

Health In The Headlines The Stories Behind The Stories

William Wray Carney

Health In The Headlines The Stories Behind The Stories:

In the News, 2nd edition William Wray Carney, 2012-07-02 Are you or your organization going to be in the news Do you want to be in the media spotlight and do you know how to deal with it In the News provides an introduction to media relations in Canada from a practical and philosophical approach Grounded in the latest research on how to work with media it explains current media practices and demonstrates how to take a proactive planned approach to dealing with media First published in 2002 to wide acclaim from media and academia alike the second edition is revised and updated containing two new chapters that outline emerging trends in media relations as well as connecting larger issues in media to its role in modern society **In the News, 3rd edition** William Wray Carney, Colin Babiuk, Mark Hunter LaVigne, 2019-04-09 Now in its third edition In the News is the standard Canadian textbook on media relations used across the country The authors provide an introduction to media relations grounded in both communications theory and hands on day to day experience Whether you need to promote your issues to the nation or reach small targeted groups this book is your step by step guide In the News is perfect for communications students media relations practitioners in the private public and voluntary sectors and anyone who wants to break a story *Health and the Media* Valentina Marinescu, Bianca Mitu, 2016-06-05 Analyzing the relationship between medicine and the media from different perspectives these new essays fill a gap in this emerging field providing new information on approaches to health communication and important reevaluations of health literacy theories The contributors discuss ideas and methodologies across a range of topics including multifaceted health communication media coverage of maternal health the rhetoric of diagnosis in autoimmune illness media representation of the sick in data driven healthcare and health news coverage in print media *NIDA Research Monograph*, 1976 *In the News* William Wray Carney, 2002-02 This book introduces the concepts surrounding media relations and explains current media and communications practices from both theoretical and practical perspectives Midwest **It Ain't Necessarily So** David Murray, Joel B. Schwartz, S. Robert Lichter, 2001 We all know the old adage You can't believe everything you read So why do we panic the minute The American Something or the Blah Blah Institute releases a new study proving that millions of Americans will die next year from inhalation of a gas none of us can even pronounce **Media Bias** Wm. David Sloan, Jenn Burleson Mackay, 2007-03-07 In this book scholars examine the many prevailing arguments about media bias from a non polemical perspective Essays cover individual forms of bias including ideology politics television photography religion abortion homosexuality gender race crime environment region military corporate ownership labor and health Each essay introduces the topic presents arguments for and against the specific bias assesses the evidence for all arguments and includes a list of suggested readings Two additional essays discuss the broader aspects of the bias debate and give a personal perspective on reporting the controversial Israeli Palestinian conflict Instructors considering this book for use in a course may request an examination copy here *Mass Media* James B. Martin, 2002 Mass media has become an integral part of the

human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes

Infectious Disease Surveillance Nkuchia M. M'ikanatha, Ruth Lynfield, Chris A. Van Beneden, Henriette de Valk, 2008-04-15 This unique book covers many major disease surveillance systems drawing on the experiences of leading experts from around the world Beginning with an overview of the newly revised International Health Regulations from the World Health Organization the book progresses to explore surveillance systems currently in practice Examples included are as far ranging as surveillance for antimicrobial resistant foodborne pathogens vaccine adverse events influenza and HIV AIDS to communicable disease surveillance during complex emergencies in Iraq and Sudan Infectious Disease Surveillance also covers the use of modern technologies to track infectious diseases including molecular epidemiologic techniques and electronic means for data collection and distribution Other chapters discuss evaluation of surveillance methods ethical considerations and legal issues The book concludes with a review of historical lessons learned from the application of surveillance in disease control for smallpox in the 1970s and for severe acute respiratory syndrome SARS in 2003 A comprehensive resource to improve the tracking of infectious diseases Offers perspectives on best practices through examples of a wide variety of surveillance systems from around the globe Acts as a starting point for design of new surveillance systems Serves as an easy reference for key information Designed for frontline public health practitioners engaged in communicable disease control epidemiologists clinical microbiologists and students of public health and epidemiology this book portrays both the conceptual framework and the practical aspects of infectious disease surveillance

