Bibliographic Index, 2004 *Learning to Live Together* David A. Hamburg M.D., Beatrix A. Hamburg M.D., 2004-04-08 With a view to deepening our understanding of sources of hatred and prejudice this book uses a developmental and evolutionary perspective to explore and explain the process by which our beliefs are conveyed to the

youngest members of society. Discussing the psychological obstacles to peaceful relations between groups, the authors focus on the developmental processes by which we can work to diminish ethnocentrism, prejudice, and hatred which children learn from a very early age. Until now, scholarship and practice in international relations have gravely neglected crucial psychological aspects of these terrible problems and have not yet explored the educational opportunities related to them. Addressing these promising lines of inquiry and innovation, this book fosters a more humane and less violent development in childhood and adolescence. Educators, religious leaders, developmental and social psychologists will find this a valuable resource, as will a socially concerned segment of the public who are looking for practical ways to work for peace.

The book consists of nine chapters organized as follows: Bullying: An Overview; understanding bullying; forms of bullying; effects of bullying; bullying myths; signs of bullying; understanding the bully, the victim, and the bystander; Cyberbullying; new to the 2011 revised edition: A comprehensive program to prevent bullying; step-by-step guidance on building an effective program; The roles of the school administrator; The role of the teacher; The role of the paraprofessional or teacher aide; The role of the parents; Bullying: A Call to Action; Bullying Resources. The Communication of Hate Michael Waltman, John Haas, 2011. The book was awarded the 2011 NCA Franklyn S. Haiman Award for Distinguished Scholarship in Freedom of Expression. This book sets out to explore how hate comes alive in language and actions by examining the nature and persuasive functions of hate in American society. Hate speech may be used for many purposes and have different intended consequences. It may be directed to intimidate an out-group or to influence the behavior of in-group members. But how does this language function? What does it accomplish? The answers to these questions are addressed by an examination of the communicative messages produced by those with hateful minds. Beginning with an examination of the organized hate movement, the book provides a critique of racist discourse used to recruit and socialize new members, construct enemies, promote valued identities, and encourage ethnoviolence. The book also examines the strategic manipulation of hatred in our everyday lives by politicians, political operatives, and media personalities. Providing a comprehensive overview of hate speech, the book ends by describing the desirable features of an anti-hate discourse that promotes respect for social differences.
