Pluralism: The Future of Religion Kenneth Rose,2013-03-28 Theology of religions has defaulted in the last two decades to an epicyclic inclusivism which seeks to undermine pluralism with claims that it is covertly triumphalistic and that it mirrors the logic of exclusivism With the exception of pioneers in the field such as John Hick and Paul Knitter most major figures in this theological field have retreated from pluralism and promote versions of particularism and inclusivism Pluralism The Future of Religion argues for an apophatic pluralism that is motivated by the insight that it is impossible to secure universal assent for changeable bodies of religious teachings This insight implies the non finality and consequent departicularization of all religious teachings and their inclusivistic defenses These conclusions point us inevitably toward pluralism and lead us out of the inclusivistic impasse of contemporary theology in religions **The Nineteenth Century**

,1880 **The Pilot, a journal of religion, politics, literature and art** , **Restless Souls** Leigh Eric Schmidt,2012-09-05 Yoga classes and Zen meditation New Age retreats and nature mysticism all are part of an ongoing religious experimentation that has surprisingly deep roots in American history Tracing out the country s Transcendentalist and cosmopolitan religious impulses over the last two centuries Restless Souls explores America s abiding romance with spirituality as religion s better half Now in its second edition including a new preface Leigh Eric Schmidt s fascinating book provides a rich account of how this open road spirituality developed in American culture in the first place as well as a sweeping survey of the liberal religious movements that touted it and ensured its continued vitality Asian Pacific

Catholicism and Globalization José Casanova,Peter C. Phan,2023 This book argues that the development of Catholicism in Asia was closely connected with globalization Since the 16th century Catholicism has contributed significantly to global connectivity while at the same time the Church s global expansion has transformed the Church s own global consciousness Casanova and Phan adopt a framework of three distinct phases of the development of Catholicism in Asia and Oceania early modern 16th to 18th centuries modern Western hegemony 1780s to the 1960s and the contemporary after Western hegemony With this framework contributors discuss the development of Catholicism in all major countries of the region

including China Japan Korea the Philippines Vietnam India and Australia Except for the Philippines and Timor Leste Catholicism in Asia is and is likely to remain a minority religion for the foreseeable future For that reason however it can serve as a unique prism through which to look at the processes of globalization in Asia precisely because the historical processes through which Catholicism took roots in the entire region and became inculturated as an Asian religion are so intimately connected with the processes of globalization **Mores Catholici, Or, Ages of Faith** Kenelm Henry Digby, 1847
