A. R. Edwards,2014 During the early nineteenth century schools for the deaf appeared in the United States for the first time These schools were committed to the use of the sign language to educate deaf students Manual education made the growth of the deaf community possible for it gathered

deaf people together in sizable numbers for the first time in American history. It also fueled the emergence of Deaf culture as the schools became agents of cultural transformations. Just as the Deaf community began to be recognized as a minority culture in the 1850s, a powerful movement arose to undo it, namely oral education. Advocates of oral education, deeply influenced by the writings of public school pioneer Horace Mann, argued that deaf students should stop signing and should start speaking in the hope that the Deaf community would be abandoned and its language and culture would vanish. In this revisionist history, *Words Made Flesh* explores the educational battles of the nineteenth century from both hearing and deaf points of view. It places the growth of the Deaf community at the heart of the story of deaf education and explains how the unexpected emergence of Deafness provoked the pedagogical battles that dominated the field of deaf education in the nineteenth century and still reverberate today.

During a moment of exponential growth and change in the fields of biblical and ancient Near Eastern studies, it is an opportune time to take stock of the state of wisdom and wisdom literature with twenty-three essays honoring the consummate Weisheitslehrer Professor Choon Leong Seow, Vanderbilt Buffington Cupples Chair in Divinity and Distinguished Professor of Hebrew Bible at Vanderbilt University. This Festschrift is tightly focused around wisdom themes, and all of the essays are written by senior scholars in the field. They represent not only the great diversity of approaches in the field of wisdom and wisdom literature but also the remarkable range of interests and methods that have characterized Professor Seow's own work throughout the decades, including the theology of the wisdom literature, the social world of Ecclesiastes, the history of consequences of the book of Job, the poetry of the Psalms, and Northwest Semitic inscriptions, just to name a few.
