Health Policy Research In South Asia Building Capacity For Reform:

Human Well-Being and Policy in South Asia Vijay Kumar Shrotryia, 2019-11-08 This book explores human well being in South Asia from a policy dimension It discusses the cultural history and diversity of the region in order to highlight major priority areas of public policy to improve people s quality of life The huge gap between economic development and human development in areas such as education health and income is a concern for policymakers researchers and other stakeholders The book helps develop a strong argument for a shift of focus of state s expenditures aimed at improving human well being and assesses public policy initiatives from the perspectives of the stakeholders such as the state the market households civil society as well as NGOs and agencies involved in this development mission As such it is of great interest to scholars in the field of quality of life and well being research and policymakers at national and international level Health Policy Research in South Asia Abdo Yazbeck, David H. Peters, 2003-01-01 South Asia is a region of contrasts with impressive technological achievements but also more than 40 percent of the world s poor These contrasts are evident in the health sector which demonstrates large variations in health nutrition and fertility outcomes Health Policy Research in South Asia showcases some of the innovative qualitative and quantitative research methodologies being used in South Asia to provide empirical guidance for health sector reform and policy development The four research areas presented are analysis of inequality expenditure analysis private sector analysis and consumer and provider perspectives Salient themes emerge from the 12 health policy research activities reviewed and emphasize the importance of strengthening local capacity and building ownership Governments can and should distribute subsidies in the health sector more efficiently and effectively The private sector which dominates service delivery in most of South Asia requires a different set of public sector policy instruments Informed consumers citizens can and should play an important role in influencing health service delivery Empirical research can and should provide policymakers with some of the tools needed to improve and monitor the performance of the sector This book will be of interest to health sector policymakers and analysts to academics and students in public health and health economics and to anyone with an interest in the impact of health policy on development *Health Providers in India* Kabir Sheikh, Asha George, 2012-09-10 This volume has articles contributed by health researchers practitioners policy advocates programme managers and a journalist and poems by renowned poet physician Gieve Patel Each presents a distinctive view of a particular group of frontline health providers based on field research or on the authors respective experiences of working with or as providers The health providers addressed in this volume include doctors working in the public and private sectors nurses public health workers counsellors traditional practitioners and homecare providers Different groups of health providers face struggles at diverse frontiers social professional and systemic In the context of reforming health systems government health workers must constantly negotiate the vagaries of changing working environments and policy vacillations For traditional and homecare providers formal health systems and structures often only reject and exclude their

contributions Medical doctors conversely face difficult challenges of introspection as they tread the line between personal gain and public service The ideas and themes that emerge in this collection not only contribute to the understanding of providers roles as actors in the health systems and societies of contemporary India but re examines preconceptions about this critical occupational group This volume advances the case for a deeper appreciation of India s complex landscape of healthcare provision and of the potential roles of frontline health providers as central figures in development **India's Public Health System** Monica Das Gupta, Manju Rani, 2004 **Transforming Health Markets in Asia and Africa** Gerald Bloom, 2013 There has been a dramatic spread of health markets in much of Asia and Africa over the past couple of decades This has substantially increased the availability of health related goods and services in all but the most remote localities but it has created problems with safety efficiency and cost This book documents the problems associated with unregulated health markets and presents innovative approaches that have emerged to address them *The World Bank Research Program* 2004 World Bank, 2005 The World Bank s research is intended to address critical issues and problems facing member governments in developing and transition economies How can the governments of the poorest countries generate enough revenue to provide the education and health services essential to reducing poverty and promoting growth and development How can poor countries attract investors to build the infrastructure their economies need How can they develop systems to bring clean water to the 2 billion people without it today How can they train teachers and bring to class the 115 million children who have not yet received any education And how can rich countries be persuaded to lower market barriers helping to reverse the decline in export prices for poor countries that has left them earning less from trade today than in the 1970s These are the types of questions that are addressed in this edition of The World Bank Research Program Abstracts from Current Studies This volume reports on research projects initiated under way or completed from July 2003 through June 2004 It covers 151 research projects on several broad development related issues including agriculture health education environment infrastructure investment climate and more The abstract for each project describes the questions addressed the analytic methods used the findings to date and policy implications [The Sociology of South Asian Women's Health](#) Sara Rizvi Jafree, 2020-08-06 This contributed volume is the first known collection of essays that brings together scholarly review critiques and primary and secondary data to assess how sociocultural factors influence health behavior in South Asian women The essays are authored by working scholars or healthcare practitioners from Bangladesh India and Pakistan In the chapters the contributors acknowledge social economic and environmental factors to recommend improved interventions and health policy for women of the region Studies on South Asian women s health have targeted clinical evidence with less attention on social and environmental factors driving health recovery and health outcomes The South Asian region more than any other part of the world is driven by traditional and cultural forces that are possibly the most significant factors determining a woman s health awareness and her rights to adopt healthy behavior or pursue health recovery Women of the

