**The Power of Positive Parenting** Matthew R. Sanders, Trevor G. Mazzucchelli, 2018 Safe nurturing and positive parent child interactions lay the foundations for healthy child development How children are raised in their early years and beyond affects many different aspects of their lives including brain development language social skills emotional regulation mental and physical health health risk behavior and the capacity to cope with a spectrum of major life events As such parenting is the most important potentially modifiable target of preventive intervention The Power of Positive Parenting provides an in depth description of Triple P one of the most extensively studied parenting programs in the world backed by more than 30 years of ongoing research Triple P has its origins in social learning theory and the principles of behavior cognitive and affective change and its aim is to prevent severe behavioral emotional and developmental problems in children and adolescents by enhancing the knowledge skills and confidence of parents Triple P incorporates five levels of intervention on a tiered continuum of increasing strength for parents of children from birth to age 16 The programs comprising the Triple P system are designed to create a family friendly environment that better supports parents with a range of programs tailored to their differing needs This volume draws on the editors experience of developing Triple P and chapters address every aspect

of the system as well as how it can be applied to a diverse range of child and parent problems in different age groups and cultural contexts

**Lectures on Partial Differential Equations** Vladimir I. Arnold, 2013-06-29 Choice Outstanding Title January 2006 Like all of Vladimir Arnold's books this book is full of geometric insight Arnold illustrates every principle with a figure This book aims to cover the most basic parts of the subject and confines itself largely to the Cauchy and Neumann problems for the classical linear equations of mathematical physics especially Laplace's equation and the wave equation although the heat equation and the Korteweg de Vries equation are also discussed Physical intuition is emphasized A large number of problems are sprinkled throughout the book and a full set of problems from examinations given in Moscow are included at the end Some of these problems are quite challenging What makes the book unique is Arnold's particular talent at holding a topic up for examination from a new and fresh perspective He likes to blow away the fog of generality that obscures so much mathematical writing and reveal the essentially simple intuitive ideas underlying the subject No other mathematical writer does this quite so well as Arnold

*Heth* Ron Kaplan, 2012-08-10 When star high school football player David Goldfarb first sees the beautiful Mary Martino he instantly falls in love What the Jewish pot smoking quarterback doesn't know however is that this Italian dark eyed beauty possesses an innocence like nothing he's seen before Can she survive in his carefree world of sex and drugs Will he change his ways and become the man she wants and deserves Will her Catholic father accept a Jewish boy for his daughter Will his holocaust surviving father accept a Catholic girl for his son Flash David's fourteen year old pot dealing brother sees the changes that take place in his brother's life but is unaware of the part he will eventually play and how these changes will affect him Together these circumstances will either lead to a happiness that every teenager should strive for or a tragic ending that all too often occurs
