*Evaluating AIDS Prevention* Laura C. Leviton, Andrea M. Hegedus, Alan Kubrin, 1990      *Evaluating HIV Prevention Interventions* Joanne E. Mantell, Anthony T. DiVittis, Marilyn I. Auerbach, 2013-06-29 This user friendly comprehensive guide places evaluation in the context of HIV to give all health care professionals the necessary tools for developing and implementing successful HIV interventions Every aspect of evaluation is discussed including the social and political context of evaluation coding and inter rater reliability procedures barriers to evaluation and solution the dissemination of results the application of theory to HIV interventions Case studies and examples from both the US and abroad to illustrate practical issues and numerous tables and figures complement the text      *Multicultural AIDS Prevention Programs* Robert T. Trotter, 1996 *Multicultural AIDS Prevention Programs* explores the behaviors of injection drug users and crack users to determine HIV risk factors and to help you reevaluate intervention and education programs Program directors learn how to design and implement effective programs based on the research presented Among the important issues you will learn about are risk behavior and stages of behavior change for condom and needle use predictors of loss for follow up among drug users participating in HIV AIDS prevention projects the role of psychosocial domains as causes for HIV risk behaviors and as resources for behavioral change condom use as AIDS prevention among drug users and high risk women sexual orientation and HIV risk behaviors among injection drug users IDUs and crack smokers the utility of the stages of change model in assessing intervention readiness and measuring the outcome of modifying drug related and sexual risk behaviors of active drug users an evaluation of the effect on risk behaviors of an HIV testing and counseling program among African American in the U S and Puerto Rican in the U S and Puerto Rico drug abusers a cost analysis of outreach services to IDUs and street youth a comparison of outreach costs with the medical costs of treating an HIV infected individual an examination of the National Institute on Drug Abuse NIDA cohort of out of treatment IDUs and crack users to determine variables associated with entering drug treatment factors correlated with treatment retention and the extent to which entering treatment is related to cessation of injection drug and crack use *Multicultural AIDS Prevention Programs* gives you an explanation for and better understanding of risk behaviors among drug users You will use this insight in your efforts as a professional in drug abuse prevention and treatment or HIV AIDS education research and outreach to develop and implement the most effective approaches for successfully changing client behavior      *AIDS and Behavior* Institute of Medicine, Committee on Substance Abuse and Mental Health Issues in AIDS Research, 1994-02-01 HIV is spreading rapidly and effective treatments continue to elude science Preventive interventions are now our best defense against the epidemic but they require a clear understanding of the behavioral and mental health aspects of HIV infection and AIDS *AIDS and Behavior* provides an update of what investigators in the biobehavioral psychological and social sciences have discovered recently about those aspects of the disease and offers specific recommendations for research directions and priorities This volume candidly discusses the sexual

and drug use behaviors that promote transmission of HIV and reports on the latest efforts to monitor the epidemic in its social contexts The committee reviews new findings on how and why risky behaviors occur and efforts to develop strategies for changing such behaviors The volume presents findings on the disease's progression and on the psychosocial impacts of HIV and AIDS with a view toward intervention and improved caregiving AIDS and Behavior also evaluates the status of behavioral and prevention aspects of AIDS research at the National Institute of Mental Health the National Institute on Drug Abuse and the National Institute on Alcohol Abuse and Alcoholism The volume presents background on the three institutes their recent reorganization their research budgets programs and priorities and other important details The committee offers specific recommendations for the institutes concerning the balance between biomedical and behavioral investigations adequacy of administrative structures and other research management issues Anyone interested in the continuing quest for new knowledge on preventing HIV and AIDS will want to own this book policymakers researchers research administrators public health professionals psychologists AIDS advocates and service providers faculty and students

**The Prevention Marketing Initiative**, 1996      **AIDS up to the Year 2000** Scenario Committee on AIDS, E.J. Ruitenberg, F.M.L.G. van den Boom, J.C. de Jager, D.P. Reinkind, M.J. Postma, C.E.S. Albers, 2012-12-06

In March 1983 the Secretary of State for Welfare Health and Cultural Affairs appointed the Steering Committee on Future Health Scenarios STG The task of the STG is to advise the Minister on the future of public health and health care in the long term in the Netherlands with a view to increasing the anticipatory capacity of government policy Since 1983 the STG has set up a number of committees including the Scenario Committee on AIDS with a view to mapping out possible scenarios in their particular field of interest The committees report in the form of scenario reports which are of relevance not just to the national government but also to others involved in policy development and opinion formation in the field in question What proportions will the HIV AIDS epidemic assume and how many new HIV infections can be averted by HIV AIDS prevention campaigns How much care and support will people with HIV and AIDS need and what successes can be expected within the care sector What will be the social consequences of AIDS and how can ostracism and the social isolation of people with HIV and AIDS be avoided These and other related questions form the subject of this book which examines the sociocultural and economic impact of AIDS in the Netherlands up to the year 2000 The book presents a study carried out by the Netherlands Institute of Mental Health NcGv and the National Institute of Public Health and Environmental Protection RIVM under the direction of the STG Scenario Committee on AIDS The researchers look back at the epidemiological sociocultural and economic impact of AIDS in the Netherlands during the first decade of the epidemic and on the basis of this use scenario analysis to project the impact of AIDS up to the year 2000 The future projections relate both to the impact of AIDS and the maximization of efforts to combat the disease In addition to a scenario exploring the impact of AIDS if developments continue unchanged alternative scenarios are also put forward These focus on the impact of significant changes in such diverse fields as sexual behaviour injecting

drug use the effectiveness and organization of HIV AIDS prevention programmes and the demand for delivery of care The book concludes that the impact of AIDS will only become fully apparent in the second decade of the epidemic The authors consider the implications of this conclusion for HIV AIDS prevention programmes research care and the efforts to counter the socially undesirable impacts of AIDS      **Expert Advice for Policy Choice** Duncan MacRae Jr., Dale