region share a common culture and political history and there are benefits to understanding their problems collectively in order to design joint improvements in health policy for women. Salient but neglected socio political areas that influence health behavior and health outcomes in women of the region are covered in the chapters including Oral Narrations of Social Rejection Suffered by South Asian Women with Irreversible Health Conditions Women's Role in Decision Making for Health Care in South Asia Poverty Health Coverage and Credit Opportunities for South Asian Women Refugee Displaced and Climate Affected Women of South Asia and Their Health Challenges The Political Sociology of South Asian Women's Health The Sociology of South Asian Women's Health is a useful resource for students researchers and academicians especially those interested in public health gender social policy and occupational management as well as healthcare practitioners administrators health and public policy makers government officers and scholars of South Asian studies

The Routledge Companion to Planning in the Global South Gautam Bhan, Smita Srinivas, Vanessa Watson, 2017-09-11 The Routledge Companion to Planning in the Global South offers an edited collection on planning in parts of the world which more often than not are unrecognised or unmarked in mainstream planning texts In doing so its intention is not to fill a gap that leaves this mainstream unquestioned but to re theorise planning from a deep understanding of place as well as a commitment to recognise the diverse modes of practice that come within it The chapters thus take the form not of generalised universal analyses and prescriptions but instead are critical and located reflections in thinking about how to plan act and intervene in highly complex city regional and national contexts Chapter authors in this Companion are not all planners or are planners of very different kinds and this diversity ensures a rich variety of insights primarily based on cases to emphasise the complexity of the world in which planning is expected to happen The book is divided into a framing Introduction followed by five sections planning and the state economy and economic actors new drivers of urban change landscapes of citizenship and planning

pedagogy This volume will be of interest to all those wanting to explore the complexities of planning practice and the need for new theories of knowledge from which to draw insight to face the challenges of the 21st century *Population Ageing in India* G. Giridhar, 2014-07-14 This study creates a holistic research base by looking at the demographics of the ageing population and reviewing existing studies Health, Economic Development and Household Poverty Sara Bennett, Lucy Gilson, Anne Mills, 2007-09-12 Accessible and edited by authors based at a top institution this book provides readers with an excellent summary in an easy to read style of this burgeoning field of research In this volume Bennett Gilson and Mills have gathered together essays written by academics and experts in the fields of health policy and economic development each underscoring the need for political commitment to meet the needs of the poor and the development of strategies to build this commitment covering evidence regarding the links between health economic development and household poverty evidence on the extent to which health care systems address the needs of the poor and the near poor innovative measures to make health care interventions widely available to the poor Current and topical this book is of great relevance to policy makers and practitioners in the field of international health and development and researchers engaged with global health and poverty as well as being ideal reading for students of international health and development The Greenwood Encyclopedia of Children's Issues Worldwide Irving Epstein, 2007-12-30 From the skyrocketing AIDS rate in Haiti to the oppressive pollution in industrial China from the violent street culture of Nigeria to the crippling poverty in Nicaragua from child trafficking in Thailand to child marriages in India this jam packed six volume set explores all these issues and more in an unprecedented look at the world's children at the dawn of the 21st century In recent years while many countries have enjoyed a higher standard of living and improved working conditions others have been torn apart by war and incapacitated by famine and are struggling to improve life for their children and their future Recent concern over the world's children has resulted in a global attempt to define what constitutes an acceptable childhood New attention has been paid not only to healthcare and secondary education but also to the right to play and increased access to technology The UN's codification of children's rights has done much to expand our understanding of what is needed for healthy growth and development of children and youth Organized by region The Greenwood Encyclopedia of Children's Issues Worldwide is the first globally focused set of this magnitude offering extensive up to date coverage of these critical issues Original chapters accessibly synthesize current data on key topics including education play and recreation child labor family health laws and legal status religious life abuse and neglect and growing up in the 21st century *Science, Public Health and the State in Modern Asia* Liping Bu, Darwin H. Stapleton, Ka-Che Yip, 2012-03-12 This book examines the encounter between western and Asian models of public health and medicine in a range of East and Southeast Asian countries over the course of the twentieth century until now It discusses the transfer of scientific knowledge of medicine and public health approaches from Europe and the United States to several Asian countries Singapore Hong Kong Indonesia Sri Lanka Japan Taiwan and China and local interactions with and

