Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition

Kristen Syrett, Sudha Arunachalam

Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition:

Event Semantics of Verb Frame Alternations Angeliek Van Hout, 2013-10-11 Using both theoretical and language acquisition arguments this study proposes a new model of the lexicon syntax interface defined in terms of checking event semantic features The research is based on Dutch verbs and their possible verb frames intransitive transitive etc and two studies of children's Dutch The model developed from these cases represents more generally the way in which Universal Grammar organizes the lexicon of a language and the mapping system that associates a verb's lexical features with its syntactic projection

Event Semantics of Verb Frame Alternations Angeliek Van Hout, 2013-10-11 Using both theoretical and language acquisition arguments this study proposes a new model of the lexicon syntax interface defined in terms of checking event semantic features The research is based on Dutch verbs and their possible verb frames intransitive transitive etc and two studies of children's Dutch The model developed from these cases represents more generally the way in which Universal Grammar organizes the lexicon of a language and the mapping system that associates a verb's lexical features with its syntactic projection

The Oxford Handbook of Developmental Linguistics Jeffrey Lidz, William Snyder, Joe Pater, 2016-07-28 In this handbook renowned scholars from a range of backgrounds provide a state of the art review of key developmental findings in language acquisition The book places language acquisition phenomena in a richly linguistic and comparative context highlighting the link between linguistic theory language development and theories of learning The book is divided into six parts Parts I and II examine the acquisition of phonology and morphology respectively with chapters covering topics such as phonotactics and syllable structure prosodic phenomena compound word formation and processing continuous speech Part III moves on to the acquisition of syntax including argument structure questions mood alternations and possessives In Part IV chapters consider semantic aspects of language acquisition including the expression of genericity quantification and scalar implicature Finally Parts V and VI look at theories of learning and aspects of atypical language development respectively

A Complementary Study of Lexicalist Approaches and Constructionist Approaches Qilong Cheng, Qianwen Cheng, 2023-06-02 This book presents a complementary study of lexicalist approaches and constructionist approaches in linguistics Specific topics discussed include different versions of semantic roles predicate decomposition event structures argument realizations and cognitive construction grammars For decades the relationship between certain concepts and constructions along with related issues of verb construction associations have been perennially taxing for both lexicalist and constructionist approaches alike Indeed in Chinese unmatched verb construction associations and the much richer alternate realizations pose very difficult problems Based on a comparative study the authors make an attempt to account for the possible correspondence between the delicacy of argument setting and the principles of their realization They also account for the integration of construction with verbs in terms of their coherent conceptual content The resultant newly developed model throws new light on these thorny Chinese problems The book will appeal to scholars and students studying

cognitive linguistics cognitive semantics computational linguistics and also natural language processing The book also brings up some new analysis of Chinese data for both researchers and learners of Modern Chinese *Semantics in Language Acquisition* Kristen Syrett, Sudha Arunachalam, 2018-08-02 This volume presents the state of the art of recent research on the acquisition of semantics Covering topics ranging from infants initial acquisition of word meaning to the more sophisticated mapping between structure and meaning in the syntax semantics interface and the relation between logical content and inferences on language meaning semantics and pragmatics the papers in this volume introduce the reader to the variety of ways in which children come to realize that semantic content is encoded in word meaning for example in the event semantics of the verbal domain or the scope of logical operators and at the level of the sentence which requires the composition of semantic meaning The authors represent some of the most established and promising researchers in this domain demonstrating collective expertise in a range of methodologies and topics relevant to the acquisition of semantics This volume will serve as a valuable resource for students and faculty and junior and seasoned researchers alike

