Hate Crimes The Rising Tide Of Bigotry And Bloodshed:

Hate Crimes Jack Levin, Jack MacDevitt, 2013-11-09 **Hate Crimes : Criminal Law and Identity Politics** New York University Center for Research in Crime and Justice James B. Jacobs Director, New York University Center for Research in Crime and Justice Kimberly Potter Director, 1998-03-28 In the early 1980s a new category of crime appeared in the criminal law lexicon In response to concerted advocacy group lobbying Congress and many state legislatures passed a wave of hate crime laws requiring the collection of statistics on and enhancing the punishment for crimes motivated by certain prejudices This book places the evolution of the hate crime concept in socio legal perspective James B Jacobs and Kimberly Potter adopt a skeptical if not critical stance maintaining that legal definitions of hate crime are riddled with ambiguity and subjectivity No matter how hate crime is defined and despite an apparent media consensus to the contrary the authors find no evidence to support the claim that the United States is experiencing a hate crime epidemic instead they cast doubt on whether the number of hate crimes is even increasing The authors further assert that while the federal effort to establish a reliable hate crime accounting system has failed data collected for this purpose have led to widespread misinterpretation of the state of intergroup relations in this country The book contends that hate crime as a socio legal category represents the elaboration of an identity politics now manifesting itself in many areas of the law But the attempt to apply the anti discrimination paradigm to criminal law generates problems and anomalies For one thing members of minority groups are frequently hate crime perpetrators Moreover the underlying conduct prohibited by hate crime law is already subject to criminal punishment Jacobs and Potter question whether hate crimes are worse or more serious than similar crimes attributable to other anti social motivations They also argue that the effort to single out hate crime for greater punishment is in effect an effort to punish some offenders more seriously simply because of their beliefs opinions or values thus implicating the First Amendment Advancing a provocative argument in clear and persuasive terms Jacobs and Potter show how the recriminalization of hate crime has little if any value with respect to law enforcement or criminal justice Indeed enforcement of such laws may exacerbate intergroup tensions rather than eradicate prejudice Encyclopedia of Violence, Peace, and Conflict ,2008-09-05 The 2nd edition of Encyclopedia of Violence Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life Building on the highly regarded 1st edition 1999 and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change Covering topics as diverse as Arms Control Peace Movements Child Abuse Folklore Terrorism and Political Assassinations the Encyclopedia comprehensively addresses an extensive information area in 225 multi disciplinary cross referenced and authoritatively authored articles In his Preface to the 1st edition Editor in Chief Lester Kurtz wrote The problem of violence poses such a

monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately. We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully. Instead we have increased the lethality of our combat through revolutions in weapons technology and military training. The *Encyclopedia of Violence, Peace and Conflict* is designed to help us to take stock of our knowledge concerning these crucial phenomena. Ten years on, the need for an authoritative and cross-disciplinary approach to the great issues of violence and peace seems greater than ever. More than 200 authoritative multidisciplinary articles in a 3-volume set. Many brand new articles alongside revised and updated content from the First Edition. Article outline and glossary of key terms at the beginning of each article. Entries arranged alphabetically for easy access. Articles written by more than 200 eminent contributors from around the world.

Proof, Evidence and Hate Crime Tshepo Bogosi Mosaka, 2025-07-18. Proof is the property of a disputed fact being established inferentially from an extant fact. This book explicates the structural components of this phenomenon in the context of hate crimes across various jurisdictions around the world. It departs from the orthodox conception of evidence and proof as being a general value-neutral or non-normative and epistemic subject and offers a relativistic conception of this area of law. The core argument is that proof is both semantically and methodologically determined by three conditions of materiality, process and probativity. This argument is then justified by the context-specific application of this relativistic theory of proof to hate crimes. This theoretical application of proof is sustained throughout the book using multiple examples and illustrations of hate crimes around the world. The discussion, both at the level of proof and hate crimes while focusing on the grounds of race, religion and ethnicity specifically, is framed in jurisprudential, cross-jurisdictional and interdisciplinary terms. The book will be of interest to academics and researchers working in the areas of criminal law, legal philosophy and procedural law.

The Sage International Encyclopedia of Politics and Gender Lia K. Roberts, 2025-09-08. This four-volume encyclopedia set is organized to allow the reader to explore gender and politics from an updated interdisciplinary, intersectional and global perspective.
