Havana The City The People:

Havana Rick Graetz, 1991 **The Occupation of Havana** Elena A. Schneider, 2018-10-29 In 1762 British forces mobilized more than 230 ships and 26 000 soldiers sailors and enslaved Africans to attack Havana one of the wealthiest and most populous ports in the Americas They met fierce resistance Spanish soldiers and local militias in Cuba along with enslaved Africans who were promised freedom held off the enemy for six suspenseful weeks In the end the British prevailed but more lives were lost in the invasion and subsequent eleven month British occupation of Havana than during the entire Seven Years War in North America The Occupation of Havana offers a nuanced and poignantly human account of the British capture and Spanish recovery of this coveted Caribbean city The book explores both the interconnected histories of the British and Spanish empires and the crucial role played by free people of color and the enslaved in the creation and defense of Havana Tragically these men and women would watch their promise of freedom and greater rights vanish in the face of massive slave importation and increased sugar production upon Cuba s return to Spanish rule By linking imperial negotiations with events in Cuba and their consequences Elena Schneider sheds new light on the relationship between slavery and empire at the dawn of the Age of Revolutions **Camera Constructs** Mr Andrew Higgott, Mr Timothy Wray, 2014-09-28 Camera Constructs reflects critically on the varied interactions of the different practices by which photographers artists architects theorists and historians engage with the relationship of the camera to architecture the city and the evolution of Modernism Including twenty three essays by a wide range of historians and theorists this book provides a rich and highly original analysis of the relationship of photography to built form from the early modern period to the present day **Tree of Liberty** Doris Lorraine Garraway, 2008 On January 1 1804 Jean Jacques Dessalines declared the independence of Haiti thus bringing to an end the only successful slave revolution in history and transforming the colony of Saint Domingue into the second independent state in the Western Hemisphere The historical significance of the Haitian Revolution has been addressed by numerous scholars but the importance of the Revolution as a cultural and political phenomenon has only begun to be explored Although the path breaking work of Michel Rolph Trouillot and Sibylle Fischer has illustrated the profound silences surrounding the Haitian Revolution in Western historiography and in Caribbean cultural production in the aftermath of the Revolution contributors to this volume argue that while suppressed and disavowed in some quarters the Haitian Revolution nonetheless had an enduring cultural and political impact particularly on peoples and communities that have been marginalized in the historical record and absent from the discourses of Western historiography Tree of Liberty interrogates the literary historical and political discourses that the Revolution produced and inspired across time and space and across national and linguistic boundaries In so doing it seeks to initiate a far reaching discussion of the Revolution as a cultural and political phenomenon that shaped ideas about the Enlightenment freedom postcolonialism and race in the modern Atlantic world Contributors A James Arnold University of Virginia Chris Bongie Queen s University Paul

Moore,1900 Breaking the Chains, Forging the Nation Aisha Finch,Fannie Rushing,2019-04-10 Breaking the Chains Forging the Nation offers a new perspective on black political life in Cuba by analyzing the time between two hallmark Cuban events the Aponte Rebellion of 1812 and the Race War of 1912 In so doing this anthology provides fresh insight into the ways in which Cubans practiced and understood black freedom and resistance from the aftermath of the Haitian Revolution to the early years of the Cuban republic Bringing together an impressive range of scholars from the field of Cuban studies the volume examines for the first time the continuities between disparate forms of political struggle and racial organizing during the early years of the nineteenth century and traces them into the early decades of the twentieth Matt Childs Manuel Barcia Gloria Garc a and Reynaldo Ort z Minayo explore the transformation of Cuba s nineteenth century sugar regime and the ways in which African descended people responded to these new realities while Barbara Danzie Le n and Matthew Pettway examine the intellectual and artistic work that captured the politics of this period Aisha Finch Ada Ferrer Michele Reid Vazquez Jacqueline Grant and Joseph Dorsey consider new ways to think about the categories of resistance and agency the gendered investments of traditional resistance histories and the continuities of struggle that erupted over the course of the mid nineteenth century In the final section of the book Fannie Rushing Aline Helg Melina Pappademos and Takkara Brunson delve into Cuba s early nationhood and its fraught racial history Isabel Hern ndez Campos and W F Santiago Valles conclude the book with reflections on the process of history and commemoration in Cuba Together the contributors rethink the ways in which African descended Cubans battled racial violence created pathways to citizenship and humanity and exercised claims on the nation state Utilizing rare primary documents on the Afro Cuban communities in the nineteenth and twentieth centuries Breaking the Chains Forging the Nation explores how black resistance to exploitative systems played a central role in the making of the Cuban nation **Encountering the City** Jonathan Darling,Helen F. Wilson,2016-07-15 Encountering the City provides a new and sustained engagement with the concept of encounter Drawing on cutting edge theoretical work classic writings on the city and rich empirical examples this volume demonstrates why encounters are significant to urban studies politically philosophically and analytically Bringing together a range of interests from urban multicultural systems of economic regulation security and suspicion to more than human geographies soundscapes and spiritual experience Encountering the City argues for a more nuanced understanding of how the concept of encounter is used This interdisciplinary collection thus provides an insight into how scholars writing on and in the city

mobilise theorise and challenge the concept of encounter through empirical cases taken from Africa Asia Australia Europe North America and South America These cases go beyond conventional accounts of urban conviviality to demonstrate how encounters destabilise rework and produce difference fold together complex temporalities materialise power and transform political relations In doing so the collection retains a critical eye on the forms of regulation containment and inequality that shape the taking place of urban encounter Encountering the City is a valuable resource for students and researchers alike