transformations of these public health models and approaches from the nineteenth century to the 1950s Taking a critical look at assumptions about the objectiveness of science the book highlights the use of scientific knowledge for political control cultural manipulation social transformation and economic needs It rigorously and systematically investigates the historical developments of public health concepts policies institutions and how these practices changed from colonial to post colonial and into the present day *Advancing the Service Sector with Evolving Technologies: Techniques and Principles* Wang, John, 2012-01-31 This book discusses the application of information systems to service creation modeling and evolution covering foundational concepts and innovations in service management service oriented computing strategic information systems and Web services Provided by publisher **Healthy Partnerships**, 2011 Since the private health sector is an important and often dominant provider of health services in Sub Saharan Africa it is the job of governments as the stewards of the health system to engage with it Increasing the contributions that the existing private health sector is making to public health is an important but often neglected element of meeting the daunting health related challenges facing African nations This Report presents newly collected data on how and how effectively each country in the Africa region is engaging the respective private health sectors and how the engagement compares across the region While the approach taken by governments varies greatly between countries there is much room for improvement in the Africa region overall to engage more effectively and room for exchange of ideas and good practices on how to do so Improved solutions on the policy regulatory side should be supported by effective organization of the private sector itself and by adjustments in donor programs that take the dynamics of the private health sector better into account *The Pursuit of Human Well-Being* Richard J. Estes, M. Joseph Sirgy, 2017-01-09 This handbook informs the reader about how much progress we the human race have made in enhancing the quality of life on this planet Many skeptics focus on how the quality of life has deteriorated over the course of human history particularly given World War II and its aftermath This handbook provides a positive perspective on the history of well being Quality of life as documented by scientists worldwide has significantly improved Nevertheless one sees more improvements in well being in some regions of the world than in others Why This handbook documents the progress of well being in the various world regions as well as the differences in those regions The broad questions that the handbook addresses include What does well being mean How do different philosophical and religious traditions interpret the concept of well being within their own context Has well being remained the same over different historical epochs and for different regions and subregions of the world In which areas of human development have we been most successful in advancing individual and collective well being In which sectors has the attainment of well being proven most difficult How does well being differ within and between different populations groups that for a variety of socially created reasons have been the most disadvantaged e g children the aged women the poor racial ethnic and sexual minorities **Contemporary Issues in Late Adulthood** Asha Banu Soletti, 2024-09-02 This book provides an in depth exploration of the challenges and

diversity inherent in the ageing process in India. It offers valuable insights into various aspects of growing old covering a spectrum of issues influenced by socioeconomic inequalities and diversities that shape the lives of older adults. Despite existing research on aging, there is often a tendency to overlook the diverse experiences within the older population; a gap this book aims to bridge. The chapters of the book are written by practitioners and academicians sharing their insights on the issue. The book adopts a multidisciplinary approach drawing on contributions from a diverse array of experts to comprehensively address the myriad issues affecting late adulthood. From mental health and nutrition to gender dynamics, income security, elder abuse, and intergenerational concerns, each topic is explored. A central theme of the book is the importance of recognizing and addressing the unique challenges faced by different groups within the elderly population. By synthesizing insights from different fields, the book offers a comprehensive examination of the challenges encountered by older adults across multiple dimensions of their lives. This interdisciplinary perspective enriches the discourse on ageing and provides practical insights for researchers, practitioners, policymakers, and anyone interested in advocating for the well-being of ageing populations.

The World Health Report 2005 World Health Organization, 2005-03-23. Each year almost 11 million children under five years of age die from largely preventable causes whilst about half a million women die in pregnancy, childbirth or soon after. This year's report focuses on maternal, newborn and child health issues as an integral part of progress towards achieving the Millennium Development Goals targets and promoting poverty reduction. It identifies exclusion as a key feature of inequity as well as a barrier to progress and sets out strategies required to ensure universal access to health care and social health insurance systems for every mother and child through a continuum that extends from pregnancy through childbirth, the neonatal period and childhood.
