**The Heart of Islam** Seyyed Hossein Nasr, 2009-03-17 As the specter of religious extremism has become a fact of life today the temptation is great to allow the evil actions and perspectives of a minority to represent an entire tradition In the case of Islam there has been much recent confusion in the Western world centered on distorted portrayals of its core values Born of ignorance such confusion feeds the very problem at hand In *The Heart of Islam* one of the great intellectual figures in Islamic history offers a timely presentation of the core spiritual and social values of Islam peace compassion social justice and respect for the other Seizing this unique moment in history to reflect on the essence of his tradition Seyyed Hossein Nasr seeks to open a spiritual and intellectual space for mutual understanding Exploring Islamic values in scripture traditional sources and history he also shows their clear counterparts in the Jewish and Christian traditions revealing the common ground of the Abrahamic faiths Nasr challenges members of the world's civilizations to stop demonizing others while identifying themselves with pure goodness and to turn instead to a deeper understanding of those shared values that can solve the acute problems facing humanity today Muslims must ask themselves what went wrong within their own societies he writes but the West must also pose the same question about itself whether we are Muslims Jews Christians or even secularists whether we live in the Islamic world or in the West we are in need of meaning in our lives of ethical norms to guide our actions of a vision that would allow us to live at peace with each other and with the rest of God's creation Such help he believes lies at the heart of every religion and can lead the followers of the Abrahamic religions Judaism Christianity and Islam as well as other religious and spiritual traditions to a new future of mutual respect and common global purpose *The Heart of Islam* is a landmark presentation of enduring value that offers hope to humanity and a compelling portrait of the beauty and appeal of the faith of 1.2 billion people

*Walāyah in the Fāṭimid Ismā'īlī Tradition* Elizabeth R. Alexandrin,2017-07-19 In this original study Elizabeth R Alexandrin examines the complex relationships that can be inscribed between medieval Ism l thought as an intellectual tradition with a devotional practice of reliance on the im m and as a politico esoteric system that redefined governance during the F imid caliphate in the eleventh century Alexandrin s work is a departure from recent Western scholarship that focuses on similarities among early Islamic traditions She argues instead that under the guidance of the F imid Ism l chief missionary al Mu ayyad f al D n al Sh r z d 1078 CE the concept of wal yah divine guidance became closely associated with religio political authority on the one hand and the perfection of the individual human being on the other By signaling and affirming how the F imid caliph im ms were the heirs of wal yah and by proposing new definitions of the seal of God s friends kh tim al awliy All h al Mu ayyad broadened the contexts of making esoteric knowledge public and shifted the apocalyptic frameworks of Islamic messianism      *Islamic Liberation Theology* Hamid Dabashi,2008-05-14 This book is a radical piece of counter intuitive rethinking of the clash of civilizations theory and global politics In this richly detailed criticism of contemporary politics Hamid Dabashi argues that after 9 11 we have not seen a new phase in a long running confrontation between Islam and the West but that such categories have in fact collapsed and exhausted themselves The West is no longer a unified actor and Islam is ideologically depleted in its confrontation with colonialism Rather we are seeing the emergence of the US as a lone superpower and a confrontation between a form of imperial globalized capital and the rising need for a new Islamic theodicy The combination of political salience and theoretical force makes Islamic Liberation Theology a cornerstone of a whole new generation of thinking about political Islamism and a compelling read for anyone interested in contemporary Islam current affairs and US foreign policy Dabashi drives his well supported and thoroughly documented points steadily forward in an earnest and highly readable style      **Divine Purpose** Ali Ucar,2024-12-24 Title Divine Purpose A Journey into the Heart of Islamic Philosophy and Spirituality Author Ali Ucar Discover Your True Purpose and Embark on a Journey of Spiritual Awakening What does it mean to live a life of divine purpose How can we connect our actions thoughts and intentions to the greater will of our Creator In Divine Purpose A Journey into the Heart of Islamic Philosophy and Spirituality Ali Ucar guides readers through an inspiring exploration of life s ultimate questions drawing on the timeless wisdom of Islamic philosophy theology and

**Reason, Spirit and the Sacral in the New Enlightenment** Anna-Teresa Tymieniecka, 2010-11-18 Rationality in its various expressions and innumerable applications sustains understanding and our sense of reality It is traditionally differentiated according to its sources in the soul in consciousness in reason in experience and in elevation Such a functional approach however leaves us searching for the common foundation harmonizing these rationalities The perennial quest to resolve the aporias of rationality is finding in contemporary science's focus on origins on the generative roots of reality tantalizing hints as to how this may be accomplished This project is enhanced by the wave of recent phenomenology onto-poiesis of life which reveals the workings of the logos at the root of beingness and all rationality whereby we gaze upon the prospect of a New Enlightenment In the rays of this vision the revival of the intuitions of classical Islamic metaphysics particularly intuition of the continuity of beingness in the gradations of life receive fresh confirmation **Diversity and Unity in Islamic Civilization** Mirza Iqbal Ashraf, 2017-03-17 An erudite and invaluable contribution to the philosophical religious political cultural and historical dynamism of the Islamic civilization ZARREEN AKBAR Scholar of Islamic Literature In this exceptionally impressive and brilliant book Mirza Ashraf rationally discusses and analyses the diversity and unity in Islamic civilization Addressing many contemporary issues of concern including terrorism he proves philosophically that Islam united different tribes races and nations within its civilization while keeping their socio-cultural diversity intact In this process of cultural amalgamation Islam no more remained exclusively an Arab phenomenon It became a multi-cultural

