Joaquín Roy, Aimee Kanner

European Parliament And Supranational Party System A Study In Institutional Development:

The European Parliament and Supranational Party System Amie Kreppel, 2002 This book examines the impact of legislative and political authority on the internal development of the European Parliament **The Oxford Handbook of the European Union** Erik Jones, Anand Menon, 2012-08-30 This is an authoritative one volume and independent treatment of the history functioning and nature of the European integration Written by a selection of leading scholars It covers the major institutions policies and events in the history of integration whilst also providing a guide to the major theoretical approaches that have been used to study it over time By bringing together such a distinguished cast covering such a wide array of themes the Handbook is intended as a one stop shop for all those interested in the European Union and its predecessors Written in an accessible style the volume is intended to shape the discipline of EU studies and to establish itself as the essential point of reference for all those interested in European integration both in universities and more broadly It represents a timely guide to an institution that is much discussed but often only imperfectly understood *The European Parliament as an Accountability Forum* Adina Akbik, 2022-02-03 This book provides the first in depth empirical study of the European Parliament's powers of scrutiny of the executive in the European Union EU political system focusing on the politically salient field of the Economic and Monetary Union The expansion of executive decision making during the euro crisis was accompanied by an empowerment of the European Parliament through legislative oversight This book examines how the European Parliament exercises that oversight on a day to day basis and thus contributes to political accountability at the EU level Building on an innovative analytical framework for the study of parliamentary questions and answers Adina Akbik sheds light on the European Parliament's possibilities and limitations to hold EU executive bodies accountable more generally Case studies cover the period 2012 to 2019 and include the European Central Bank in banking supervision the European Commission the Eurogroup and the Economic and Financial Affairs Council This title is Open Access

Transnational Parties and Advocacy in European Integration Karl Magnus Johansson, Tapio Raunio, 2024-07-16 This book analyses the role of Europarties in the deepening of integration and the debates on the future of Europe It is guided by three fundamental research questions What strategies do Europarties utilize to advance their visions of Europe What is the relative influence of the actors in the networks of the Europarties How successful have the Europarties been in shaping the future of Europe European integration cannot be understood without accounting for the impact of the Europarties Theoretically the book utilizes the concepts of advocacy and agenda setting identifying Europarties as transnational partisan actors operating at intergovernmental and supranational levels of EU decision making Europarties have consolidated their organizational structures and more importantly have over the decades built their own networks and coalitions that enable them to wield influence in ways rarely captured by previous studies Empirically the book investigates the networks and positions of the Europarties constitutional reform processes and the role of the Europarties and their EP political groups in the broader

debates on the future of Europe Latin America-European Union relations in the twenty-first century Arantza Gomez Arana, María J. García, 2022-03-22 Latin America European Union relations in the twenty first century provides a valuable overview of transatlantic trade agreement negotiations and developments in the first decades of the twenty first century This edited collection examines key motivations behind trade agreements traces the evolution of negotiations and explores some of the initial impacts of new generation trade agreements with the EU on South American countries The book makes an important contribution to our understanding of relations between these regions by contextualising relations and trade agendas both in terms of domestic political and economic policies and broader global trends It demonstrates the importance of a shift toward mega regional trade agreements in the 2010s particularly under the Obama administration in the United States in shaping South American and European agendas for trade agreement negotiations and their outcomes Detailed case studies in the book investigate EU relations and negotiations with countries that have successfully negotiated new generation trade agreements with the EU Mercosur the Andean states Chile and Mexico Other contributions offer a wider overview of EU Latin American relations including parliamentary and civil society relations The net result is a balanced analysis of contemporary EU relations with South America useful for students and scholars of foreign policy and political economy in both regions **The Role of Political Parties in the European Union** Bjorn Lindberg, Anne Rasmussen, Andreas Warntjen, 2013-09-13 At the national level political parties play an important role in making representative democracy work They help to aggregate and communicate policy preferences link decision making between different legislative bodies and hold politicians accountable In the European Union however the electoral connection is weak This casts doubt on the impact of partisan politics at the European level Are political parties able to fulfil their role as transmission belts ensuring political accountability and consistent decision making in the European Union To answer this question we look at the micro foundations of partisan politics in the European Union The contributions in this volume all depart from a common theoretical framework but use a wide range of empirical data and research designs covering qualitative process tracing elite interview and large N quantitative analysis Moreover they examine party effects in the electoral and legislative arena Finally the volume covers all European institutions the Commission the Council of the European Union the European Council and the European Parliament The findings enhance our understanding of the workings of decision making in Brussels add to the debate on the EU democratic deficit and highlight the usefulness of drawing upon insights from the literature on Comparative Politics when studying the European Union This book was published as a special issue of the Journal of European Public Policy Parliamentary Dimensions of Regionalization and Globalization O. Costa, C. Dri, S.