Whittington, 1997-04-01 Economic reasoning has thus far dominated the field of public policy analysis This new introduction to the field posits that policy analysis should have both a broader interdisciplinary base including criteria from such fields as political science sociology law and philosophy as well as economics and also a broader audience in order to foster democratic debate To achieve these goals MacRae and Whittington have organized their textbook around the construction of decision matrices using multiple criteria exploring the uses of the decision matrix formulation more fully than other texts They describe how to set up the matrix fill in cells and combine criteria and use it as an aid for decision making They show how ethical assessment of the affects that alternatives have on various parties differs from political analysis and then they extend the use of the decision matrix to consider alternatives by affected parties periods of time or combined factors The authors also thoughtfully address the role of expert advice in the policy process widening the scope of the field to describe a complex system for the creation and use of knowledge in a democracy An extended case study of HIV AIDS policy follows each chapter in installments immediately illustrating the application of the material The book also contains a glossary **Expert Advice for Policy Choice** provides a new basis for graduate education in public policy analysis and can also serve as a text in planning evaluation research or public administration In addition it will be of interest to students and professionals wishing to aid policy choice who work in such fields as sociology political science psychology public health and social work

Teenagers, HIV, and AIDS Maureen E. Lyon, Lawrence D'Angelo, 2006-09-30 Who will want me now It's a heart wrenching question for teenagers infected with HIV The number of HIV AIDS infected teenagers in the United States is increasing Nearly 35 000 U S teenagers now have AIDS Far more have been diagnosed with HIV and an undetermined number have the virus and do not yet know Each year some 1 700 young people aged 13 to 24 are diagnosed with the ravaging end result of this infection AIDS In this volume experts who work with HIV AIDS infected teenagers examine the psychological and social fallout compounding the frightening medical issues faced by adolescents who've received the diagnosis Readers share the challenge with teens as they face the stigma of HIV AIDS and the tough decisions about who to tell of their infection and when to do it We learn the hard truth about health care self care and new treatment options for affected teens And we read about the heartbreaking end of life care issues for dying adolescents Perhaps most important the authors offer resources teens and their families can turn to for information and support And they explain what family friends teachers and other professionals can do to help infected teens maximize their mental health and their quality of life      *Evaluation in the Federal Government: Changes, Trends, and Opportunities* Christopher G. Wye, 1992 A significant report on a critical topic this classic

volume of the New Directions for Evaluation series is now in print and available again This issue which includes government documents pertaining to evaluation as well as contributions from federal evaluators and administrators outlines the duties responsibilities and methodological approaches of the various government offices with evaluative functions and details some of the strategies used by these agencies to cope with the twin pressures of reduced funding and greater calls to demonstrate the effectiveness of government programs pressures first felt in the 1980s and which continue to the present day The contributors discuss federal evaluation agencies in three broad categories executive branch social agencies such as the Department of Health and Human Services and the Department of Housing and Urban Development where the cutbacks were the most severe the three so called central executive branch agencies the Office of Management and Budget the Office of Personnel Management and the General Services Administration where cutbacks were less severe but still significant and where attitudes towards evaluation varied over time and the evaluative agencies of the legislative branch the General Accounting Office the Congressional Budget Office the Congressional Research Service and the Office of Technology Assessment where evaluation remained fairly robust and well funded This is the 55th volume of the quarterly report series New Directions for Evaluation     *Evaluation Models* D.L. Stufflebeam, George F. Madaus, T. Kellaghan, 2005-12-19 This is an up to date revision of the classic text first published in 1983 It includes a historical perspective on the growth of evaluation theory and practice and two comparative analyses of the various alternative perspectives on evaluation It also includes articles representing the major schools of thought about evaluation written by the leaders who have developed these schools and models The final section describes and discusses the Standards for Program Evaluation and the reformation of program evaluation     **Assessing the Social and Behavioral Science Base for HIV/AIDS Prevention and Intervention** Institute of Medicine (U.S.). Committee on the Social and Behavioral Science Base for HIV/AIDS Prevention and Intervention. Workshop, 1995 Introduction Understanding the epidemic Learning from lives individuals within a social context Understanding high risk communities Making a difference controlling the epidemic through social intervention Intermediate technologies in medically based prevention trials Evaluating results     Varieties of Investigative Evaluation Nick L. Smith, 1992     *Evaluating Mental Health Services for Children* Leonard Bickman, Debra J. Rog, 1992     **Evaluating Programs for the Homeless** Debra J. Rog, 1991     **Multisite Evaluations** Robin S. Turpin, James M. Sinacore, James Michael Sinacore, 1991 Multisite evaluations are conducted for many reasons to increase the option to generalize findings to maximize sample size and to respond to political and social demands However the conduct of these evaluations requires careful consideration The papers in this volume are intended to provide information to evaluators on some of the advantages and limitations and on the organizational methodological and statistical issues implicit in this type of evaluation     Critically Evaluating the Role of Experiments Kendon J. Conrad, 1994     Guiding Principles for Evaluators William R. Shadish, 1995 The volume ends with a look to the future to the sorts of issues and activities that we should keep in mind for the continued

use and development of these principles      **Emerging Roles of Evaluation in Science Education Reform** Rita G.