transnational socio political and economic civilization The author of this illuminating book has shown an intrinsic picture of Islam which I believe could not be more timely Dr MOJAHID MIRZA author of Quagmire of Being and an Independent Journalist and Broadcaster stationed at Moscow Beginning with its founder Prophet Muhammad Islamic civilization as a world religious cultural and political force with rich varied and abundant literature Mirza Ashraf has presented an insightful analysis of this civilization It progressed because of its universal human values with efforts to initiate progress in all fields of learning This book is a timely contribution to the present tension between Western and Islamic civilization It explicates that the strain of recent cataclysm is focused on Islam as a religion while its political and cultural aspects which are the core of its civilization are being ignored Dr MUHAMMAD HAFEEZ author of Human Character and Behavior The Mission and Destiny of Humankind and Who are the Believers *History of Islamic Philosophy* Seyyed Hossein Nasr, Oliver Leaman, 2013-03-07 Emphasising the living nature and rich diversity of the subject this volume examines the main thinkers and schools of thought discusses the key concepts of Islamic philosophy and covers a vast geographical area PROGRESSION OF KNOWLEDGE IN WESTERN CIVILIZATION Mirza Iqbal Ashraf, 2023-09-18 The word civilization which is a relatively recent application from eighteenth century when came into currency is generally invoked more with a rhetorical flourish than argued in philosophical perspective But history of knowledge considers its true object is the study of human mind to know what his mind has believed thought and felt in diverse periods of its progression in the history of a civilization Mirza Iqbal Ashraf as a research scholar of Islamic and Western philosophies identifying the Four Explosions of Knowledge from ancient to modern time of history of knowledge offers the readers in Progression of Knowledge in the Western Civilization uniquely within philosophical perspective that the Western world is a civilization of knowledge This also means whereas it is important to understand today s world so that we can deal with our contemporary period s civilizational challenges it will be incomplete if we do not assess that modernity is born from the progress made by the knowledge of the past thinkers But knowledge does not arrive fully formed it requires many minds specifically those minds which are free from the civilization s religious cultural and geophysical trappings In the Progression of Knowledge in Western Civilization Ashraf has expounded that even in modern time no knowledge is complete without visiting the knowledge of the past especially of the great thinkers of Classical Greek period the scholars at the House of Wisdom in Baghdad and the famous centers of knowledge at Cairo and Cordova of Arab Spain In this book the author has discussed when some other regions of the world might be familiar with philosophy and science in one way or another why such a treasure of knowledge emerged particularly in Greece that became a foundation of voluminous work of literature in almost every field of knowledge and how it amazingly became the foundation of the history of progression of knowledge in the Western civilization which is timelessly flourishing until today *The Indian Way* John M Koller, 2016-05-23 There is no other book that explains both the philosophies and religions of India in their full historical development The Indian Way is accessible to beginning students and does justice to the Indian tradition s

richness of religious and philosophical thought Clear and powerful explanations of yajna and dharma and appealing intimate descriptions of Krishna Kali and Shiva allow students to read some of the great Indian texts for themselves History of Islamic Philosophy Oliver Leaman, Seyyed Hossein Nasr, 2020-08-17 Islamic philosophy has often been treated as being largely of historical interest belonging to the history of ideas rather than to philosophical study This volume successfully overturns that view Emphasizing the living nature and rich diversity of the subject it examines the main thinkers and schools of thought discusses the key concepts of Islamic philosophy and covers a vast geographical area This indispensable reference tool includes a comprehensive bibliography and an extensive index Ibn al-'Arabī's Barzakh Salman H. Bashier, 2012-02-01 This book explores how Ibn al Arabi 1165 1240 used the concept of barzakh the Limit to deal with the philosophical problem of the relationship between God and the world a major concept disputed in ancient and medieval Islamic thought The term barzakh indicates the activity or actor that differentiates between things and that paradoxically then provides the context of their unity Author Salman H Bashier looks at early thinkers and shows how the synthetic solutions they developed provided the groundwork for Ibn al Arabi s unique concept of barzakh Bashier discusses Ibn al Arabi s development of the concept of barzakh ontologically through the notion of the Third Thing and epistemologically through the notion of the Perfect Man and compares Ibn al Arabi s vision with Plato s **Islamic Philosophy of Religion** J. I. Laliwala, 2005 **The Qur'an: A Philosophical Guide** Oliver Leaman, 2016-06-30 Assuming no prior knowledge The Qur'an A Philosophical Guide is an introduction to the Qur'an from a philosophical point of view Oliver Leaman s guide begins by familiarizing the readers with the core theories and controversies surrounding the text Covering key theoretical approaches and focusing on its style and language Leaman introduces the Qur'an as an aesthetic object and as an organization The book discusses the influence of the Qur'an on culture and covers its numerous interpreters from the modernizers and popularizers to the radicals He presents a close reading of the Qur'an carefully and clearly presenting a variety of philosophical interpretation verse by verse Explaining what the philosopher is arguing relating the argument to a particular verse and providing the reader with the means to be part of the discussion this section includes Translated extracts from the text A range of national backgrounds and different cultural and historic contexts spanning the classical and modern period the Middle East Europe and North America Philosophical interpretations ranging from the most Islamophobe to the extreme apologist A variety of schools of thought and philosophers such as Peripatetic Illuminationist and Sufi Written with clarity and authority and showing the distinct ways a variety of thinkers have sought to understand the text The Qur'an A Philosophical Guide introduces readers to the value of interpreting the Qur'an philosophically *Maintaining the Sacred Center* Rusmir Mahmutcehajic, 2011-09-16 In his fascinating new book Bosnian academic and former statesman Rusmir Mahmutcehajic explores how men and women traditionally ordered their communities architecture and habits of life to reflect the divine order and how this order is coming under attack in an increasingly secularized modern world In reflecting on how his own hometown of Stolac Bosnia has been

destroyed and then rebuilt in the aftermath of the tragic Bosnia war he offers explanations as to how different religious communities can live peacefully together in the future
