National Conference of Catholic Bishops. Committee for Pro-Life Activities, 1992 The bishops apply moral principles to questions frequently asked      Medical Ethics and Medical Law José Miola, 2007-07-12 Medical law and ethics are frequently referred to in conjunction and appear together in many textbooks But do they combine to form a cohesive unit and do they benefit each other It may be argued that they do not but rather suffer a symbiotic relationship clashing rather than cooperating This book examines this relationship

and how the law sees medical ethics It then considers whether medical ethics functions in the way that the law thinks that it does After providing a historical perspective that identifies medical ethics discourse as disjointed and fragmented the book continues by examining key medico legal case law and reports that have an inherent ethical content for clues as to how they define medical ethics and its role It also considers how medical ethics sees the law concluding that a misapprehension by each party as to what the other does creates a mutually harmful relationship between them

*Social Catholicism for the Twenty-First Century?--Volume 1* William F. Murphy,2024-09-12 This first of two volumes introduces the tradition of social Catholicism not only in its earlier realizations but regarding how a contemporary renewal might address the crisis in which constitutional democracies and the postwar liberal order are under assault by populist and even neo fascist movements that could soon usher in a frighteningly dark future unless a broad movement in defense of constitutional democracy quickly arises In this context some of the most influential voices among American Catholics are focused on criticizing liberal democracy on advocating a postliberal order and the establishment of a Catholic integralist state or on insisting that abortion should be the primary sociopolitical concern for Catholics treating these threats to democracy as largely irrelevant This volume shows the rich tradition of social Catholicism and how the Social Doctrine of the Church came to appreciate the key tenets of constitutional democracy As Pope Benedict XVI wrote this social doctrine leads us to take a stand for the common good to take the institutional or political path of charity to be solicitous for the institutions that give structure to the life of society juridically civilly politically and culturally It engages some of the most influential contemporary Catholic thinkers and argues that they too should recognize the grave threats facing the human family and join in working to defend and renew our constitutional democracy

[Endings and Beginnings](#) Larry Palmer,2000-05-30 As society struggles to cope with the many repercussions of assisted life and death the evening news is filled with stories of legal battles over frozen embryos and the possible prosecution of doctors for their patients suicide Using an institutional approach as an alternative to the prevailing rights based analysis of problems in law and medicine this study

explains why society should resist the tendency to look to science and law for a resolution of intimate matters such as how our children are born and how we die Palmer's institutional approach demonstrates that legislative analysis is often more important than judicial analysis when it comes to issues raised by new reproductive technologies and physician assisted suicide A reliance on individual rights alone for answers to the complex ethical questions that result from society's faith in scientific progress and science's close alliance with medicine will be insufficient and ill advised Palmer predicts that the key role of the family as a societal institution will mean that questions of assisted reproduction will be resolved more in response to market forces than through legal intervention However he does support a strong role for legislatures in decisions involving the physicians role in our deaths These findings are based on the differing views of the Supreme Court justices in these matters a tendency to protect family formation from state interference as in abortion decisions but support of a legislative obligation to control medicine assisted suicide According to Palmer recent Supreme Court decisions on physician assisted suicide usher in a new era in how legal institutions will resolve biomedical dilemmas

**Assisted Suicide and Euthanasia**

Mr Craig Paterson, 2012-10-01 As medical technology advances and severely injured or ill people can be kept alive and functioning long beyond what was previously medically possible the debate surrounding the ethics of end of life care and quality of life issues has grown more urgent In this lucid and vigorous book Craig Paterson discusses assisted suicide and euthanasia from a fully fledged but non dogmatic secular natural law perspective He rehabilitates and revitalises the natural law approach to moral reasoning by developing a pluralistic account of just why we are required by practical rationality to respect and not violate key demands generated by the primary goods of persons especially human life Important issues that shape the moral quality of an action are explained and analysed intention foresight action omission action consequences killing letting die innocence non innocence person non person Paterson defends the central normative proposition that it is always a serious moral wrong to intentionally kill an innocent human person whether self or another notwithstanding any further appeal to consequences or motive
