Levine,Carol Baroudi,Margaret Levine Young,1995 Get in and get right out with just the information you need without reading tons of extra material Book jacket *Virtual Publics* Beth E. Kolko,2003-07-30 How does virtuality affect reality Fourteen experts consider this question from the perspective of law architecture rhetoric philosophy and art Nearly all of the contributors have been online since before Netscape and a graphical World Wide Web thus they have a thorough understanding of the cultural shifts the Internet has produced and been affected by and they have a keen appreciation for the

potential of the medium Most scholarship on cyberculture has repeatedly emphasized that our offline selves determine how we are able to use technology that real life affects what we do online This volume is an attempt to reverse that discussion to demonstrate that how we live online affects our lives offline as well A virtual public is not an unreal one *Gale Guide to Internet Databases* Joanna Zakalik,1995 Fast access to 2 000 authoritative Internet information sites each fully described 5 easy to use indexes master index to more than 8 000 individual Internet files Includes a list of specialized home pages Internet glossary and bibliography Cover *Information Technology Digest* ,1994 **Cyberimperialism?** Bosah Ebo,2000-11-30 This collection of essays addresses whether all nations will actively participate in building the information superhighway or whether the Internet will reflect global technological inequalities The writings are grouped in four major sections which examine theoretical issues on cyberglobalization politics in the electronic global village global economic issues in cyberspace and national identities and grassroots movements in cyberspace Contributing scholars represent a wide spectrum of disciplines from political science economics and communications to sociology anthropology and philosophy A number of methodological and theoretical perspectives direct the writings Collectively the essays point toward an emerging technology that exhibits innate qualities characteristic of the classic notion of cultural imperialism This edited collection with its timely approach to the implications of the Internet for global relations will appeal to communication sociology and political science scholars The interdisciplinary approach will also attract students and educators from such fields as anthropology philosophy and economics To aid in further research select bibliographies follow each essay **Everybody's Guide to Small Claims Court** Cara O'Neill,2024-05-28 Win your small claims case You don t need a lawyer to succeed in small claims court if you know how to present your own case Everybody s Guide to Small Claims Court provides the information tips and strategies needed to sue someone successfully or put up a winning defense Find out how to assess your case s value mediate an out of court settlement file and serve papers gather supporting evidence line up persuasive witnesses present a convincing case and collect money when you win You ll find instructions for following the latest small claims court procedures and detailed explanations of the legal requirements for many common lawsuits **A Brief History of the Book** Steven K. Galbraith,2020-08-11 This book leads readers through an intriguing examination of how books began and have evolved through history and explores where future technologies may lead them From ancient clay tablet and scrolls to medieval manuscripts and printed books to personal computers and iPads this guide examines the fascinating history of books from 4000 BCE to the present At each step of this evolution technologies are examined and evaluated to show how these ideas are present from the very beginning of written communication Moving chronologically from the ancient world to the present the book shows how written communication media evolved from cuneiform to the Kindle Focusing on key technologies and vital periods of historical transition it traces an evolution that elucidates the history of the written word at each step examining and evaluating such aspects of technologies as memory capacity readability and writability durability

recyclability information security ease and mode of access and cost Additional attention is paid to how these technologies were made how they were circulated and who was reading them Sustaining Urban Networks Olivier Coutard, Richard Eugene Hanley, Rae Zimmerman, 2005 Considering sustainability in its economic environmental and social contexts the contributors take stock of previous research on large technical systems and discuss their sustainability from three main perspectives uses cities and rules and institutions Everybody's Aviation Guide Victor Wilfred Pagé, 1928 Everybody's Guide to the Insurance Acts, 1911-1913 Thomas Smith (Barrister-at-law), 1914 **The Business Guide to Selling Through Internet Auctions** Nancy L. Hix, 2001 For those businesses that want to supplement their sales online or those who want to sell online in a structured repeatable way this book shows the new online auction seller the ins and outs Businesses will learn how to find online auction sites and how to judge whether a particular one meets their needs how to register and establish an account and how to list auctions and attract bids