Statistics Behind the Headlines A. John Bailer, Rosemary Pennington, 2022-09-28 How do you learn about what's going on in the world Did a news headline grab your attention Did a news story report on recent research What do you need to know to be a critical consumer of the news you read If you are looking to start developing your data self defense and critical news consumption skills this book is for you It reflects a long term collaboration between a statistician and a journalist to shed light on the statistics behind the stories and the stories behind the statistics The only prerequisite for enjoying this book is an interest in developing the skills and insights for better understanding news stories that incorporate quantitative information Chapters in *Statistics Behind the Headlines* kick off with a news story headline and a summary of the story itself The meat of each chapter consists of an exploration of the statistical and journalism concepts needed to understand the data analyzed and reported in the story The chapters are organized around these sections What ideas will you encounter in this chapter What is claimed Is it appropriate Who is claiming this Why is it claimed What makes this a story worth telling Is this a good measure of impact How is the claim supported What evidence is reported What is the quality strength of the evidence Does the claim

seem reasonable How does this claim fit with what is already known How much does this matter Considering the coverage Chapters close with connections to the Stats Stories podcast **Power in the Blood** William N. Elwood,1998-11 Presents the role communication plays in advancing society s and the individual s understanding of HIV AIDS with examples from around the globe It is of particular relevance to scholars in comm public health health psychology and related disciplines

Science on American Television Marcel Chotkowski,2024-05-31 As television emerged as a major cultural and economic force many imagined that the medium would enhance civic education for topics like science And indeed television soon offered a breathtaking banquet of scientific images and ideas both factual and fictional Mr Wizard performed experiments with milk bottles Viewers watched live coverage of solar eclipses and atomic bomb blasts Television cameras followed astronauts to the moon Carl Sagan through the Cosmos and Jane Goodall into the jungle Via electrons and embryos blood testing and blasting caps fictional Franksteins and chatty Nobel laureates television opened windows onto the world of science But what promised to be a wonderful way of presenting science to huge audiences turned out to be a disappointment argues historian Marcel Chotkowski LaFollette in *Science on American Television* LaFollette narrates the history of science on television from the 1940s to the turn of the twenty first century to demonstrate how disagreements between scientists and television executives inhibited the medium s potential to engage in meaningful science education In addition to examining the content of shows she also explores audience and advertiser responses the role of news in engaging the public in science and the making of scientific celebrities Lively and provocative *Science on American Television* establishes a new approach to grappling with the popularization of science in the television age when the medium s ubiquity and influence shaped how science was presented and the scientific community had increasingly less control over what appeared on the air Moral Threats and Dangerous Desires Deborah Lupton,2013-10-23 Since 1981 AIDS has had an enormous impact upon the popular imagination Few other diseases this century have been greeted with quite the same fear loathing and prejudice against those who develop it The mass media and in particular the news media have played a vital part in making sense of AIDS This volume takes an interdisciplinary perspective combining cultural studies history of medicine and contemporary social theory to examine AIDS reporting There have been three major themes dominating coverage the gay plague dominant in the early 1980s panic stricken visions of the end of the world as AIDS was said to pose a threat to everyone in the late 1980s and a growing routinising of coverage in the 1990s This book lays bare the sub textual ideologies giving meaning to AIDS news reports including anxieties about pollution and contagion deviance bodily control the moral meanings of risk the valorisation of drugs and medical science Drawing together the work of cultural and political theorists sociologists and historians who have written about medicine disease and the body as well as that of theorists in Europe and the USA who have focused their attention specifically on AIDS this book explores the wide theoretical debate about the importance of language in the social construction of illness and disease This text offers insights into the

sociocultural context in which attitudes towards people with HIV or AIDS and people's perceptions of risk from HIV infection are developed and the responses of governments to the AIDS epidemic are formulated

