The Real Food Revolution Tim Ryan, 2015-10-13 We Americans love our food It's part of what has made this nation great Our fertile farmlands and the abundance and variety of our agricultural output are the envy of the world For most of our history we lived close to the land food was accessed locally and we processed it in our own kitchens But as our population and economy has boomed in the last century and we concentrated in cities we industrialized our food system with food coming far from home and processed multiple times As foods rich in natural taste declined we relied on high amounts of added sugar fat and salt to entice our palates And it has taken a toll our soil is polluted our practices are unsustainable and our health problems including everything from allergy related disease to obesity are on the rise This has all contributed to historic levels of heart disease stroke diabetes and other causes of preventable death The good news is that people are starting to find solutions They're voting with their pocketbooks for a new kind of food system family farm 21st century style Suburban and urban moms and dads want to know what's in their food and where it comes from No more snack packs Ding Dongs and soda for lunch This revolution is not only in how people eat but also in how they grow distribute shop for and prepare food And the food is better tasting better looking and better for you The Real Food Revolution by Congressman Tim Ryan is a manifesto for this new food movement In it readers will find information on The history and current state of our food systems Myriad negative impacts of our present food practices on our health and our planet Pros and cons of the current farm bill and what changes could help restore our nation What's happening both at the national and local levels How people can get involved with actionable steps at the end of each chapter This is a non partisan good news message that will inform inspire and help readers around the country get involved The era of the Twinkie and the hot dog stuffed crust pizza has been fun but now it's time for a change
