Health Systems Performance Abatement Debates Methods And Empiricism:

Health Systems Performance Assessment Christopher J. L. Murray, David B. Evans, 2003-11-06 The World Health Report 2000 has generated considerable media attention controversy in some countries and debate in academic journals This volume brings together in one place the substance of many of these key debates and reports methodological advances and new empiricism reflecting the evolution of the WHO approach since the year 2000 Specifically the volume presents many differing regional and technical perspectives on key issues major new methodological developments and a quantum increase in the empirical basis for cross country performance assessment It also gives the full report of the Scientific Peer Review Group's exhaustive assessment of these new approaches Health Systems Performance Assessment, Printbegrnsninger Der kan printes kapitelvis Health system performance assessment Irene PAPANICOLAS, Dheepa RAJAN, Marina KARANIKOLOS, Agnès SOUCAT, Josep FIGUERAS MARIMONT, 2022-03-31 Ensuring a robust and resilient health system involves policy actions which need to be implemented based on the best available evidence This requires health systems to be monitored regularly to build on their strengths and to overcome any apparent shortcomings In order to assist in that process this volume a collaboration between the World Health Organization and the European Observatory on Health Systems and Policies presents a new framework to support monitoring of health system performance with a focus on detailed conceptual links between health system functions and overall system goals This HSPA framework for Universal Health Coverage thus represents a comprehensive attempt to address fundamental questions regarding regular assessment of health systems including health system boundaries component elements and outcomes In this book each of the health system function chapters outlines the purpose of the function the sub functions that enable it to carry out the key activities necessary to fulfil its purpose as well as the assessment areas and proposed indicative measures to evaluate how well a system performs The framework will thus assist policy makers in understanding possible origins or impact of poor performance on a particular health system outcome triggering more in depth analysis **Global Burden of Disease and Risk Factors** Alan D. Lopez, 2006-04-02 Strategic health planning the cornerstone of initiatives designed to achieve health improvement goals around the world requires an understanding of the comparative burden of diseases and injuries their corresponding risk factors and the likely effects of intervention options The Global Burden of Disease framework originally published in 1990 has been widely adopted as the preferred method for health accounting and has become the standard to guide the setting of health research priorities This publication sets out an updated assessment of the situation with an analysis of trends observed since 1990 and a chapter on the sensitivity of GBD estimates to various sources of uncertainty in methods and data **Health System Performance Comparison: An Agenda For Policy, Information And Research** Papanicolas, Irene, Smith, Peter, 2013-06-01 This book seeks to identify the current state of the art of health system comparison identifying data and methodological issues and exploring the current interface between evidence and practice Performance

Measurement for Health System Improvement Peter C. Smith, Elias Mossialos, Irene Papanicolas, Sheila

Leatherman, 2010-01-07 In a world where there is increasing demand for the performance of health providers to be measured there is a need for a more strategic vision of the role that performance measurement can play in securing health system improvement This volume meets this need by presenting the opportunities and challenges associated with performance measurement in a framework that is clear and easy to understand It examines the various levels at which health system performance is undertaken the technical instruments and tools available and the implications using these may have for those charged with the governance of the health system Technical material is presented in an accessible way and is illustrated with examples from all over the world Performance Measurement for Health System Improvement is an authoritative and practical guide for policy makers regulators patient groups and researchers

