham Joshua Heschel Franz Fischer and Emmanuel Levinas Ephraim Meir outlines a novel conception of a selfhood that is grounded in dialogical thought He focuses on the shaping of identity in present day societies and offers a new view on identity around the concepts of self transcendence self difference and trans difference Subjectivity is seen as the concrete possibility of relating to an open identity which receives and hosts alterity Self difference is the crown upon the I it is the result of a dialogical life a life of passing to the other The religious I is perceived as in dialogue with secularity with its own past and with other persons It is suggested that with a dialogical approach one may discover what unites people in pluralist societies **Biblical Psychotherapy** Kalman J. Kaplan,Paul Cantz,2017-11-29 In Biblical Psychotherapy Kalman J Kaplan and Paul Cantz offer a new approach to suicide prevention based on biblical narratives that is designed to overcome the suicidogenic patterns in Greek and Roman stories implicit in modern mental health More than sixteen suicides and self mutilations emerge in the twenty six surviving tragedies of Sophocles and Euripides and countless others occurred in Greek and Roman lives In contrast only six suicides are found in the Hebrew Scriptures in addition to a number of suicide prevention narratives Kaplan and Cantz reclaim life enhancing biblical narratives as alternatives to matched suicidal stories in Greek and Roman society with regard to seven evidence based risk factors These biblical narratives are employed to treat fourteen patients fitting into the outlined Graeco Roman suicidal syndromes and to provide an in depth positive psychology aimed at promoting life rather than simply preventing suicide Spiritual Jewish Criminology Yitzhak Ben Yair,Natti Ronel,2024-07-26 This book presents the concept of Spiritual Jewish criminology It stems from the Jewish spiritual paradigm and explains criminology from this point of view in theoretical and applied perspectives This volume uses qualitative methodology and a phenomenological hermeneutic approach that enables a combination of interviews and analysis of scriptural texts Spiritual criminology topics covered from the Spiritual Jewish perspective include References to life purpose Human nature and tendencies Freedom of choice Corresponding perception of punishment and rehabilitation This volume suggests theoretical and practical implications to the field of criminology and although based on Jewish premises presents in a way that can benefit different belief systems It is ideal for professionals interested in the intersection of spirituality and criminology Cross-Cultural Computing: An Artist's Journey Naoko Tosa,2016-03-01 This exciting new book explores the relationship between cultural traditions and computers looking at how people from very different cultures and backgrounds communicate and how the use of information technologies can support and enhance these dialogues Historically we developed our understanding of other cultures through traditional means museums printed literature etc but the advent of information technologies has allowed us access to a plethora of material Tosa asks the question Can we understand other cultures using computers as media to supplement thinking and memorization Starting

with a survey of art and technology moving into the area of culture and technology the book culminates with a vision of a new world based on an understanding of these relationships allowing cultural creators and viewers the opportunity to reach a better and more profound understanding of the role information technology will play going forward *The Root Causes of Terrorism* Mahmoud Masaeli, Rico Sneller, 2017-01-06 Fifteen years after the tragic events of 9 11 bombs are still exploding and innocent people are being killed by terrorist groups in both western and Islamic societies Most of these sinisterly threatening events are motivated by religious claims or are taking place in religiously affected places Is religion the main cause of terrorism or does terrorism still arise because of leaders who brainwash and coach future terrorists so that they kill under the banner of religion The religious imagination seems to hold here an influential power in the creation of delusion to orient the bigot believers toward fulfilling their religious duty against those who are religious in a different way or are not religious at all Religion in this sense is tightly allied with political aspirations In spite of the religious justification of the act of killing enlightened religious leaders and religious minded people believe and argue that religion is a source of love and affection Therefore the sacred texts of religious tradition must be read from a humanist perspective because the ultimate message of religion is about the appreciation of the principle of humanity This is a growing attitude among many religious people today who believe that God is merciful and compassionate and never orders resentment violence and killing of innocent people In addition no true religious tradition appreciates self serving interpretations promoting violence against others If religion disregards love affection and compassion as its essence it drops into the dire vortex of ideological dogma as it is in the case for the Taliban ISIS Boko Haram and Al Shabab Therefore any interpretation that admits violence and killing would be a mere provincial reading of the religious texts agitated by purposeful intentions aimed at political goals This book investigates and addresses the root causes of terrorism from a religious studies perspective The themes analysed and discussed here mainly include a range of religious and philosophical issues such as religious violence in scriptural monotheism radical interpretations of religious texts militancy and sacrifice apocalypticism and terrorism and religious terrorism today The book brings together new approaches adopted by the authors to not only trace the causes of terrorism in various religious interpretations and realms but also reach a common definition of the main religious causes beyond diverse perspectives and advance solutions against religious inspired terrorism **The Value of the Particular: Lessons from**

