Hate Speech on Campus Milton Heumann, Thomas W. Church, David P. Redlawsk, 1997 A cogent objective and in depth exploration of the legal political and social complexities of the decision to ban hate speech **Campus Hate Speech on Trial** Timothy C. Shiell, 2009 Ban it the initial arguments for campus speech codes Wayne Dick's plea the critics fight back See you in court the campus hate speech cases Hostile environment takes a front seat The attack on hostile environment And the verdict is The debate 1998 2008 Unity and Diversity in America Frances Scott, 1999 This is the 95th issue of the US Air Force Academy Libraries Special Bibliographic Series Created by Ms Frances K Scott Political Sciences Bibliographer and Reference Librarian this issue of the Series was developed to support the 42nd annual Academy Assembly to be held 15 18 February 2000 The Assembly sponsored by the Department of Political Science brings more than 150 delegates from more than 100 colleges and universities to discuss and to debate a contemporary issue This year's theme is Unity and Diversity in America Tradition and Change in the 20th Century **Unity and Diversity in America** Frances K. Scott, 1999 Special Bibliography Series United States Air Force Academy. Library, 1999 *Being White, Being Good* Barbara Applebaum, 2010-03-18 Contemporary scholars who study race and racism have emphasized that white complicity plays a role in perpetuating systemic racial injustice *Being White Being Good* seeks to explain what scholars mean by white complicity to explore the ethical and epistemological assumptions that white complicity entails and to offer recommendations for how white complicity can be taught The book highlights how well intentioned white people who might even consider themselves as paragons of antiracism might be unwittingly sustaining an unjust system that they say they want to dismantle What could it mean for white people to be good when they can reproduce and maintain racist system even when and especially when they believe themselves to be good In order to answer this question Barbara Applebaum advocates a shift in our understanding of the subject of language and of moral responsibility Based on these shifts a new notion of moral responsibility is articulated that is not focused on guilt and that can help white students understand and acknowledge their white complicity *Being White Being Good* introduces an approach to social justice pedagogy called white complicity pedagogy The practical and pedagogical implications of this approach are fleshed out by emphasizing the role of uncertainty vulnerability and vigilance White students who acknowledge their complicity have an increased potential to develop alliance identities and to engage in genuine cross racial dialogue White complicity pedagogy promises to facilitate the type of listening on the part of white students so that they come open and willing to learn and not just to say no Applebaum also conjectures that systemically marginalized students would be more likely and willing to invest energy and time and be more willing to engage with the systemically privileged when the latter acknowledge rather than deny their complicity It is a central claim of the book that acknowledging complicity encourages a willingness to listen to rat **Interests and Opportunities** Steve Lamos, 2011-09-30 In the late 1960s colleges and universities became deeply embroiled in issues of

racial equality To combat this hundreds of new programs were introduced to address the needs of high risk minority and low income students In the years since university policies have flip flopped between calls to address minority needs and arguments to maintain Standard English Today anti affirmative action and anti access sentiments have put many of these high risk programs at risk In Interests and Opportunities Steve Lamos chronicles debates over high risk writing programs on the national level and locally at the University of Illinois at Urbana Champaign Using critical race theorist Derrick Bell s concept of interest convergence Lamos shows that these programs were promoted or derailed according to how and when they fit the interests of underrepresented minorities and mainstream whites administrators and academics He relates struggles over curriculum pedagogy and budget and views their impact on policy changes and course offerings Lamos finds that during periods of convergence disciplinary and institutional changes do occur albeit to suit mainstream standards In divergent times changes are thwarted or undone often using the same standards To Lamos understanding the past dynamics of convergence and divergence is key to formulating new strategies of local action and story changing that can preserve and expand race consciousness and high risk writing instruction even in adverse political climates Understanding the