the reforms of primary care in Europe as well as their impacts on the broader co ordination mechanisms within European health care systems It also provides suggestions for effective strategies for future improvement in health care system reform Primary Care in the Driver s Seat is key reading for students studying health policy health economics public policy and management as well as health managers and policy makers Contributors Richard Baker University of Leicester Sven Eric Bergman Bergman and Dahlb ck AB Stockholm Sweden Wienke Boerma Netherlands Institute of Health Services Research NIVEL in Utrecht Netherlands Mats Brommels University of Helsinki and Karolinska Institute in Stockholm Sweden Michael Calnan University of Bristol Diana Delnoij Netherlands Institute of Health Services Research NIVEL in Utrecht Netherlands Anna Dixon London School of Economics and Political Science Carl Ardy Dubois University of Montreal Canada Joan Gen Badia Catalan Institute of Health in Barcelona Spain Bernhard Gibis National Association of Statutory Health Insurance Physicians KBV Berlin Germany Stefan Gre Institute of Health Care Management of the University of Duisburg Essen in Essen Germany Peter Groenewegen Netherlands Institute of Health Services Research NIVEL and Utrecht University in Utrecht Netherlands Jan Heyrman Catholic University Leuven KULeuven in Leuven Belgium Jack Hutten Ministry of Health Welfare and Sports The Hague Netherlands Michael Kidd University of Sydney Australia M rten Kvist Laitila Pyh ranta Health Centre in Laitila Finland Miranda Laurant Centre for Quality of Care Research of the Universities of Nijmegen and Maastricht in Nijmegen Netherlands Margus Lember University of Tartu in Tartu Estonia Martin Marshall University of Manchester Alison McCallum National Research and Development Centre for Welfare and Health STAKES in Helsinki Finland and Karolinska Institute in Stockholm Sweden Toomas Palu Europe and Central Asia Development Department of the World Bank in Washington DC USA Ana Rico University of Oslo Norway Ray Robinson London School of Economics and Political Science Valentin Rusovich Department of General Practice of the Belarussian Medical Academy for Continuous Medical Education BelMAPO Department of General Practice in Minsk Belarus Richard B Saltman Emory University Atlanta USA Anthony Scott University of Aberdeen Rod Sheaff Manchester University Igor Svab University of Ljubljana Slovenia Bonnie Sibbald University of Manchester Hrvoje Tiljak Andrija tampar School of Public Health Zagreb Croatia Michel Wensing Centre for Quality of Care Research of the Universities of Nijmegen and Maastricht in Nijmegen Netherlands

Health Financing in the Developing World Guy Carrin,2011 A collection of peer reviewed articles and contributions to books this overview of the finance of health insurance concentrates on developing countries The material covers various financing strategies and explains how each can or cannot help improve the transition toward universal coverage The model plans shown here are particularly useful for policy makers and technical advisers who have to decide upon health financing policies or are engaged in a debate about them and the sample forms can be adjusted to the particular economic and political context of the developing countries involved In addition there are reminders that this process varies in some countries universal coverage may take time and require a step by step approach In other developing countries a swift transition to

universal coverage may be quite feasible

Strengthening Health System Governance: Better Policies, Stronger

Performance Scott Greer, Matthias Wismar, Josep Figueras, 2015-11-16 Highly Commended in Health and Social Care in the 2017 BMA Medical Book Awards Governance is the systematic patterned way in which decisions are made and implemented The governance of a health system therefore shapes its ability to respond to the various well documented challenges that health systems face today and its capacity to cope with both everyday challenges and new policies and problems This book provides a robust framework that identifies five key aspects of governance distilled from a large body of literature that are important in explaining the ability of health systems to provide accessible high quality sustainable health These five aspects are transparency accountability participation organizational integrity and policy capacity Part 1 of this book explains the significance of this framework drawing out strategies for health policy success and lessons for more effective governance Part 2 then turns to explore eight case studies in a number of different European regions applying the framework to a range of themes including communicable diseases public private partnerships governing competitive insurance market reform the role of governance in the pharmaceutical sector and many more The book explores how Transparency accountability participation integrity and capacity are key aspects of health governance and shape decision making and implementation There is no simply good governance that can work everywhere every aspect of governance involves costs and benefits Context is crucial Governance can explain policy success and failure so it should be analysed and in some cases changed as part of policy formation and preparation Some policies simply exceed the governance capacity of their systems and should be avoided This book is designed for health policy makers and all those working or studying in the areas of public health health research or health economics

Efficiency of Health System Units in Africa Kirigia, Jose

Muthuri, 2015-03-16 Despite sending huge sums of money on health every year the African region's burden of disease is persistently high Most of the countries in the region are lagging behind in achieving the health related United Nations Millennium Development Goals The African region's dismal health situation has largely been blamed on weakness pertaining to such factors as health leadership and governance service delivery health workforce medicines vaccines and health technologies health information and health system financing that have undermined the capacity of health systems of

countries in the region to improve population health without wastage of resources Institutionalising health system efficiency monitoring as a basis for the design and implementation of appropriate policy interventions has been proposed as an effective way of curbing wastage of health system inputs