Handbook of Risk and Crisis Communication Robert L. Heath, H. Dan O'Hair, 2020-10-28 The Handbook of Risk and Crisis Communication explores the scope and purpose of risk and its counterpart crisis to facilitate the understanding of these issues from conceptual and strategic perspectives Recognizing that risk is a central feature of our daily lives found in relationships organizations governments the environment and a wide variety of interactions contributors to this volume explore such questions as What is likely to happen to whom and with what consequences To what extent can science and vigilance prevent or mitigate negative outcomes and What obligation do some segments of local national and global populations have to help other segments manage risks shedding light on the issues in the quest for definitive answers The Handbook offers a broad approach to the study of risk and crisis as joint concerns Chapters explore the reach of crisis and risk communication define and examine key constructs and parse the contexts of these vital areas As a whole the volume presents a comprehensive array of studies that highlight the standard principles and theories on both topics serving as the largest effort to date focused on engaging risk communication discussions in a comprehensive manner Now available in paperback the Handbook of Risk and Crisis Communication can be readily used in graduate coursework and individual research programs With perspectives from psychology sociology anthropology political science economics and communication the Handbook provides vital insights for all disciplines studying risk and is required reading for scholars and researchers investigating risk and crisis in various contexts

Reader's Guide to the History of Science Arne Hessenbruch, 2000 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company

Doing News Framing Analysis II Paul D'Angelo, 2018-05-11 This volume presents original big picture perspectives on news framing Each chapter in this volume will feature an individual or team of framing analysts who take a reflective look at their own empirical work The editors goals are to identify the influences that determine the use of different theoretical and methodological approaches and to provide interpretive guides to news framing scholars regarding what news frames are how they can be observed in news texts and how framing effects are uncovered and substantiated in cultural group and individual sites Doing News Framing Analysis II will continue the work of its predecessor by giving talented framing scholars the space to write about their work and bring readers closer to the framing research project

Fundamentals of Media Effects Jennings Bryant, Susan Thompson, Bruce W. Finklea, 2012-05-03 Mass medias potential to influence audience beliefs and behavior is a subject that has long fascinated scholars and the general public The ongoing interest and concern are reflected in the common tendency to blame the media for many of societys problems This extensively revised and updated edition cuts through popular notions of presumed effects to provide a balanced informed up to date treatment of the media effects literature The clear compelling presentation illuminated by dozens of new photographs equips readers with a fundamental understanding of the history theoretical underpinnings and current status of media effects

research knowledge that will help them navigate in a media saturated environment Several outstanding elements distinguish the Second Edition of Fundamentals of Media Effects New chapters explore the impact of computer video games the effects of the Internet and social networking sites and the way mobile communication devices have transformed the way we live An extensive new chapter on childrens educational television describes the considerable body of research that supports positive effects like language development and flexible thinking skills Framing studies are covered in a separate chapter where they are distinguished both theoretically and experimentally from agenda setting and priming Finally the authors provide overviews of classic and current research studies in an invaluable feature called Research Spotlight which enable readers to envision how theories translate into research

Global Perspectives on Journalism in Nepal Bhanu Bhakta Acharya, Shyam Sharma, 2022-04-07 With more than 1000 newspapers 1100 local radios 200 television channels 3000 online news portals and over 80 colleges providing media education and training news media and media education are vibrant fields in Nepal This book provides a comprehensive overview of Nepal s news media including empirical studies critical reviews and theoretical and philosophical analyses focusing on journalism and contemporary media practices in the country using local standpoints and global perspectives Laying foundations of academic research and discourse it explores key issues about the state of media and journalism practices of Nepal and situates them against the professional standards of global journalism and journalism education The book covers all news media including traditional newspaper radio and television and digital platforms

News in a New Century Jerry Lanson, Barbara Croll Fought, 1999-01-14 This comprehensive book provides a wealth of exercises and assignments for teaching students reporting skills combining successful tried and tested techniques with an awareness of new realities and technologies in broadcast and print The authors take the student through a writing process initiated by ideas rather than concepts of correct writing covering writing in different media including the Internet news beats sensitivity and the diverse national community law and ethics and new research skills including databases and computer assisted reporting

Broadcast News Writing, Reporting, and Producing Frank Barnas, Ted White, 2013-10-08 Broadcast News Writing Reporting and Producing presents a solid foundation for any student learning how to become a broadcast journalist in today s world of convergent journalism The broadcast industry continues to morph as newer and more advanced content platforms are hatched and developed and broadcast journalists must understand how to writer report and produce for multiple platforms simultaneously Broadcast News Writing Reporting and Producing is completely overhauled to reflect the trends of convergent journalism on every page New co author Frank Barnas brings a multi face