Bibliographie Linguistique de L'annee 1999 Mark Janse, Hella Olbertz, Sijmen Tol, 2003-11-30 Setting out the historical national and religious characteristics of the Italians as they impact on the integration within the European Union this study makes note of the two characteristics that have an adverse effect on Italian national identity cleavages between north and south and the dominant role of family It discusses how for Italians family loyalty is stronger than any other allegiance including feelings towards their country their nation or the EU Due to such subnational allegiances and values this book notes that Italian civic society is weaker and engagement at the grass roots is less robust than one finds in other democracies leaving politics in Italy largely in the hands of political parties The work concludes by noting that EU membership however provides no magic bullet for Italy it cannot change internal cleavages the Italian worldview and family values or the country's mafia dominated power matrix and as a result the underlying absence of fidelity to a shared polity Italian or European leave the country as ungovernable as ever *The Second Glot International State-of-the-Article Book* Lisa Cheng, Rint Sybesma, 2014-10-15 The Glot International State of the Article books constitute the ideal solution for every one who wants to have a good idea of what the others are doing but does not have time to follow the developments in all other parts of the field on a day to day basis All articles were previously published in Glot International and have been revised and updated and special attention was given to the extensive bibliography which constitutes an important part of each overview article Among the essays in the first volume are overview articles dealing with VP ellipsis by Kyle Johnson Ergativity by Alana Johns tone by San Duanmu acquisition of phonology by Paula Fikkert and semantic change by Elizabeth Closs Traugott The second volume offers articles on subjects ranging from the development of grammars by David Lightfoot and markedness in phonology by Keren Rice to the syntactic representation of linguistic events by Sara Thomas Rosen optionality in Optimality syntax by Gereon Müller and the nature of coordination by Ljiljana Progovac The Oxford

Handbook of Linguistic Interfaces Gillian Ramchand, Charles Reiss, 2007-02-22 This state of the art guide to some of the most exciting work in current linguistics explores how the core components of the language faculty interact It examines how these interactions are reflected in linguistic and cognitive theory considers what they reveal about the operations of language within the mind and looks at their reflections in expression and communication Leading international scholars present cutting edge accounts of developments in the interfaces between phonetics phonology morphology syntax semantics and pragmatics They bring to bear a rich variety of methods and theoretical perspectives focus on a broad array of issues and problems and illustrate their arguments from a wide range of the world's languages After the editors introduction to its structure scope and content the book is divided into four parts The first Sound is concerned with the interfaces between phonetics and phonology phonology and morphology and phonology and syntax Part II Structure considers the interactions of syntax with morphology semantics and the lexicon and explores the status of the word and its representational status in the mind Part III Meaning revisits the syntax semantics interface from the perspective of compositionality and looks at issues concerned with intonation discourse and context The authors in the final part of the book General Architectural Concerns examine work on Universal Grammar the overall model of language and linguistic and associated theories of language and cognition All scholars and advanced students of language will value this book whether they are in linguistics cognitive science philosophy artificial intelligence computational science or informatics *Lexical Semantics, Syntax, and Event Structure* Malka Rappaport Hovav, Edit Doron, Ivy Sichel, 2010-02-25 This book focuses on the linguistic representation of temporality in the verbal domain and its interaction with the syntax and semantics of verbs arguments and modifiers Leading scholars explore the division of labour between syntax compositional semantics and lexical semantics in the encoding of event structure encompassing event participants and the temporal properties associated with events They examine the interface between event structure and the systems with which it interacts including the interface between event structure and the syntactic realization of arguments and modifiers Deploying a variety of frameworks and theoretical perspectives they consider central issues and questions in the field among them whether argument structure is specified in the lexical entries of verbs or syntactically constructed so that syntactic position determines thematic status whether the hierarchical structure evidenced in argument structure find parallels in sign language should the relation between members of an alternation pair such as the causative inchoative alternation be understood lexically or derivationally and the role of syntactic category in determining the configuration of argument structure *Datives and Other Cases* Daniel P. Hole, Werner Abraham, André Meinunger, 2006-01-01 This volume provides a state of the art account of research into datives and other morphological cases The contributors among them leading scholars in the field present fresh insights into traditional issues such as the dichotomy between lexical and structural case and open up fascinating new areas of research A recurrent feature of the majority of contributions is their combined syntax semantics perspective Germanic varieties Serbian Albanian and other Balkan

languages alongside Chinese Japanese Tagalog are discussed from various theoretical angles such as mainstream generativism lexical functional grammar and functional typology Despite the broad range of facts spanning the distance between acquisition data and dialectology the papers are connected by a renewed interest in form function correspondencies This volume will be welcomed by theoretical linguists and typologists with an interest in argument and event structure linguists studying the case systems of individual languages and researchers in search for up to date discussion of Germanic datives

Semantics - Lexical Structures and Adjectives Claudia Maienborn,Klaus von Heusinger,Paul

