It seeks both to maintain its rich history and to engage with other, sometimes dominant, cultural and political studies. This tension is producing complex changes in both the theory and the practice of Islamic Studies. This timely and stimulating Handbook, edited by world class experts in the field, provides a comprehensive guide to Islamic Studies today. It examines the main issues in the field and explores the key debates. It provides readers with an indispensable, balanced guide to the roots of Islam and the challenges it faces in the twenty first century. The Handbook includes discussions of Islam as a community of discourse and a global system, Islam diaspora and multiculturalism, The Qur'an today, Islam as a moral and judicial system, Islam and politics, Islam and culture, Diversities and Islam. Concise, level-headed and penetrating, this collection will be of interest to anyone who studies contemporary Islam. It brings together an unparalleled collection of international scholars who illuminate some of the most urgent and complex issues in the world today.

miraculously brought the mighty Christian Byzantine and Zoroastrian Persian empires to their knees In the span of a generation the Islamic world became one of the largest empires in history Despite the stereotype of Islam being spread with the sword it was mainly adopted and practiced peacefully Islam recognizes the fundamental importance of the individual's right to religious self determination Islam's aversion to compulsion and its affirmation of the individual's right to choose are clearly stated in the Quran Nevertheless a transformation has occurred in the Muslim world that has led to a decline in Islamic civilization This book summarizes the major historical factors that have contributed to this decline leading to the 9 11 terrorist attacks and proposes a three step process of conflict resolution between Islam and the West Internal problems especially doctrinal struggles were primarily responsible for Islam's downfall In addition disorder and intolerance followed from the devastating conquests by Christian Crusaders and Mongol hordes and more recently from the imperialism and colonization of the eighteenth and nineteenth centuries