The Trance of Terror Mordechai Rotenberg, 2006 How do western life oriented democracies understand the threatening suicide bombing phenomenon which Islamic culture nurtures in recent years The Trance of Terror is the first study that scrutinizes the psychological mechanisms that social systems use to create the robotic person who acts in an automatic fashion in the name of one single truth The psychological technique which Rotenberg terms hypnotic mantrism may be identified in various social processes such as praying singing and dancing But it is the ecstatic dimension claims Rotenberg that religious despots often use to inculcate fanatic behavior which may even include suicide bombing Mordechai Rotenberg is a Professor at the Hebrew University of Jerusalem where he taught psychology and religion Among his other books are *Seventy faces of Life PaRDeS* and *Psychonarration* and *The Yetzer* His book *Existence in the Secret of Tzimtzum* won the Jerusalem Award for Jewish Philosophy **A New Hasidism** Arthur Green, Ariel Evan Mayse, 2019-01-01 You are invited to enter the new old pathway of Neo Hasidism a movement that uplifts key elements of Hasidism s Jewish revival of two centuries ago to reexamine the meaning of existence see everything anew and bring the world as it is and as it can be closer together This volume brings this discussion into the twenty first century highlighting Neo Hasidic approaches to key issues of our time Eighteen contributions by leading Neo Hasidic thinkers open with the credos of Zalman Schachter Shalomi and Arthur Green Or Rose wrestles with reinterpreting the rebbes harsh teachings concerning non Jews Ebn Leader assesses the perils of trusting one s whole being to a single personality can Neo Hasidism endure as a living tradition without a rebbe Shaul Magid candidly calibrates Shlomo Carlebach how the singing rabbi transformed him and why Magid eventually walked away Other contributors engage questions such as How might women enter this hitherto gendered sphere created by and for men How can we honor and draw nourishment from other religions teachings Can the rebbes radiant wisdom guide those who struggle with self diminishment to reclaim wholeness Together these intellectually honest and spiritually robust conversations inspire us to grapple anew with Judaism s legacy and future **American Book Publishing Record** , 2004

Michael J. Lowis,2017-09-26 God has been around for a long time in fact from the very beginning but what do we actually know about him Perhaps this is a silly question because many people will regard the God of Judaism Christianity and Islam as unknowable Nevertheless this book explores the Hebrew Scriptures Old Testament to unearth just what is revealed about the nature and persona of the Deity Early chapters discuss the first signs of religious beliefs and the origins of the major religions Ten chapters are devoted to what the Scriptures reveal about God s origin attributes and activities These include miracles making laws punishing rewarding answering prayers and predicting a future Messiah A final chapter summarizes and draws conclusions The sheer number of details gleaned from the biblical texts helps the reader to see God as an entity with a personality who has attributes likes and dislikes He rejoices but also laments he has a presence he is available he hears our prayers Those who were a little unsure about the authenticity of God should have their confidence in him strengthened by the amount of information presented They can then explore this further for themselves