Stavridis, 2013-05-20 The end of the Cold War has seen an international proliferation of parliamentary bodies of all types and at all levels How can this process of parliamentarization be assessed and under what conditions do these institutions operate This book explores how regional integration and globalization are developing from a parliamentary perspective

Parliamentary Agency and Regional Integration in Europe and Beyond Bruno Theodoro Luciano, 2021-08-17 This comparative book analyses the development of regional integration parliaments in three different continents of the world It assesses and compares the expansion and current stage of institutional development of three regional assemblies the European Parliament the Pan African Parliament and the Mercosur Parliament for Latin America Looking in particular at parliamentary agency it aims to answer why and to what extent these regional parliaments have developed differently in terms of their functions and legislative competences Drawing on new and original empirical data official documents and secondary literature the book focuses on the critical junctures in the trajectory of the three assemblies and argues that parliamentary agency has impacted the institutional development of the parliaments leading to diverse paths of regional parliamentarisation This book will be of key interest to scholars and students of global and regional governance comparative regionalism European Union studies legislative studies and more broadly to international relations history law political economy and international organisations

Fifteen into one? Wolfgang Wessels, Andreas Maurer, Juergen Mittag, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license This book takes up traditional approaches to political science It aims to offer a mixture of conventional and specific analyses and insights for different groups of readers In view of the European Union s multi level and multi actor polity the book highlights the complex procedural and institutional set up of nation states preparing and implementing decisions made by the institutions of the European Community EC In looking at the emerging and evolving realities of the European polity it shows how European institutions and Member States re act and interact in a new institutional and procedural set up It explores how governmental and non governmental actors in different national settings adapt to common challenges constraints and opportunities for which they are mainly themselves responsible The book discusses the Belgian policy toward European integration as a significant demonstration of its commitment to multilateralism and international co operation in security and economic affairs Attitudes to European integration in Denmark Germany Finland Greece and Spain are discussed Tendencies towards Europeanisation and sectoralisation of the ministerial administration during the process of European integration and the typical administrative pluralism of the Italian political system seem to have mutually reinforced each other Strong multi level players are able to increase their access and influence at both levels and to use their position on one level for strengthening their say on the other German and Belgian regions might develop into these kinds of actors A persistent trend during the 1990s is traced towards stronger national performers particularly in terms of adaptations and reactions to Maastricht Treaty

Research Handbook on EU Administrative Law Carol Harlow, Päivi Leino, Giacinto della Cananea, 2017-02-24 Key chapters written by leading experts across the field engage with important ongoing debates in the field of EU administrative law focusing on areas of topical interest such as financial markets the growing security state and problematic common asylum procedures In doing so they provide a summary of what we know don t know and ought to

know about EU administrative law Examining the control functions of administrative law and the machinery for accountability this Research Handbook eloquently challenges areas of authoritarian governance such as the Eurozone and security state where control and accountability are weak and tackles the seemingly insoluble question of citizen voice and access to policy making *Denmark and the European Union* Lee Miles, Anders Wivel, 2013-07-31 This book offers an accessible coherent and comprehensive analysis of the recent contemporary and future challenges and possibilities facing Denmark in the European integration process The book traces the formal as well as the informal ways of influence and adaptation in Denmark's relations with the European Union In doing so it also offers a contribution to our understanding of Europe as a differentiated political arena Topics covered include Identifying the challenges and opportunities of Danish EU membership via the policies pursued by Denmark in Europe The ways in which Denmark adapts to the European integration process Consequences of EU integration for citizen rights democracy policy coordination and implementation efficiency Denmark and the European Union will be of interest to students and scholars of European Union and integration politics

The Legitimacy of the European Union After Enlargement Jacques Thomassen, 2009-05-28 In 2004 the European Union was enlarged with ten new member states eight of them previously communist states in Central and Eastern Europe This enlargement was without precedent in the history of the Union and its predecessors It is still to be seen how well the institutions as well as the citizens of the Union are able to cope with the consequences of this operation The authors of this volume evaluate the effect of that enlargement on its legitimacy They do so by assessing the effects of enlargement on the functioning of the process of political representation in the European Union and on the feelings of the European people towards the Union This study is mainly based on data from the European Election Study 2004 This study made it for the first time possible to compare the attitudes and behaviour of citizens in the enlargement countries in particular in Central and Eastern Europe with their counterparts in the older member states Some of the findings of this study are counterintuitive In many respects the effects of enlargements are much smaller than often argued The party systems of the new member states and the attitudes and behaviour of the voters of individual parties are very compatible with their counterparts in the older member states making further European integration relatively easy The same can be said about members of the European Parliament On the other hand the mutual trust of the people in the older and new member states is extremely low and undermines the legitimacy of the enlarged Union *Political Parties and Legislative Party Switching* W. Heller, C. Mershon, 2009-06-22 Political parties and democratic politics go hand in hand Since parties matter it matters too when elected politicians change party affiliation This book shows why when and to what effect politicians switch parties in pursuit of their goals as constrained by institutions and in response to their environments **The a to Z of the European Union** Joaquín Roy, Aimee Kanner, 2009 Over half a century old and continuing to grow in strength and authority the European Union consists of 25 member states with more on the waiting list and a population of 450 million people Its influence in