Portner,2019-02-19 Discover vital research on the lexical and cognitive meanings of words In this exciting book from a team of world class researchers in depth articles explain a wide range of topics including thematic roles sense relation ambiguity and comparison The authors focus on the cognitive and conceptual structure of words and their meaning extensions such as coercion metaphors and metonymies The book features highly cited material available in paperback for the first time since its publication and is an essential starting point for anyone interested in lexical semantics especially where it meets other cognitive and conceptual research

Crosslinguistic Perspectives on Argument Structure Melissa Bowerman,Penelope

Brown,2008 This book offers a unique interdisciplinary perspective on argument structure and its role in language acquisition The volume is the outcome of an integrated research project and comprises chapters by both specialists in first language acquisition and field linguists working on a variety of lesser known languages Drawing on a broad range of crosslinguistic data Crosslinguistic Perspectives on Argument Structure integrates important contemporary issues in linguistics and language acquisition

Cognitive Science Perspectives on Verb Representation and Processing

Roberto G. de Almeida,Christina Manouilidou,2014-12-08 Verbs play an important role in how events states and other happenings are mentally represented and how they are expressed in natural language Besides their central role in linguistics verbs have long been prominent topics of research in analytic philosophy mostly on the nature of events and predicate argument structure and a topic of empirical investigation in psycholinguistics mostly on argument structure and its role in sentence comprehension More recently the representation of verb meaning has been gaining momentum as a topic of research in other cognitive science branches notably neuroscience and the psychology of concepts The present volume is an expression of this recent surge in the investigation of verb structure and meaning from the interdisciplinary perspective of cognitive science with up to date contributions by theoretical linguists philosophers psycholinguists and neuroscientists The volume presents new theoretical and empirical studies on how verb structure and verb meaning are represented how they are processed during language comprehension how they are acquired and how they are neurologically implemented Cognitive Science Perspectives on Verb Representation and Processing is a reflection of the recent collaboration between the disciplines that constitute cognitive science bringing new empirical data and theoretical insights on a key element of natural language and conceptualization

Syntax of Dutch Hans Broekhuis,Norbert Corver,2025-10-01 The Syntax of Dutch aims

at presenting a synthesis of the currently available syntactic knowledge of Dutch. It is primarily concerned with language description and not with linguistic theory and provides support to all researchers interested in matters relating to the syntax of Dutch including advanced students of language and linguistics. *Syntax of Dutch Verbs and Verb Phrases* consists of three volumes. Volume 1 opens with a general introduction to verbs including a review of various verb classifications and discussions on inflection, tense, mood, modality and aspect. This is followed by a comprehensive discussion of complementation, argument structure and verb frame alternations. Volume 2 continues the discussion of complementation but is more specifically focused on clausal complements; the reader will find detailed discussions of finite and infinitival argument clauses, complex verb constructions and verb clustering. Volume 3 concludes with a description of adverbial modification and the overall structure of clauses in relation to e.g. word order, verb placement, *wh* movement, extraposition phenomena, scrambling etc.

The Blackwell Companion to Syntax Martin Everaert, Henk Van Riemsdijk, 2008-04-15 Pre Order The Wiley Blackwell Companion to Syntax second edition publishing December 2017 Find out more at www.companiontosyntax.com This long awaited reference work marks the culmination of numerous years of research and international collaboration by the world's leading syntacticians. There exists no other comparable collection of research that documents the development of syntax in this way. Under the editorial direction of Martin Everaert and Henk van Riemsdijk this 5 volume set comprises 70 case studies commissioned specifically for this volume. The 80 contributors are drawn from an international group of prestigious linguists including Joe Emonds, Sandra Chung, Susan Rothstein, Adriana Belletti, Jim Huang, Howard Lasnik and Marcel den Dikken among many others. A unique collection of 70 newly commissioned case studies offering access to research completed over the last 40 years. Brings together the world's leading syntacticians to provide a large and diverse number of case studies in the field. Explores a comprehensive range of syntax topics from an historical perspective. Investigates empirical domains which have been well documented and which have played a prominent role in theoretical syntax at some stage in the development of generative grammar. Serves as a research tool for not only theoretical linguistics but also the various forms of applied linguistics. Contains an accessible alphabetical structure with an index integral to each volume featuring keywords and key figures. Each multi volume set is also accompanied by a CD Rom of the entire Companion. Like the prestigious Blackwell Handbooks in Linguistics series, this multi volume work in the new The Wiley Blackwell Companions to Linguistics series can be relied upon to deliver the quality and expertise with which Blackwell Publishing's linguistics list is associated.

