## **Heartbeat The Politics Of Health Research:**

Heartbeat Natalie Davis Spingarn,1976      *The Politics of Breast Cancer* Maureen Hogan Casamayou,2001-03-26  
Between 1990 and 1993 breast cancer activism became a significant political movement The issue began to receive extensive media attention and federal funding for breast cancer research jumped dramatically Describing the origins of this surge in interest Maureen Hogan Casamayou attributes it to the emergence of politically potent activism among breast cancer survivors and their supporters Exploring the creation and development of the National Breast Cancer Coalition NBCC she shows how many of its key leaders were mobilized by their own traumatic experiences with the disease and its treatments Casamayou details the NBCC s meteoric rise and impressive lobbying efforts explaining how in contrast to grassroots movements founded by dedicated individuals the coalition grew from the simultaneous efforts of a network of women who invested their time energy money and professional skills in the fight for increased funding for breast cancer research This multiple leadership or collective entrepreneurialism says Casamayou was crucial to the NBCC s success framing the issue in the minds of the public and policymakers alike      The Implications of Cost-effectiveness Analysis of Medical Technology,1980      **AIDS and Contemporary History** Virginia Berridge,Philip Strong,2002-08-22 A collection of essays on the pre history of the impact of AIDS and its subsequent history      *The Changing Economics of Medical Technology* Institute of Medicine,Committee on Technological Innovation in Medicine,1991-02-01 Americans praise medical technology for saving lives and improving health Yet new technology is often cited as a key factor in skyrocketing medical costs This volume second in the Medical Innovation at the Crossroads series examines how economic incentives for innovation are changing and what that means for the future of health care Up to date with a wide variety of examples and case studies this book explores how payment patent and regulatory policies as well as the involvement of numerous government agencies affect the introduction and use of new pharmaceuticals medical devices and surgical procedures The volume also includes detailed comparisons of policies and patterns of technological innovation in Western Europe and Japan This fact filled and practical book will be of interest to economists policymakers health administrators health care practitioners and the concerned public      Worse Than the Disease Diana Barbara Dutton,1992-05-29 The distance between medical and public priorities is exposed in four case studies that reveal the human choices governing scientific innnovation and explore the political economic and social factors influencing those choices      After the Cure Martin A. Levin,Mary Bryna Sanger,2000 Envisioning a day in which there actually is an effective AIDS vaccine Levin political science Brandeis U and Sanger urban policy analysis New School U foresee significant distribution economic and political impediments to the successful inoculation of the United States population They review a number of large scale public health initiatives and draw conclusions about how to best implement the management of an AIDS cure Annotation copyrighted by Book News Inc Portland OR      **Common Enemies** Rachel Kahn Best,2019 For over a hundred years millions of Americans have joined together to fight a common enemy by

campaigning against diseases In Common Enemies Rachel Kahn Best asks why disease campaigns have dominated a century of American philanthropy and health policy and how the fixation on diseases shapes efforts to improve lives Combining quantitative and qualitative analyses in an unprecedented history of disease politics Best shows that to achieve consensus disease campaigns tend to neglect stigmatized diseases and avoid controversial goals But despite their limitations disease campaigns do not crowd out efforts to solve other problems Instead they teach Americans to give and volunteer and build up public health infrastructure bringing us together to solve problems and improve our lives **Social Science and**

time National Magazine Award winner Mimi Swartz shows just how complex and difficult it can be to replicate one of nature's greatest creations Part investigative journalism part medical mystery Ticker is a dazzling story of modern innovation recounting fifty years of false starts abysmal failures and miraculous triumphs as experienced by one of the world's foremost heart surgeons O H Bud Frazier who has given his life to saving the unsavable His journey takes him from a small town in west Texas to one of the country's most prestigious medical institutions The Texas Heart Institute from the halls of Congress to the animal laboratories where calves are fitted with new heart designs The roadblocks to success medical setbacks technological shortcomings government regulations are immense Still Bud and his associates persist finding inspiration in the unlikelyst of places A field beside the Nile irrigated by an Archimedes screw A hardware store in Brisbane Australia A seedy bar on the wrong side of Houston Until post WWII heart surgery did not exist Ticker provides a riveting history of the pioneers who gave their all to the courageous process of cutting into the only organ humans cannot live without Heart surgeons Michael DeBakey and Denton Cooley whose feud dominated the dramatic beginnings of heart surgery Christian Barnard who changed the world overnight by performing the first heart transplant Inventor Robert Jarvik whose artificial heart made patient Barney Clark a worldwide symbol of both the brilliant promise of technology and the devastating evils of experimentation run amuck Rich in supporting players Ticker introduces us to Bud's brilliant colleagues in his quixotic quest to develop an artificial heart Billy Cohn the heart surgeon and inventor who devotes his spare time to the pursuit of magic and music Daniel Timms the Brisbane biomedical engineer whose design of a lightweight pulseless heart with but a single moving part offers a new way forward And as government money dries up the unlikelyst of backers Houston's furniture king Mattress Mack In a sweeping narrative of one man's obsession Swartz raises some of the hardest questions of the human condition What are the tradeoffs of medical progress What is the cost in suffering and resources of offering patients a few more months or years of life Must science do harm to do good Ticker takes us on an unforgettable journey into the power and

mystery of the human heart     Ethics from a Theocentric Perspective, Volume 1 James M. Gustafson, 1984 Ethics from a Theocentric Perspective will surprise some shock others and unleash a flood of speculation about what has happened to James Gustafson The answer quite simply is nothing has happened to Gustafson except that he has now turned his attention to developing his constructive theological position and we should all be very glad In this the first of two volumes Gustafson displays his colors as a constructive theologian and they are indeed brilliant and splendid Though Gustafson is a theologian who works in the Christian tradition he reminds us that the God Christians worship is not merely the Christian God For Gustafson the kind of God who is the object of the theologians s reflection eludes or surpasses the inevitably confessional activity of Christian theological reflection Thus Gustafson the constructive theologian is also Gustafson the revisionist theologian who takes as his task nothing less than challenging the anthropocentrism that he alleges characterizes mainstream Western Christian theology Stanley Hauerwas *Journal of Religion*     *Bioethics Reporter* ,1985     **Policy Studies Review** ,1985 Some vols include special issues     **Monthly Catalog of United States Government Publications** ,1965     Experimental Political Science and the Study of Causality Rebecca B. Morton, Kenneth C.