foreign and domestic affairs and human rights and law reaches far beyond its earlier fields of trade and politics From the initial ideas about integration leading to the Treaty of Paris and the creation of the European Coal and Steel Community to the current reflection on the Treaty establishing a Constitution for Europe The A to Z of the European Union encompasses the most basic elements of the EU and the components that have emerged as a result of them Through the use of maps photographs a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on topics such as leaders personalities institutions enlargements member states internal policies external relations basic theories treaties and law this dictionary tells a clear and complete story about the European Union that will assist those with greater interest in understanding it Between Flexibility and Disintegration Bruno De Witte, Andrea Ott, Ellen Vos, 2017-02-24

Differentiation was at first not perceived as a threat to the European project but rather as a tool to promote further integration Today more EU policies than ever are marked by concentric circles of integration and a lack of uniform application As the EU faces increasingly existential challenges this timely book considers whether the proliferation of mechanisms of flexibility has contributed to this newly fragile state or whether to the contrary differentiation has been fundamental to integration despite the heterogeneity of national interests and priorities Politics in the European Union Ian Bache, Stephen George, Simon Bulmer, 2011-02-17 This is an account of the main developments in the process of European integration It provides coverage of theory history member states institutions and policies drawing on academic debates including issues of legitimacy and globalisation *The Parliamentary Roots of European Social Policy* Mechthild Roos, 2021-09-01 The European Parliament EP a powerful actor in today's European Union was not intended to be more than a consultative assembly at first Yet this book shows that the EP was much more influential in shaping Community policy in the early years of the integration process than either the founding Treaties or most existing scholarship would allow It studies the EP's institutional evolution through the lens of Community social policy a policy area with a particularly strong ideational dimension By promoting a European social dimension Members of the EP MEPs presented the Parliament as the true representative of European citizens by channelling their interests and needs MEPs thus emphasised the EP's role as a provider of democratic legitimacy for Community politics whilst at the same time trying to convince European citizens that the Communities could have a real and positive impact on their everyday lives **How the EU Really Works** Olivier Costa, Nathalie Brack, 2016-04-29 The European Union is facing a profound crisis and is confronted with multiple challenges Over the last two decades it has experienced a series of dramatic changes to its powers its institutional design its constitutional framework and its borders At the same time the uneasy relationship between European citizens and elites has complicated both the reform and the function of the Union While the Lisbon treaty provided some answers to crucial questions it did not clarify the nature of the EU which remains at the crossroads of federal and intergovernmental logic The current economic and financial crisis puts the EU's legitimacy further under pressure and creates the impression of a turning

point This book provides a concise analysis of the EU and its dynamics by paying particular attention to its day to day operation It aims to help students and scholars understand its evolution its institutions its decision making and the interactions between the EU and various actors Avoiding abstract theorizing the authors propose an easy to read analysis of how the Union works while recognizing the complexity of the situation Throughout the book the key issues of European integration are addressed democratic deficit politicization the role of member states institutional crisis and citizen involvement

The Europeanization of Politics Daniele Caramani, 2015-09-09 This book offers a broadly comparative historical and quantitative analysis of electorates and party systems in Western and Central Eastern Europe since the nineteenth century

The European Ambition Luciano Bardi, Wojciech Gagiatek, Carine Germond, Karl Magnus Johansson, Wolfram Kaiser, Silvia Sassano, 2020-08-18 Die Studie beschreibt die institutionelle organisatorische und politische Entwicklung der EVP Fraktion im Europäischen Parlament und konzentriert sich dabei auf die Periode nach den ersten Direktwahlen im Jahr 1979 Auf diese Weise beleuchtet das Buch das Funktionieren der Parlamentsfraktionen und erweitert unser Wissen über ihre Rolle in der europäischen Integration und im politischen System der EU Basierend auf dem konzeptionellen Rahmen verschiedener Disziplinen Geschichte Politikwissenschaft Europastudien politische Soziologie ist das Buch das Ergebnis eines Forschungsprojekts an dem Wissenschaftler mit unterschiedlichem akademischen Hintergrund und aus verschiedenen EU Ländern beteiligt waren