The Locative Alternation in German Ursula Brinkmann, 1997-12-31 This monograph deals with the locative alternation in German, a change in the argument structure of verbs like *spray* and *load*. Like most argument structure changes, the alternation is both productive and constrained: new forms may be derived but not from all candidate verbs. This raises a learnability problem: how can children determine in the absence of negative evidence which verbs participate in the alternation? *The Locative Alternation in German* tries to answer this question by providing an in depth analysis of the

conditions that verbs must meet in order to participate in the alternation Most importantly transitive verbs must allow speakers to presuppose the existence of their theme argument This condition requires the theme to be incremental so that it can be conceived of as nonindividuated or unbounded when the verb is used in the alternative syntactic frame The Nonindividuation Hypothesis splits locative verbs into two types mass verbs like spray and count verbs like load and it predicts that children acquire the alternation first for mass verbs whose theme must be a substance and so is nonindividuated by default Support for this hypothesis is provided in the empirical part of the book which also provides evidence against claims in the literature that children acquire the alternation by drawing on an innate Affectness Linking Rule

Dummy Auxiliaries in First and Second Language Acquisition Elma Blom, Ineke van de Craats, Josje Verhagen, 2013-08-28 Dummy auxiliaries are seemingly superfluous words that appear in learner varieties across languages This volume is an up to date overview of research on dummy auxiliaries with contributions covering English Dutch German French Cypriot Greek first and second language acquisition and specific language impairment as well as dialectal variation

The Acquisition of Spanish Silvina Montrul, 2004-01-01 This is the first book on the acquisition of Spanish that provides a state of the art comprehensive overview of Spanish morphosyntactic development in monolingual and bilingual situations Its content is organized around key grammatical themes that form the empirical base of research in generative grammar nominal and verbal inflectional morphology subject and object pronouns complex structures involving movement topicalizations questions relative clauses and aspects of verb meaning that have consequences for syntax The book argues that Universal Grammar constrains all instances of language acquisition and that there is a fundamental continuity between monolingual bilingual child and adult early grammatical systems While stressing their similarities with respect to linguistic representations and processes the book also considers important differences between these three acquisition situations with respect to the outcome of acquisition It is also shown that many linguistic properties of Spanish are acquired earlier than in English and other languages This book is a must read for those interested in the acquisition of Spanish from different theoretical perspectives as well as those working on the acquisition of other languages in different contexts The Oxford

Handbook of Tense and Aspect Robert I. Binnick, 2012-06-14 This Handbook is a comprehensive authoritative and accessible guide to the topics and theories that current form the front line of research into tense aspect and related areas **Split**

Auxiliary Systems Raúl Aranovich, 2007 The alternation between the auxiliaries BE and HAVE which this collection examines is often discussed in connection with generative analyses of split intransitivity But this book's purpose is to place the phenomenon in a broader context Well known facts in the Romance and Germanic language families are extended with data from lesser studied languages and dialects Romanian Paduan and also with experimental and historical data Moreover the book goes beyond the usual language families in which the phenomenon has been studied with the inclusion of two chapters on Chinese and Korean The theoretical background of the contributors is also broad ranging from current

Generative approaches to Cognitive and Optimality Theoretical frameworks Readers interested in the structural historical developmental or experimental aspects of auxiliary selection should profit from this book s comprehensive empirical coverage and from the plurality of contemporary linguistic analyses it contains

Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the power of words has be evident than ever. They have the capacity to inspire, provoke, and ignite change. Such could be the essence of the book **Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition**, a literary masterpiece that delves deep to the significance of words and their affect our lives. Written by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we shall explore the book is key themes, examine its writing style, and analyze its overall affect readers.

Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition Introduction

In today's digital age, the availability of Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition books and manuals for download is the cost-saving aspect. Traditional

books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and

self-improvement. So why not take advantage of the vast world of Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition books and manuals for download and embark on your journey of knowledge?

FAQs About Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition Books

1. Where can I buy Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition books?
Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition books?
Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.

9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Event Semantics Of Verb Frame Alternations A Case Study Of Dutch And Its Acquisition books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