Efficiency of Health System Units in Africa A Data Envelopment Analysis is the first book of its kind on application of the data envelopment analysis technique to examine the efficiency of health system decision making units in Africa The book interlaces lecture notes with research articles and case studies to equip students and practitioners of economics operations research management science and public health with knowledge and skills for undertaking technical efficiency cost efficiency and total factor productivity analyses Health Statistics Daniel J. Friedman, Edward L. Hunter, R. Gibson Parrish, 2005 Health statistics have been an essential tool for improving the health of populations for centuries This book provides an account of the concepts and underpinnings of the subject giving a broad and detailed view of the sources and uses of the data and explores issues confronting the enterprise **The Nation's Health**, 2011 *Public Finance in China* Jiwei Lou, Shuilin Wang, 2008-01-31 Since 1980 China's economy has been the envy of the world Its annual growth rate of more than 9 percent during this period makes China today the world's fourth largest economy And this sustained growth has reduced the poverty rate from 60 percent of the population to less than 10 percent However such rapid growth has also increased inequalities in income and access to basic services and stressed natural resources The government seeks to resolve these and other issues by creating a harmonious society shifting priorities from the overriding pursuit of growth to more balanced economic and social development This volume compiles analyses and insights from high level Chinese policy makers and prominent international scholars that address the changes needed in public finance for success in the government's new endeavor It examines such key policy issues as public finance and the changing role of the state fiscal reform and revenue and expenditure assignments intergovernmental relations and fiscal transfers and financing and delivery of basic public goods such as compulsory education innovation public health and social protection And it offers concrete recommendations for immediate policy changes and for China's future reform agenda *Public Finance in China* is a must read for specialists in public finance and for those seeking an understanding of the complex and daunting challenges China is facing Health Systems in Low- and Middle-Income Countries Richard D. Smith, Kara Hanson, 2012 Outlines the key aspects issues concerning health systems of low middle income countries recognising the current global context within which these systems operate the dynamics of this context It brings together a set of renowned authors to tackle the issues that face population health health care in the twenty first century **Understanding Hospitals in Changing Health Systems** Antonio Durán, Stephen Wright, 2019-11-27 This timely book provides insight into the changing role of the hospital in the face of technological organizational innovation and ever tightening health budgets James Barlow Imperial College Business School UK This book covers various relevant aspects of the hospital in different states and contexts Underlining the importance of business models for future hospitals this publication presents models of care from a

historic and a current perspective All authors possess a deep insight into different health care systems not only as scholars but as experts working for world renowned health policy institutions such as the World Health Organization the World Bank or the European Observatory for Health Systems Siegfried Walch Management Center Innsbruck Austria For an organisation like mine representing those involved in the strategic planning of healthcare infrastructure this book provides invaluable insights into what really matters now and for the future in the complex and contentious field of hospital development Jonathan Erskine European Health Property Network Netherlands This book seeks to reframe current policy discussions on hospitals Healthcare services turn expensive economic resources people capital pharmaceuticals energy materials into care and cure Hospitals concentrate the use and the cost of these resources particularly highly trained people expensive capital and embedded technologies But other areas of health such as public health and primary care seem to attract more attention and affection at least within the health policy community How to make sense of this paradox Hospitals choose or are assigned to deliver certain parts of care packages They are organised to do this via business models These necessarily incorporate models of care the processes of dealing with patients The activity needs to be governed in the widest senses Rational decisions need to be taken about both the care and the resources to be used This book pulls these elements together to stimulate a debate How Health Care Can Be Cost-Effective and Fair Daniel M. Hausman,2023 How Health Care Can Be Cost Effective and Fair considers how healthcare can be both cost effective and ethical Daniel M Hausman defends a major role for cost effective reasoning in healthcare distribution while also recognizing its serious limitations
