Social developments in the European Union 2013 David Natali (OSE), 2014-06-01 The European Union has gone through a crucial period marked by growing anti-EU sentiments and the difficult implementation of its largely renewed socio-economic governance. After years of in-depth innovations and the hope of reinvigorating the E M U social dimension, European institutions have engaged in a lively debate on how to exit the recession and relaunch the integration project. While most Member States have continued to pursue punitive austerity programmes at a time when 27 million Europeans are unemployed and a quarter of the EU population is at risk of poverty, most stakeholders, namely the trade union movement and policymakers, agree on the need for an EU-driven growth strategy. This 2013 edition of *Social developments in the European Union* provides key insights from analysts and scholars. Through the critical assessment of the EU economic governance of the last few years, contributors have set guidelines for a reinforced EU social protection and investment plan. The proposals for a pan-European unemployment insurance scheme and an EU minimum income scheme are analysed together with a renewed focus on the gender dimension of European social policies. Beyond economic and social governance, this volume critically reviews national reforms of labour market policies. While the state of the European economy is still gloomy, the institutional and policy reforms proposed here represent an opportunity to unveil a new path for Europe.

The European Union's Geopolitics Mathias Jopp, Johannes Pollak, 2025-02-07 The book deals with the urgent need for the EU to position itself globally in the wake of Brexit, a rapidly worsening climate crisis, the COVID 19 pandemic, an aggressive Russia and an

ever more assertive China After 60 years of intensive navel gazing that focused on institutional design more than world politics the EU is now forced to defend its liberal democratic values which have come under attack from inside and outside the European integration project Moreover Realpolitik is back on the agenda Europe's content negligence of defense matters in the past few decades has been revealed by Russia's war of aggression against Ukraine
